Legal Notice

Declaration

Without prior written permission of OnePlus, reproduction, transfer, distribution or storage of the contents in this document in any form is prohibited. OnePlus operates a policy of ongoing development. We reserve the right to make changes to any products described in this document without prior notice. The contents of this document are presented "as is". Except as required by applicable law, no warranties of any kind, either implied or express, are made in relation to the accuracy of this document. To the maximum extent permitted by applicable law, under no circumstances shall OnePlus or any of its licensors be responsible for any loss of data or income or any special, incidental, consequential, or indirect damages caused.
Availability of product specifications, application software, and accessories may vary. For detailed information, please refer to an authorized OnePlus distributor. This device may contain commodities, technology or software subject to the Export Rules and Regulations. Diversion contrary to law is prohibited.

Trademarks and Permissions

OnePlus and O are trademarks or registered trademarks of OnePlus Technology (Shenzhen) Co., Ltd. All rights reserved. Android™ is a trademark of Google LLC. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc.

The N Mark is a trademark or registered trademark of NFC Forum, Inc. in the United States and in other countries.

Other trademarks, product, service and company names mentioned may be the property of their respective owners.

Privacy Policy

We take your privacy seriously to protect your personal information. To better understand how we protect your personal information, you can read our "Privacy Policy" in the Setup Wizard when you turn on your phone for the first time. You can also check our "Privacy Policy" by following the steps: Settings > About Phone > Legal Information > Privacy Policy.

Safety

Please read all the safety and health information carefully before using your device to ensure its safe and proper operation.

General Safety Information

- The following safety guidelines may cause harm to your device, property, yourself, or others.
- Do not switch on the device when prohibited or when it may cause interference or danger.
- Do not use device at gas stations, service stations, or near fuel or chemicals.
- Please do not store or carry your mobile phone or accessories near liquid or flammable gas.
- Do not place your phone near magnetic cards or other magnetic objects, since information stored on floppy discs, memory cards and credit cards could be damaged by magnetic radiation.
- Do not place your phone near a microwave oven or other high-voltage equipment. Otherwise, it may cause circuit damage, fire, or other damage.
- Pacemakers, hearing aids, medical devices, might be susceptible to interference, and have potential interference. Please keep a safe distance and prohibit when using your mobile phone, especially in emergency hospital or medical institutions.
- Only use branded accessories and batteries that are approved by OnePlus. Using unapproved accessories or batteries may damage the phone or violate local regulations for radio devices. OnePlus cannot take any responsibility for accidents or problems caused by using accessories or batteries not approved by OnePlus.
- The device is designed for water resistance under certain conditions, but OnePlus does not recommend excessive submersion. Liquid damage will void the warranty.
- When connecting with other devices, please follow the safety guidelines presented in this manual. Do not attempt to connect your device with incompatible products.
- Please do not use the phone if antenna is damaged. Otherwise, it may cause injury.
- Please keep metallic objects away from phone receiver. Small metallic objects may be attracted to the device and personal injury or device damage may occur.
- Only connect to power sources with USB 2.0 or above.

Battery Safety

- Please do not attempt to repair, disassemble or modify the battery. Replacing battery by an incorrect type could lead to explosion. Your phone can only use OnePlus authorized batteries. Using third-party products may cause battery leakage, overheating or fire.
- Do not place your phone near heat sources, heaters, direct sunlight, or other heat sources. Prolonged exposure to heat may cause battery leakage, explosions, or fires.
- Do not place heavy pressure on or pierce the battery with hard objects. Damaging the battery could cause battery leakage, overheating, or fire.
- If you experience any battery abnormalities, such as high temperature, leakage, or deformation, please stop using the mobile phone, disconnect usage of the device and contact customer support.
- All batteries have a limited lifespan and will begin to lose capacity after several hundred charges/discharges.
- Do not dispose of the battery as household waste. Refer to local regulations.

Charging Safety

- The charger is intended for indoor use only.
- Do not charge the battery under the following conditions: in direct sunlight, in temperatures below 0°C, in areas with humidity, dust or vibration, or near a TV or other electronic devices that could produce electromagnetic interference. Otherwise, it may cause fire or damage to the equipment and malfunctions.
- The charger and the mobile phone must be compatible and functionally accurate.
- The maximum ambient charging temperature of the equipment declared by manufacturer is 35°C.
- Isolates that are dirty may cause poor contact with the charger and your device, causing charging failure.
- Please only use the official OnePlus chargers. Using unauthorized chargers can be dangerous and can void your warranty.
- Make sure to only connect with the correct charging location on the charging port. Using an incorrect charger can damage your phone.
- Do not use damaged charging cables.
- Do not use a short-circuit charger.
- Do not use the charger or cable in a high-voltage power supply, or the battery could become damaged.
- Do not disassemble or modify charger, as this may lead to personal injury, fire, or electric shock.
- Do not touch the charger, cable or power socket with wet hands, as this may cause electric shock.
- Do not allow heavy objects on the power cord or attempt to modify any cable.
- Make sure to press the charger firmly while unplugging.
- Do not pull the power cord as this may lead to damage and cause electric shock or fire.
- Before cleaning the device, unplug the power plug from the socket.
- Unplug the charger from electrical outlets and the device when not in use.

Driving Safety

- Safety should take priority when you are operating a vehicle. Be sure to follow local laws and regulations on mobile phone usage in cars.
- Do not place your phone or accessories near safety airbags.
- Compass and GPS information are only used for reference purposes.
- If you do not wish to charge your phone, be sure not to use applications that can record your location.

Health Information

To prevent possible hearing damage, do not listen at high volume levels for long periods.
- Exposure to high volume sound may lead to damage of the ear. If this sound sense is caused with ringing, buzzing, dizziness, dulled, clear your ears (do not rub) or wash dish with water thoroughly and seek medical attention.
- Some people may get dizzy or experience medical problems in response to flashing lights or light patterns. Please stop using the device if you feel this device. If you have the following symptoms: headache, dizziness, convulsions, eyes or muscle cramps, loss of consciousness, or involuntary movement, please stop using the device immediately and seek medical attention. Avoid using the device for extended periods and keep proper distances from your eyes.

Laser Safety Statement

If this product supports the laser autofocus feature. To ensure proper use of this product, please read this owner's manual carefully and retain for future reference. Should the unit require maintenance, contact an authorized service station. Use of controls, adjustments or the performance of procedures other than those specified herein may result in hazardous radiation exposure. To prevent direct exposure to laser beam, do not try to open the enclosure or make direct contact with the laser.

PRODUCT LASER PRODUCT

EU Regulatory Conformance

CE Statement

Hereby, OnePlus Technology (Shenzhen) Co., Ltd. declares that the radio equipment type Ivan1Phone is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address:
https://www.oneplus.com/support/manuals

Notice: Observe the national laws and regulations in the location where the device is used. This device may be restricted for use in some or all member states of the European Union (EU).

RF Exposure Information (SAR)

- This Ivan1Phone is compliant with the EU Council Recommendation 1999/519/EC on the limitation of exposure of the general public to electromagnetic fields.
- This device was tested for typical operation with the back of the handset kept 5mm from the body. To maintain compliance with RF exposure requirements, use accessories that maintain a 5mm separation distance between your body and the back of the handset. The use of belt clips, holsters and other accessories that not contain metal in its components in its assembly. The use of accessories that do not satisfy these requirements may not comply with RF exposure requirements, and should be avoided. Use only the supplied or an approved replacement antenna such as antenna by the network owner or use of accessories.
- Cases with metal parts may change the RF performance of the device, including compliance with RF exposure guidelines in the case of metal parts that have not been tested for compliance, and use such accessories should be avoided.

Conformément à la réglementation française, nous soumes obligés de vous informer des mesures de sécurité supplémentaires concernant les mesures de précaution, vous pouvez trouver notre exposition à l'énergie de radiofréquence.
Qu'une ligne de notre appareil mobile dans des zones de bonne couverture réseau.
- Lorsque un tel niveau bas pour maintenir notre appareil mobile allumé de notre usage et du nos jours. Dans ce dernier cas, il est conseillé aux femmes enceintes et les personnes ayant mobile et leur ventre. Il est conseillé aux personnes ayant un dispositif de type stent de garder une distance.

Restrictions in 5GHz band

The device is restricted to indoor use only when operating in the 5150 to 5350 MHz frequency range in the following countries:

BE	BG	CZ	DK	DE	EE	IE	EL	ES	FR	HR	IT	CY	LV	LT	LU	HU	MT
NL	AT	PL	PT	RO	SI	SK	FI	SE	TR	UK(NI)	NO	CH	IS	LI			

Frequency Bands: This device operates in the following frequency bands:
(a) Frequency bands in which the radio equipment operates: Some bands may not be available in all countries or areas. Please contact the local carrier for more details.
(b) Maximum radio-frequency power transmitted in the frequency bands in which the radio equipment operates: Maximum radio-frequency power in frequency bands in which the radio equipment operates is not exceed the highest value specified in the related harmonised standard.
Please see the "Quick Start Guide" to find the frequency bands and Declaration power.

Correct Disposal of this Product

This mark on your wheelie bin symbol on your product, battery, literature or packaging indicates that the product and its electronic accessories should not be disposed of with other household waste at the end of their your device, please use return and collection systems or contact the retailer where the device was originally purchased.

RoHS Compliance

This product complies with directive 2011/65/EU and its amendments, on the restriction of the use of certain hazardous substances in electrical and electronic equipment.

FCC Regulatory Conformance

FCC Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications or changes to this equipment. Such modifications or changes could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

FCC Caution

• Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
• The antenna(s) used for this transmitter must not be co-located or operate in conjunction with any other antenna or transmitter.
• Operation of the 5150–5250 MHz in the band 47 CFR Part 15.407 is only for indoor use. For FCC regulations, all Wi-Fi products marketed in US must be fixed to US operation channels only.

RF Exposure Information (SAR)

• This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government.
• The SAR limit set by the FCC is 1.6W/kg. The highest SAR value of this device type complies with this limit. And please see the "Quick Start Guide" to find the highest SAR value reported to FCC.
• Tests for SAR are conducted using standard operating positions accepted by the FCC with the phone transmitting at its highest certified power level in all tested frequency bands.
• Although the SAR is determined at the highest certified power level, the actual SAR level of the device while operating can be well below the maximum value. This is because the device is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the power output.
• While there may be differences between the SAR levels of various devices and various positions, they all meet the government requirement.
• The device has also been tested and meets the FCC RF exposure guidelines when used with an accessory that contains no metal and positions the handset a minimum of 15mm from the body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines. Position the handset a minimum of 15mm from your body when the device is switched on.
• Choose the belt clips, holsters, or other similar body-worn accessories that maintain a 15mm separation distance between the user's body and the back of the device, including its antenna while operating. Use of such accessories should be avoided.

Hearing Aid Compatibility (HAC) regulations for Mobile phones

• Your phone is compliant with the FCC Hearing Aid Compatibility regulations.
• The FCC has adopted HAC rules for digital wireless phones. These rules require certain phones to be tested and rated under the American National Standards Institute (ANSI) C63.19-2011 hearing aid compatibility standards.
• The ANSI standard for hearing aid compatibility contains two types of ratings:
• Wave Coupling (Formerly known as Radio Frequency interference to acoustic coupling with hearing aids.)
• Telecoil Coupling (Formerly known as Inductive coupling with hearing aids to telecoil mode.)
• Wave Coupling Ratings for mobile phones are given in a scale from M1 to M4 (M4 is the most compatible). Your phone meets the M3/T3 standards.
• However, hearing aid compatibility ratings don't guarantee that hearing aids will work with your phone. Hearing aids vary in design, depending on the level of immunity of your hearing device and the degree of your hearing loss. If your hearing device happens to be susceptible to interference, you may not be able to use a rated phone successfully. Trying out the phone with your hearing device is the best way to evaluate it for your individual needs.
• This phone has been tested and rated for use with hearing aids for some of the wireless technologies that it uses. However, there may be some newer wireless technologies used in this phone that have not been tested yet for use with hearing aids. It is important to try the different features of this phone thoroughly and in different locations, using your hearing aid or cochlear implant, to determine if any interference is heard. If you are using your service provider or the manufacturer of this phone for information on hearing aid compatibility, if you have questions about return or exchange policies, consult your service provider or phone retailer.
• Hearing devices may also be rated. Your hearing device manufacturer or hearing health professional may refer you to this rating. For more information about FCC Hearing Aid Compatibility, please go to http://www.fcc.gov/cgb/dro.

Industry Canada Conformance

IC Statement

This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions:
(1) This device may not cause interference; and
(2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:
(1) L'appareil ne doit pas produire de brouillage; et
(2) L'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This device complies with the Canadian ICES-003 Class B specifications. CAN ICES-3(B)/NMB-3(B).
Cet appareil numérique de la Canadien ICES-003. Cet appareil numérique de la Canadien est conforme à la norme NMB-003 du Canada.

Restrictions in 5GHz band

This device is restricted to indoor use when transmission in case of absence of information is required, or operation is subject to the condition that this is not intended to prohibit transmission of control or signaling information or the use of equipment on orbits where required by the building. This device operation in the band 5150MHz-5250 MHz is only for indoor use to reduce any potential for harmful interference to co-channel MSS operation.
Restrictions: high-power radars are allocated as primary users (i.e. priority users) of the bands 5250-5350 MHz and 5650-5850 MHz and these radars may cause interference and/or damage to LE-LAN devices.

This user manual contains important safety information. Please read carefully before using the device and retain for future reference.

device type complies with this limit. And please see the "Quick Start Guide" to find the highest SAR value reported to FCC.
• Tests for SAR are conducted using standard operating positions accepted by the FCC with the phone transmitting at its highest certified power level in all tested frequency bands.
• Although the SAR is determined at the highest certified power level, the actual SAR level of the device while operating can be well below the maximum value. This is because the device is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the power output.
• While there may be differences between the SAR levels of various devices and various positions, they all meet the government requirement.
• The device has also been tested and meets the EU2014/53 RF exposure guidelines when used with an accessory that contains no metal and positions the handset a minimum of 15mm from the body. Use of other accessories may not ensure compliance with EU2014/53 RF exposure guidelines. Position the handset a minimum of 15mm from your body when the device is switched on.
• Choose the belt clips, holsters, or other similar body-worn accessories that maintain a 15mm separation distance between your body and the back of the device, including its antenna while operating. Use of such accessories should be avoided.

Dichiarazione di esposizione ai radiazioni:
La presente apparecchiatura è conforme ai limiti di esposizione per le apparecchiature RF per la Bassa Tensione Direttiva Canada definiti per un ambiente non controllato. Il dispositivo è stato valutato per soddisfare ulteriori RF esposizione linee guida in Supplemento C OET65 e RSS-102 RF esposizione Exposed Limit. Il corretto uso ergonomico del dispositivo garantisce che il dispositivo emette il livello di energia RF più basso necessario per raggiungere la rete. Il dispositivo è progettato per essere portato a 5mm di distanza dal corpo del utente. Per garantire la conformità RF esposizione, si consiglia di mantenere una distanza di 5mm dal corpo del utente. Non utilizzare accessori che non contengono metalli. Il dispositivo è conforme alle linee guida di esposizione RF quando viene utilizzato in posizione normale a contatto con il corpo. Il dispositivo è conforme alle linee guida di esposizione alle radiofrequenze (RF) se viene usato in posizione normale a contatto con il corpo. Il dispositivo è conforme alle linee guida di esposizione alle radiofrequenze (RF) se viene usato in posizione normale a contatto con il corpo.

India Regulatory Conformance

Sensitive E-Information

Regulated by mandatory by OnePlus in compliance with the Sensitive Rules for E-Information. Considering the exemption listed in Rule 3(b)(ii) & (iii) of the Sensitive Rules, the content of hazardous substances is as follows:
1. Lead (Pb) — not over 0.1% by weight.
2. Mercury (Hg) — not over 0.1% by weight.
3. Hexavalent chromium (Cr6+) — not over 0.1% by weight.
4. Hexavalent Mercury (Hg6+) — not over 0.1% by weight.
5. Cadmium (Cd) — not over 0.01% by weight.
6. Polybrominated diphenyl Ethers (PBDEs) — not over 0.1% by weight.

For the purpose of recycling and reducing the effect of the environment, the Electronic Equipment that not contain disposed of with other household waste at the end of their lifetime should be separately collected and brought them to the authorized waste company. As part of Sweeta recycling initiative, OnePlus has partnered with an authorized Sweeta recycling company to offer customers a convenient way to recycle their previous product. For further information about the OnePlus Sweeta partner nameed AS Waste, you can contact at:
Name: Ms. Ankita Sharma
Email: info@gsmra.in
Phone: +91-9717445320

Languages of Input

You can choose your language according to the following steps:
Settings > System > Languages & input > Language > Choose your preferred language.

Mobile phones supporting the below mentioned Indian Official Languages by installing third-party input methods:
ASSAMESE, BENGALI, BODO, DOGRI, GUJARATI, HINDI, KANNADA, KASHMIRI, KONKANI, MAITHILI, MALAYALAM, MANIPURI, MARATHI, NEPALI, ORIYA, PUNJABI, SANSKRIT, SANTHALI, SINDHI, TAMIL, TELUGU, URDU, ENGLISH

This mark supports recycling for below mentioned Indian Official Languages as per IS 12333:2002 Dec 2017:
HINDI, BANGLA, ENGLISH

Care and Maintenance

The following suggestions will help you maintain and prolong the life of your device:
• Only qualified and authorized personnel should make repairs to this product.
• Dissolving features such as alcohols and thinner when not in use and clean the device with a dry cloth. Do not use chemicals or cleaning agents.
• Clean your phone and charger with a soft, clean, dry cloth. If the screen cover is dirty, contact with liquid or dust, please clean it immediately. Do not use any other cleaning agents or solvents.
• Touching the screen with a sharp object may cause the screen to be scratched.
• Do not touch the connection part of the phone, as static electricity may harm components in the device.
• Environmental temperatures are 0°C to 35°C. Best storage temperatures are +5°C to +45°C.
• Only operate your phone between 20% and 80% humidity.
• Do not place your phone near magnetic objects.
• Do not hit, press, shake or drop the phone to avoid damage and injury.
• Chargers are not waterproof. Please do not use these devices in the environment with high humidity, such as in the bathroom, to avoid risk.
• When the phone is transmitting data or saving information, do not remove the SIM Card.
• Keep the phone and its accessories out of reach of children in order to prevent injuries or property damage.

OnePlus Device Warranty Information

OnePlus Devices purchased from oneplus.com or authorized sales channels are covered by a limited warranty. The duration of the warranty is determined by the original buyer's region of purchase and is not transferable. Within the original country or region, unless otherwise specified, the warranty covers defects in workmanship and materials in the device, its supplied and stated accessories, or parts (batteries, software, consumable items, or accessories, even if packaged or sold together with the product, are not covered by the warranty). For more information, please contact OnePlus Customer Support by visiting oneplus.com/support.

The limited warranty does not cover:

1. Defects or damage resulting from accidents, neglect, misuse, or improper use, abnormal conditions or improper storage, exposure to liquid, moisture, dampness, sand or dirt, unusual physical, electrical or electromagnetic stress.
2. Scratches, dents and cosmetic damage, unless caused by OnePlus.
3. Defects or damage resulting from excessive force or use of metallic objects on the touch screen.
4. Devices that have the serial number or IMEI number removed, defaced, damaged, altered or made illegible.
5. Normal wear and tear.
6. Defects or damage resulting from the use of the product in conjunction or connection with accessories, products, or ancillary/peripheral equipment not furnished or approved by OnePlus.
7. Any physical human defects or damage resulting from improper testing, operation, maintenance, installation, service, or adjustment not furnished or approved by OnePlus.
8. Defects or damage resulting from external causes such as collision with an object, fire, flooding, sand, dirt, battery leakage, overheating, exposure to weather conditions, theft, blown fuse, or improper use of electrical source.
9. Defects or damage resulting from cellular signal reception or transmission, or viruses and third-party software problems introduced into the product.
10. Free warranty replacements and repairs are only valid in the country or region of purchase. Please contact OnePlus Customer Support for more details.

Return Policy (Limited to North America & Europe)

If you are not satisfied with your OnePlus product, please read carefully and exhaust rigorous testing. If you are not satisfied with your OnePlus product for any reason, you may request a return within 15 calendar days of receipt.
Once we approve your return request and receive the product, we will perform standard inspection. And if the product passes the inspection, we will give you a full refund. Any shipping and handling fees incurred in the return process are not covered by the refund.
Opened software, accessories, and other goods are not accepted. We may also choose not to accept returns within these circumstances:
1. Defects or damages caused by misuse, neglect, physical damage, unauthorized modification, improper storage, normal wear and tear or normal breakdown after purchase.
2. Price fluctuations being the sole reason for return.
Consumers in the European Union, the European Economic Area, the UK, Consumer Rights Act 2015, any goods that are not 1) of satisfactory quality; 2) fit for their given purposes; or 3) as described, may be returned free of charge within 30 days of delivery. Please provide a clear description of the problem with your device in order to be eligible for a refund, you must contact us within 30 days of receipt of the product if it is defective, damaged, or not as described. We may choose not to accept returns for any of the above mentioned circumstances. In all cases, we will inspect the returned product. If it is found to be in a condition that is not as described, we reserve the right to refuse a refund or exchange if the product returned is deemed to have been damaged.

Please contact OnePlus Customer Support to request a return at oneplus.com/support.
