P 4 of 4

WWF ATTITUDE RACING RADIO CONTROLLED CAR

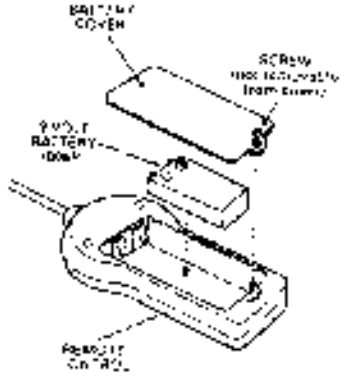
For Ages 5 and Up
Asst. No.: 85990

INSTRUCTION SHEET

Before starting, your toy requires (1) 9 volt battery, (3) "AA" batteries and a *Phillips* screwdriver (not included) for assembly.

How to install the Batteries

Step 1 Remote Control

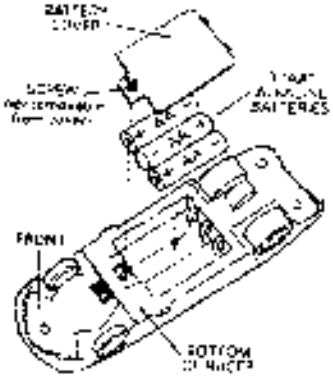


A. Unscrew the battery cover on the back of the remote control, using a Phillips screwdriver and remove.

B. Insert (1) 9 volt battery into the battery compartment carefully noting the direction of the (+) and (-) symbols as shown.

C. Replace the cover and tighten the screw.

Step 2 Racer



A. Take the Racer and turn it upside down.

B. Unscrew the battery cover on the bottom of the Racer and remove.

C. Insert 3 "AA" size alkaline type batteries into the battery compartment as shown, carefully noting the direction of the (+) and (-) symbol.

D. Replace the cover and tighten the screw.

How the Racer works

A. Place the Racer on a smooth, hard surface.

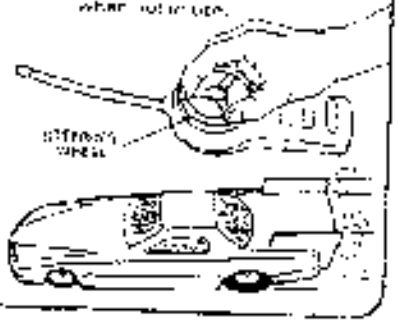
B. Slide the Switch, in the bottom of the Racer, to "ON" position. This will turn the Racer's power "ON" and Racer will start spinning around in circles.

C. When the Racer faces the direction you want it to go, switch and hold the steering wheel on the remote.

D. The Racer will stop spinning, and go forward in a straight line.

E. Release steering wheel and Racer will start spinning again.

Note: Be sure to turn the Racer "OFF" when not in use.



BATTERY SAFETY INFORMATION

CAUTION

Take care of safety & ensure batteries are inserted correctly observing polarity marks on battery and product.

- Remove and replace all batteries simultaneously.
- Do not attempt to recharge non-rechargeable batteries.
- Rechargeable batteries must be removed from toy before recharging.
- Remove and recharge rechargeable batteries only under adult supervision.
- Avoid short circuiting the contacts of the battery compartment or the battery terminals.
- Remove exhausted batteries from toy.
- Do not mix old and new batteries or batteries of different types, as in alkaline and carbon zinc.
- Do not attempt to power battery powered toy from the mains supply or recharge battery in toy. Do not attempt to plug any part of the product into the mains supply.
- Remove batteries from product when not in use and during storage periods.
- Remove batteries when worn or damaged as this may result in leakage.
- Do not use batteries of the same or equivalent type to those recommended.
- Do not mix the power supply of toy with other toys.
