EDIFIER®

FCC Regulatory Compliance

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF Exposure Compliance
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

ISED Regulatory compliance

This device contains licence-exempt transmitters that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s).
Operation is subject to the following two conditions:
This device may not cause interference.
This device must accept any interference, including interference that may cause undesired operation of the device.
L'émetteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :
L'appareil ne doit pas produire de brouillage;
L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
Cet équipement est conforme aux limites d'exposition aux radiations IC CNR-102 établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec une distance minimale de 20 cm entre le radiateur et votre corps.

Important safety instruction

WARNING: To reduce risk of fire or electric shock, do not expose this appliance to rain or moisture.
CAUTION: To reduce risk of electric shock, do not remove cover (or back). No user serviceable parts inside. For servicing refer to qualified service personnel.

The Lightning Flash with Arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

Explanation of Graphical Symbols

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water. 6. Clean only with dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding-type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician to replace the obsolete outlet.
10. Protect the power cord from being walked on or pinched particularly at plugs, receptacles, and the point where they exit from the apparatus.
11. Only use attachments/accessories specified by the manufacturer.
12. Unplug this apparatus during lightning storms or when unused for long periods of time.
13. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
14. Battery shall not be exposed to excessive heat such as sunshine, fire or the like.
15. Do not use long cord, chang which will be stretched currently to have the product unplug. Please use replace cord or cable to have the product connected.

Only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

Special Chemical Cautions and Warnings: The warning indicates that the product contains chemicals known to the state of California to cause cancer, birth defects or other reproductive harm. Wash hands after handling. Do not ingest battery. Keep out of reach of children and pets. Do not disassemble or mutilate battery. Do not expose battery to heat or fire. Avoid contact with skin if battery leaks. Avoid ingestion of battery electrolyte. Keep battery terminals clean. Replace only with battery of the same type and rating. Remove batteries from equipment if not used for a long period of time. Dispose of battery properly. Do not short circuit battery.

Battery Disposal: Do not dispose of batteries in fire or with household waste. Dispose of batteries in accordance with local laws and regulations. Do not short circuit the battery. Do not disassemble or mutilate the battery. Do not expose the battery to fire or high temperature. Do not immerse the battery in water or other liquids. Do not swallow the battery. Keep batteries out of reach of children and pets. Remove batteries from equipment if not used for a long period of time.

Cleaning: Unplug the unit before cleaning. Clean only as recommended. Do not use solvents, chemicals, or other harsh substances to clean the unit. Use only a dry cloth or a cloth dampened with a mild detergent solution.

Power Source: This product should be operated only from the type of power source indicated on the rating plate. If you are not sure of the type of power you have, consult your dealer or local power company.

Overloading: Do not overload wall outlets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.

Lightning: For extra protection during a lightning storm, or when unattended and unused for long periods of time, unplug the unit from the wall outlet and disconnect the cable system. This will prevent damage due to lightning and power line surges.

Liquids: Do not spill liquids of any kind on the product. Should a liquid inadvertently get into the product, have it checked by a qualified service technician before you attempt to use it.

Servicing: Do not attempt to service this product yourself. Opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.

Damage Requiring Service: Unplug this product from the wall outlet and refer to qualified service personnel under the following conditions: a) When the power cord or plug is damaged or frayed. b) If liquid has been spilled, or if objects have fallen into the product. c) If the product has been exposed to rain or water. d) If the product does not operate normally when the operating instructions are followed. Only adjust those controls that are covered by the operating instructions. Improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician. e) If the product has been dropped or the cabinet has been damaged. f) If the product exhibits a distinct change in performance.

Replacement Parts: When any replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer or have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock or other hazards.

Safety Check: Upon completion of any service or repairs to this product, ask the service technician to perform safety checks to determine that the product is in proper operating condition.

Heat: The product should be situated away from heat sources such as radiators, heat registers, stoves, or other products that produce heat.
