Add Scene...

Add scene

Scenes (action sets) represent a state of your home. You must have at least one paired accessory to create a scene.

TRIGGERS

Add Trigger...

Add trigger, click pop trigger type: Time, Characteristic, Location three types

Triggers set scenes at specific times, when you get to locations, or when a characteristic is in a specific state. You must have created at least one scene with an action to create a trigger.

SERVICE GROUPS

Add Service Group...

Service groups organize services in a custom way. For example, add a subset of lights in your living room to control them without controlling all the lights in the living room.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.
