

# 1 Huzzah!

Step 1 is to pat yourself on the back for being part of the 3D printing revolution!

## Power Up

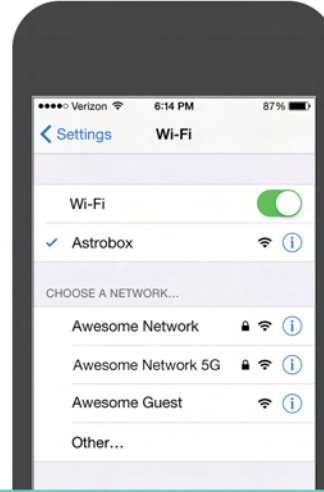

Plug the power into your AstroBox and plug it into the wall. You can plug into either of the two power ports (micro usb) on the AstroBox.

## 2

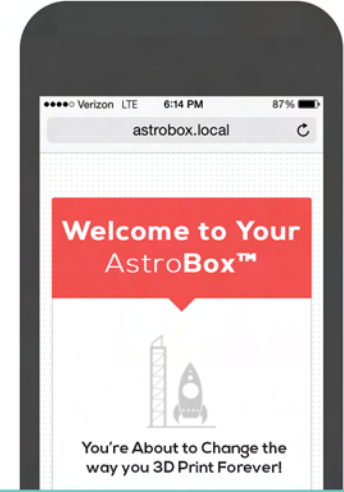

# 3 Open Communications

Using your phone, tablet, or computer, search for wifi networks. Join the AstroBox wifi network. This shouldn't take long, but in some cases may take a minute or two.

# 4 Make Contact

In your favorite browser (Ex: Chrome, Firefox, etc.) go to the address: <http://Astrobox.local>.  
\*If using an Android device, go to: <http://10.10.0.1>.

# 5 Systems Check

Follow the steps of the setup wizard to get going!

## Launch!

Get printing, then tell all your awesome friends about AstroPrint!

## 6

# The AstroBox Quickstart Guide

Welcome to AstroPrint! Setting up your AstroBox is super simple, we'll have you printing in no time flat.

 **Astroprint™**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

1) The Responsible party information:

Company name: 3DAGOGO,INC;

Address: 4761 Atlanta Dr, San Diego, CA 92115, United States;

Tel: (858) 621-3888

2 ) The name / model number of the product: Astro Box / 1.0

The device should be installed and operated with a minimum distance of 20 cm between the radiator and your body to comply with the RF exposure requirement.

Shielded USB and HDMI Cable must be used to comply with FCC Class B requirement.

The shielded USB cable and HDMI cable will be included in the product package and these two type cable will be provided to the end user free of charge.
