

4. Save

Fig 15-1-4

Once you've perfected your editing and have created your greeting card or calendar, click on the save function to save your work.

Save: Saves your work and automatically over ride the previously saved work.

Save As: Allows you to rename your work and save it under a different name.

Email: Automatically attaches the selected image to an email. This function uses MAPI.

Make sure your Email program supports MAPI (Outlook, Eudora, etc...)

5. Print

Printing Templates

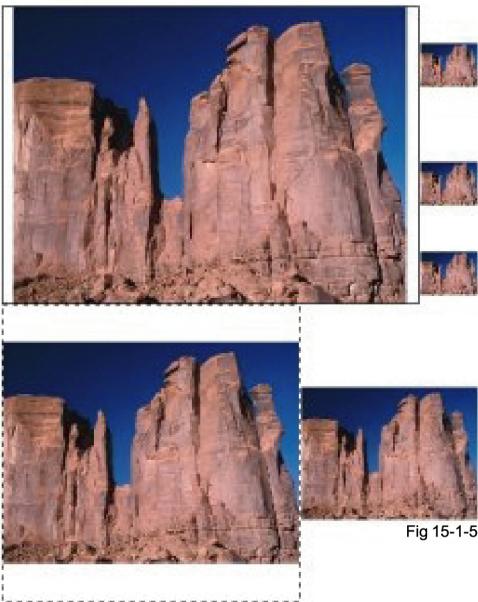

Fig 15-1-5

Once you have save your work, you can easily print your work using several different templates. Use sticker paper instead of normal printing paper and you can instantly create your own sticker pictures.

For any additional questions, you can contact Arcsoft directly via the web at www.arcsoft.com.

16. Microsoft^(R) NetMeeting^(TM)

AlphaCam plus

16.1. NetMeeting^(TM) Setup

1) The first time Microsoft^(R) NetMeeting^(TM) is accessed, it will require a setup. This process will create a NetMeeting^(TM) account and allow you to video conference over the Internet.

Click 'Next' to continue.

Fig 16-1-1

2) Enter the appropriate information in each text box.

Click 'Next' to continue.

Fig 16-1-2

3) Select the box *Log on to a directory server when NetMeeting^(TM) starts*. Designate the directory as *Microsoft Internet Directory*. It is optional whether the second box is selected.

Click 'Next' to continue.
