### INSTRUCTIONS FOR USE

#### Charging the unit

For best results, fully charge for unit before first use (8 hours should be better).

1-Connect the Adapter to the charging port located at the back of the speaker and insert the other end into the power source.

2-The LED at the back turns red when the battery is being charged. Once it is fully charged the Red LED will turn off. It will take about 6 hours to fully charge the battery.

- \*Turn On/Off the Bluetooth Speaker
- \*Slide the On/off button at the back of speaker.

#### Turn the speaker to Bluetooth pairing mode.

- 1-Slide the On /Off button at the back of speaker
- 2-The Blue LED blinks. This indicates that it is in pairing mode.

(Noted: If you have paired to the speaker before, then the speaker will pair automatically with the last device it connected)

#### Pairing your device with Bluetooth Speaker

Your Sofa speaker can wirelessly stream audio from any Bluetooth enabled device within 8~10 meter. Simply follow the below steps.

1. Turn on the speaker and the Blue LED light will blink.
2. Turn on the Bluetooth on your Mobile phone or Tablet or Computer
3. It will search for Bluetooth devices
4. The pairing name of our Bluetooth speaker is “SL BT OTTOMAN”,Pair it with this device.
5. If required, enter the password “0000” to confirm to finalize pairing.
6. Once paired successfully, the blue LED will flash slowly.
7. If you fail to pair it within the time frame or you want to pair it with a new device. Please follow the steps outlined above.
8. Select your favorite song at the Bluetooth device and play it through your sofa speaker.

#### Aux function of the Bluetooth Speaker

1. Turn on speaker by sliding the On/Off button at the back of the speaker.
2. Put the 3.5mm Aux in cable (provided) to the Aux port of the speaker, and,the other end of the cable connects in the audio device (such as computer/tablet/....etc.).
3. The blue LED will light up.
4. Select your favorite song at the Bluetooth device and play it through your sofa speaker.

(Note: When you put 3.5mm Aux in cable into the Aux port of the speaker, the Bluetooth connectivity of the speaker will be lost when Aux is in use.)

### Specification

Power output: Rms 5.5w\*2

Built-in lithium battery : 2000mAh / 7.4V

Power supply: DC 9V

Frequency response: 80HZ-20KHZ

Resistance: 4Ω

Charging time: About 8 hours

Unit size: 45cm\*45cm\*45cm

\*Bluetooth version: V2.0+EDR

\*Spare parts : AUX cable, DC 9V adapter

### FCC Warning

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
