

Remote control instruction

1.6 Handheld Remote Control Charging

The remote has a built-in Polymer Lithium rechargeable battery. It comes with a custom made charging cable. Connect one end to the blades of the remote control and another the other end to any USB female device (5V dc) for charging.

Make sure the remote has been charged before used.

1.7 Handheld Remote Control Synchronizing

The remote has a receiver dongle (AQ-DM-6UBT-R) with a built-in male DIN connector. Connect the dongle to the female DIN connector of BlueCube Media Player (AQ-BC-6BT).

The remote should already be paired from the factory, but if you need to synchronize the remote, follow below steps.

1. Make sure BlueCube Media Player (AQ-BC-6BT) is powered ON (red LED lit)
2. Put the remote close to the dongle (AQ-DM-6UBT-R) (ideally within 0.5 meter)
2. Press and hold **MODE** until the LCD shows "Pairing in Progress". Release the button.
3. Within 2 seconds, the LCD will show "Paired". If it fails to pair, the LCD will show "Retry again". If this happens, wait 5 seconds and repeat the above procedures.

For any additional remote controls, you will also need to synchroize those remote controls to the BlueCube Media Player (AQ-BC-6BT).

- i** If the pairing process is not successful, try again to put your remote close to the dongle.
- i** Depending on the frequency of usage, the remote might drain its battery. Please charge the remote before use. If the LCD shows nothing, it means that the battery has been drained.
- i** If you have lost your remote control and buy a new remote control, please follow the above steps to pair the remote control

FCC Statements

Bluecube Media Player AQ-BC-6UBT

FCC ID:WBQAQRFDM6T
MADE IN CHINA

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Consult the dealer or an experienced radio/TV technician for help.

The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user authority to operate the equipment.
