

❖ Battery use reminders

1. Remove worn-out batteries from equipment immediately and dispose of promptly.
2. Keep all batteries (used or new) out of the reach of children.
3. To have the batteries with a regular check and replace new batteries if not used for a long time.
4. Never dispose of batteries in fire, as they could explode.
5. Always replace all the batteries at the same time. Mixing old and new batteries or mixing types (such as alkaline with zinc carbon) will reduce overall performance and could cause leakage or rupture.
6. Do not mix different types of batteries (e.g. Ni-MH, NiCd, alkaline, and etc) in the mouse.
7. Remove batteries from the electrical device if the device is not going to be used for a long time.
8. If the performance of the batteries decreases substantially, it is time to replace the batteries.

Mini Bluetooth Laser Mouse L168BT

User's Guide

Introduction

Congratulations on your purchase of the most innovative bluetooth mini mouse. With an incredible sensitivity to surface details and high tracking speed than other mice, the mouse can track reliably even on tricky polished or wood-grain surfaces. It offers even more advance that will make you more productive and more comfortable.

! Safety Notice

Federal Communications Commission (FCC) Statement

You are cautioned that changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

NOTE: This device has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause interference and
2. This device must accept any interference, including interference that may cause undesired operation of the device.

Radiation Exposure Statement:

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance. To maintain compliance with FCC RF exposure compliance requirements, please follow operation instruction as documented in this manual.

This device must not be co-located or operating in conjunction with any other antenna or transmitter.
