FEATURES

- Compatible with Apple watch Series 1, Series 2, Series 3, Series 4.
- Compatible with mobile phone with Qi certified function.

Quick Setup Guide

Step 1. Connect Power

- AC adapter plug into wall socket, micro USB connects with AC adapter and smaller tip inserts to rear side of wireless charging pad.

Ver.00 Rev.000830y

- The green LED indicator lights up after it is connected well.

Step 2. Choose suitable silicon holder

- There are two options of silicon holder in order to fit different dimension for apple watch magnetic charging cable.

- To fit your existing Apple Watch Magnetic Charging cable into the Silicon holder.
Remark: To keep the rubber ring on the Apple Watch holder with a bit clearance, if too tight, you can switch with another rubber ring and match different size Apple Watch Charging cable.

Step 3. Alignment charging center

- Leave your mobile phone on the wireless charging pad area and ensure its center aligns with the center of wireless charger.

- Put your Apple watch on the charging stand and the magnetic attraction force will hold the apple watch well.

- **Attention:** Using an ultra-thick protective phone case ($\geq 5\text{mm}$) or a case with a magnetic/iron is not recommended as it may affect the wireless charging function.

Warning

- Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

FCC Statements

- This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received including interference that may cause undesired operation.

- **NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

- If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
 - Increase the separation between the equipment and receiver
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
 - Consult the dealer or an experienced radio/TV technician for help
- Note:** The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate this equipment. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. The distance between user and products should be no less than 20cm.
