# IN SEARCH OF INCREDIBLE

E-Manual

**ASUS**

## COPYRIGHT INFORMATION

No part of this manual, including the products and software described in it, may be reproduced, transmitted, transcribed, stored in a retrieval system, or translated into any language in any form or by any means, except documentation kept by the purchaser for backup purposes, without the express written permission of ASUSTeK COMPUTER INC. ("ASUS").

ASUS PROVIDES THIS MANUAL "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OR CONDITIONS OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT SHALL ASUS, ITS DIRECTORS, OFFICERS, EMPLOYEES OR AGENTS BE LIABLE FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES (INCLUDING DAMAGES FOR LOSS OF PROFITS, LOSS OF BUSINESS, LOSS OF USE OR DATA, INTERRUPTION OF BUSINESS AND THE LIKE), EVEN IF ASUS HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES ARISING FROM ANY DEFECT OR ERROR IN THIS MANUAL OR PRODUCT.

Products and corporate names appearing in this manual may or may not be registered trademarks or copyrights of their respective companies, and are used only for identification or explanation and to the owners' benefit, without intent to infringe.

SPECIFICATIONS AND INFORMATION CONTAINED IN THIS MANUAL ARE FURNISHED FOR INFORMATIONAL USE ONLY, AND ARE SUBJECT TO CHANGE AT ANY TIME WITHOUT NOTICE, AND SHOULD NOT BE CONSTRUED AS A COMMITMENT BY ASUS. ASUS ASSUMES NO RESPONSIBILITY OR LIABILITY FOR ANY ERRORS OR INACCURACIES THAT MAY APPEAR IN THIS MANUAL, INCLUDING THE PRODUCTS AND SOFTWARE DESCRIBED IN IT.

## LIMITATION OF LIABILITY

Circumstances may arise where because of a default on ASUS' part or other liability, you are entitled to recover damages from ASUS. In each such instance, regardless of the basis on which you are entitled to claim damages from ASUS, ASUS is liable for no more than damages for bodily injury (including death) and damage to real property and tangible personal property; or any other actual and direct damages resulted from omission or failure of performing legal duties under this Warranty Statement, up to the listed contract price of each product.

ASUS will only be responsible for or indemnify you for loss, damages or claims based in contract, tort or infringement under this Warranty Statement.

This limit also applies to ASUS' suppliers and its reseller. It is the maximum for which ASUS, its suppliers, and your reseller are collectively responsible.

UNDER NO CIRCUMSTANCES IS ASUS LIABLE FOR ANY OF THE FOLLOWING: (1) THIRD-PARTY CLAIMS AGAINST YOU FOR DAMAGES; (2) LOSS OF, OR DAMAGE TO, YOUR RECORDS OR DATA; OR (3) SPECIAL, INCIDENTAL, OR INDIRECT DAMAGES OR FOR ANY ECONOMIC CONSEQUENTIAL DAMAGES (INCLUDING LOST PROFITS OR SAVINGS), EVEN IF ASUS, ITS SUPPLIERS OR YOUR RESELLER IS INFORMED OF THEIR POSSIBILITY.

# About this manual

This manual provides information about the hardware and software features of your Notebook PC, organized through the following chapters:

## Chapter 1: Hardware Setup

This chapter details the hardware components of your Notebook PC.

## Chapter 2: Using your Notebook PC

This chapter shows you how to use the different parts of your Notebook PC.

## Chapter 3: Working with Windows® 10

This chapter provides an overview of using Windows® 10 in your Notebook PC.

## Chapter 4: Power-On Self-Test (POST)

This chapter shows you how to use POST to change the settings of your Notebook PC.

## Tips and FAQs

This section presents some recommended tips, hardware FAQs, and software FAQs you can refer to for maintaining and fixing common issues with your Notebook PC.

## Appendices

This section includes notices and safety statements for your Notebook PC.

## Conventions used in this manual

To highlight key information in this manual, some text are presented as follows:

---

**IMPORTANT!** This message contains vital information that must be followed to complete a task.

---

**NOTE:** This message contains additional information and tips that can help complete tasks.

---

**WARNING!** This message contains important information that must be followed to keep you safe while performing tasks and prevent damage to your Notebook PC's data and components.

---

## Icons

The icons below indicate the devices you can use for completing a series of tasks or procedures on your Notebook PC.

= Use the touch screen panel.

= Use the touchpad.

= Use the keyboard.

## Typography

**Bold** = This indicates a menu or an item that must be selected.

*Italic* = This indicates sections that you can refer to in this manual.

# Safety precautions

## Using your Notebook PC

This Notebook PC should only be used in environments with ambient temperatures between 5°C (41°F) and 35°C (95°F).

Refer to the rating label on the bottom of your Notebook PC and ensure that your power adapter complies with this rating.

Do not leave your Notebook PC on your lap or near any part of your body to prevent discomfort or injury from heat exposure.

Do not use damaged power cords, accessories, and other peripherals with your Notebook PC.

While powered on, ensure that you do not carry or cover your Notebook PC with any materials that can reduce air circulation.

Do not place your Notebook PC on uneven or unstable work surfaces.

You can send your Notebook PC through x-ray machines (used on items placed on conveyor belts), but do not expose them to magnetic detectors and wands.

Contact your airline provider to learn about related in-flight services that can be used and restrictions that must be followed when using your Notebook PC in-flight.

## Caring for your Notebook PC

Disconnect the AC power and remove the battery pack (if applicable) before cleaning your Notebook PC. Use a clean cellulose sponge or chamois cloth dampened with a solution of nonabrasive detergent and a few drops of warm water. Remove any extra moisture from your Notebook PC using a dry cloth.

Do not use strong solvents such as thinners, benzene, or other chemicals on or near your Notebook PC.

Do not place objects on top of your Notebook PC.

Do not expose your Notebook PC to strong magnetic or electrical fields.

Do not use or expose your Notebook PC near liquids, rain, or moisture.

Do not expose your Notebook PC to dusty environments.

Do not use your Notebook PC near gas leaks.

## Proper disposal

Do not throw your Notebook PC in municipal waste. This product has been designed to enable proper reuse of parts and recycling. The symbol of the crossed out wheeled bin indicates that the product (electrical, electronic equipment and mercury-containing button cell battery) should not be placed in municipal waste. Check local regulations for disposal of electronic products.

Do not throw the battery in municipal waste. The symbol of the crossed out wheeled bin indicates that the battery should not be placed in municipal waste.

# ***Chapter 1:*** ***Hardware Setup***

# Getting to know your Notebook PC

## Top View

**NOTE:** The keyboard's layout may vary per region or country. The Notebook view may also vary in appearance depending on the Notebook PC model.

### 1 Camera indicator

The camera indicator lights up when the built-in camera is in use.

### 2 Camera

The built-in camera allows you to take pictures or record videos using your Notebook PC.

### 3 360°-adjustable touch screen panel

Your Notebook PC's touch screen panel can be adjusted all the way into a 360° angle. This feature allows you to quickly turn your device from a Notebook PC into a touch-enabled tablet PC.

This high-definition touch screen panel provides excellent viewing features for photos, videos, and other multimedia files on your Notebook PC. It also allows you to operate it using touch screen gestures.

---

**NOTE:** For more details on how to turn your Notebook PC into a tablet device, refer to the *Rotating the display panel* section in this manual.

---

### 4 Capital lock indicator

This indicator lights up when the capital lock function is activated. Using capital lock allows you to type capitalized letters (such as A, B, C) using your Notebook PC's keyboard.

## 5 Keyboard

The keyboard provides full-sized QWERTY keys with a comfortable travel depth for typing. It also enables you to use the function keys, allows quick access to Windows®, and controls other multimedia functions.

---

**NOTE:** The keyboard layout differs by model or territory.

---

## 6 Touchpad

The touchpad allows the use of multi-gestures to navigate onscreen, providing an intuitive user experience. It also simulates the functions of a regular mouse.

---

**NOTE:** For more details, refer to the *Using the touchpad* section in this manual.

---

## 7 Fingerprint sensor (on selected models)

This built-in fingerprint sensor captures your fingerprint and uses it as biometric authentication for logging on to your Notebook PC's system.

---

**NOTE:** For more details, refer to the *Setting up your Fingerprint account* section in this manual.

---

## Bottom

---

**NOTE:** The bottom side may vary in appearance depending on model.

---

**WARNING!** The bottom of the Notebook PC can get warm to hot while in use or while charging the battery pack. When working on your Notebook PC, do not place it on surfaces that can block the vents.

---

**IMPORTANT!** Battery time varies by usage and by the specifications for this Notebook PC. The battery pack cannot be disassembled.

---

## 1 Air vents

The air vents allow cool air to enter and warm air to exit the Notebook PC.

---

**WARNING!** Ensure that paper, books, clothing, cables, or other objects do not block any of the air vents or else overheating may occur.

---

## 2 Audio speakers

The built-in audio speakers allow you to hear audio straight from your Notebook PC. Audio features are software-controlled.

## Right Side

### 1 Headphone/Headset/Microphone jack

This port allows you to connect amplified speakers or headphones. You can also use this port to connect your headset or an external microphone.

### 2 USB Type-C port

The USB (Universal Serial Bus) Type-C port provides a transfer rate of up to 5 Gbit/s and is backward compatible to USB 2.0.

---

**NOTE:** Transfer rate of this port may vary per model.

---

### 3 USB 3.0 port

The USB 3.0 (Universal Serial Bus 3.0) port provides a transfer rate of up to 5 Gbit/s and is backward compatible to USB 2.0.

4

#### HDMI port

This port is for the HDMI (High-Definition Multimedia Interface) connector and is HDCP compliant for HD DVD, Blu-ray, and other protected content playback.

5

#### Power (DC) input port

Insert the bundled power adapter into this port to charge the battery pack and supply power to your Notebook PC.

---

**WARNING!** The adapter may become warm to hot while in use. Do not cover the adapter and keep it away from your body while it is connected to a power source.

---

---

**IMPORTANT!** Use only the bundled power adapter to charge the battery pack and supply power to your Notebook PC.

---

## Left Side

### 1 Security slot

This security slot allows you to secure your Notebook PC using compatible Notebook PC security products.

### 2 USB 2.0 port

The USB (Universal Serial Bus) port is compatible with USB 2.0 or USB 1.1 devices such as keyboards, pointing devices, flash disk drives, external HDDs, speakers, cameras and printers.

### 3 Memory card reader

This built-in memory card reader supports SD and SDXC card formats.

### 4 Status indicators

The status indicators help identify the current hardware status of your Notebook PC.

#### **Two-color battery charge indicator**

The two-color LED provides a visual indication of the battery's charge status. Refer to the following table for details:

Color	Status
<b>Solid White</b>	The Notebook PC is plugged to a power source and the battery power is between 95% and 100%.
<b>Solid Orange</b>	The Notebook PC is plugged to a power source, charging its battery, and the battery power is less than 95%.
<b>Blinking Orange</b>	The Notebook PC is running on battery mode and the battery power is less than 10%.
<b>Lights off</b>	The Notebook PC is running on battery mode and the battery power is between 10% to 100%.

#### **Power indicator**

The power indicator lights up when the Notebook PC is turned on and blinks slowly when the Notebook PC is in sleep mode.

**5****Volume button**

This button turns the volume up or down on your Notebook PC.

**6****Power button**

Press the power button to turn your Notebook PC on or off. You can also use the power button to put your Notebook PC to sleep or hibernate mode and wake it up from sleep or hibernate mode.

In the event that your Notebook PC becomes unresponsive, press and hold the power button for at least four (4) seconds until your Notebook PC shuts down.

## ***Chapter 2:*** ***Using your Notebook PC***

# Getting started

## Charge your Notebook PC

- A. Connect the DC power connector into your Notebook PC's power (DC) input port.
- B. Plug the AC power adapter into a 100V~240V power source.

Charge the Notebook PC for **3 hours** before using it in battery mode for the first time.

---

**NOTE:** The power adapter may vary in appearance, depending on models and your region.

---

---

### IMPORTANT!

Power adapter information:

- Input voltage: 100-240Vac
  - Input frequency: 50-60Hz
  - Rating output current: 2.37A (45W) / 3.42A (65W)
  - Rating output voltage: 19V
-

---

## **IMPORTANT!**

- Locate the input/output rating label on your Notebook PC and ensure that it matches the input/output rating information on your power adapter. Some Notebook PC models may have multiple rating output currents based on the available SKU.
  - Ensure that your Notebook PC is connected to the power adapter before turning it on for the first time. We strongly recommend that you use a grounded wall socket while using your Notebook PC on power adapter mode.
  - The socket outlet must be easily accessible and near your Notebook PC.
  - To disconnect your Notebook PC from its main power supply, unplug your Notebook PC from the power socket.
- 

## **WARNING!**

Read the following precautions for your Notebook PC's battery:

- Only ASUS-authorized technicians should remove the battery inside the device (for non-removable battery only).
  - The battery used in this device may present a risk of fire or chemical burn if removed or disassembled.
  - Follow the warning labels for your personal safety.
  - Risk of explosion if battery is replaced by an incorrect type.
  - Do not dispose of in fire.
  - Never attempt to short-circuit your Notebook PC's battery.
  - Never attempt to disassemble and reassemble the battery (for non-removable battery only).
  - Discontinue usage if leakage is found.
  - The battery and its components must be recycled or disposed of properly.
  - Keep the battery and other small components away from children.
-

## Lift to open the display panel

## Press the power button

# Gestures for the touch screen panel and touchpad

Gestures allow you to launch programs and access the settings of your Notebook PC. Refer to the following illustrations when using hand gestures on your touch screen panel and touchpad.

---

**NOTE:** The following screenshots are for reference only. The touch screen panel's appearance may vary depending on model.

---

## Using touch screen panel gestures

The gestures allow you to launch programs and access the settings of your Notebook PC. The functions can be activated by using the hand gestures on your Notebook PC's touch screen panel.

### Left edge swipe

Swipe from the left edge of the screen to launch **Task view**.

### Right edge swipe

Swipe from the right edge of the screen to launch **Action Center**.

## Tap/Double-tap

- Tap an app to select it.
- Double-tap an app to launch it.

## Press and hold

Press and hold to open the right-click menu.

## Zoom in

Spread apart your two fingers on the touch screen panel.

## Zoom out

Bring together your two fingers on the touch screen panel.

## Finger slide

Slide your finger to scroll up and down and slide your finger to pan the screen left or right.

## Drag

- Drag to create a selection box around multiple items.
- Drag and drop an item to move it to a new location.

## Using the touchpad

### Moving the pointer

You can tap anywhere on the touchpad to activate its pointer, then slide your finger on the touchpad to move the pointer onscreen.

#### Slide horizontally

#### Slide vertically

#### Slide diagonally

## One-finger gestures

### Tap/Double-tap

- Tap an app to select it.
- Double-tap an app to launch it.

### Drag and drop

Double-tap an item, then slide the same finger without lifting it off the touchpad. To drop the item to its new location, lift your finger from the touchpad.

## Left-click

## Right-click

- Click an app to select it.
- Double-click an app to launch it.

Click this button to open the right-click menu.

---

**NOTE:** The areas inside the dotted line represent the locations of the left mouse button and the right mouse button on the touchpad.

---

## Two-finger gestures

### Tap

Tap two fingers on the touchpad to simulate the right-click function.

### Two-finger scroll (up/down)

Slide two fingers to scroll up or down.

### Two-finger scroll (left/right)

Slide two fingers to scroll left or right.

### Zoom out

Bring together your two fingers on the touchpad.

### Zoom in

Spread apart your two fingers on the touchpad.

## Drag and drop

Select an item then press and hold the left button. Using your other finger, slide on the touchpad to drag the item, lift your finger off the button to drop the item.

## Three-finger gestures

### Tap

Tap three fingers on the touchpad to invoke Cortana.

## Swipe left/Swipe right

If you opened multiple apps, swipe three fingers left or right to switch between these apps.

## Swipe up

Swipe up to see an overview of all the apps currently opened.

## Swipe down

Swipe down to show the desktop.

## Four-finger gestures

### Tap

Tap four fingers on the touchpad to invoke Action Center.

## Customizing your touchpad

1. Launch **All settings** from the Action Center.
2. Select **Devices**, then select **Mouse & touchpad**.
3. Adjust the settings to your preference.

## Setting up your Fingerprint account

1. Launch the Start menu.
2. Click/Tap **Settings** and select **Accounts**.
3. Select the **Sign-in options** tab on the left side and click/tap **Set up** under Fingerprint of Windows Hello.

---

### IMPORTANT!

- You must add a password before you can use the other sign-in options.
  - You must set up a PIN before you can enroll in Windows Hello.
- 

4. Click/Tap **Get started** in the prompt screen and enter your PIN for verification.
5. Follow the onscreen instructions to set up your Fingerprint account.

---

**NOTE:** Press and lift the same finger repeatedly, making small adjustments to the position of your finger each time until the scan is complete.

---

6. Click/Tap **Add another** if you wish to add another Fingerprint account.
7. When finished, click/tap **Close**.

# Using the keyboard

## Function keys

The function keys on your Notebook PC's keyboard can trigger the following commands:

Puts the Notebook PC into **Sleep mode**

Turns **Airplane mode** on or off

---

**NOTE:** When enabled, the **Airplane mode** disables all wireless connectivity.

---

Decreases brightness for the backlit keyboard\*

Increases brightness for the backlit keyboard\*

Decreases display brightness

Increases display brightness

Turns the display panel on or off

Toggles the display mode

---

**NOTE:** Ensure that the second display is connected to your Notebook PC.

---

\* On selected models

 +  Enables or disables the touchpad

 +  Turns the speaker on or off

 +  Turns the speaker volume down

 +  Turns the speaker volume up

 +  Displays the drop-down menu

## Windows® 10 keys

There are two special Windows® keys on your Notebook PC's keyboard used as below:

 Launches the Start menu

 Displays the drop-down menu\*

\* *On selected models*

## Rotating the display panel

Your Notebook PC's display panel is adjustable up to 360 degrees. You may adjust the display panel as shown below.

360 degrees adjustable

Notebook PC mode

Stand mode

Tent mode

Tablet mode

---

**NOTE:** Rotating the screen to Stand, Tent and Tablet mode will disable the keyboard and touchpad.

---

# ***Chapter 3:*** ***Working with Windows® 10***

# Starting for the first time

When you start your Notebook PC for the first time, a series of screens appear to guide you in configuring your Windows® 10 operating system.

To start your Notebook PC for the first time:

1. Press the power button on your Notebook PC. Wait for a few minutes until the setup screen appears.
2. From the setup screen, pick your region and a language to use on your Notebook PC.
3. Carefully read the License Terms. Select **I accept**.
4. Follow the onscreen instructions to configure the following basic items:
  - Personalize
  - Get online
  - Settings
  - Your account
5. After configuring the basic items, Windows® 10 proceeds to install your apps and preferred settings. Ensure that your Notebook PC is kept powered on during the setup process.
6. Once the setup process is complete, the Desktop appears.

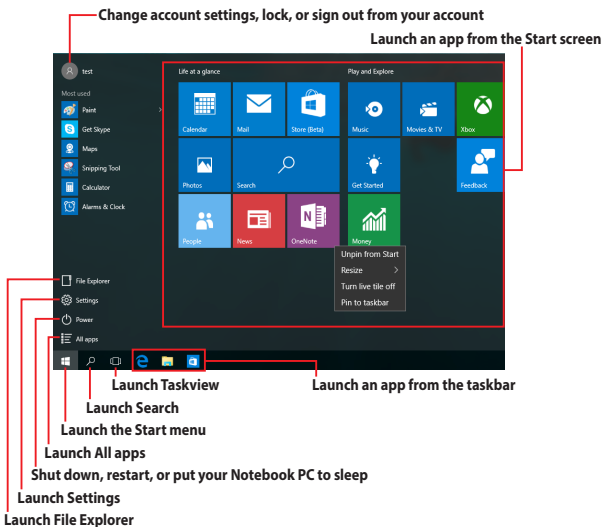

---

**NOTE:** The screenshots in this chapter are for reference only.

---

# Start menu

The Start menu is the main gateway to your Notebook PC's programs, Windows® apps, folders, and settings.

You can use the Start menu to do these common activities:

- Start programs or Windows® apps
- Open commonly used programs or Windows® apps
- Adjust Notebook PC settings
- Get help with the Windows operating system
- Turn off your Notebook PC
- Log off from Windows or switch to a different user account

## Launching the Start menu

Tap the Start button  in the lower-left corner of your desktop.

Position your mouse pointer over the Start button  in the lower-left corner of your desktop then click it.

Press the Windows logo key  on your keyboard.

## Opening programs from the Start menu

One of the most common uses of the Start menu is opening programs installed on your Notebook PC.

Tap the program to launch it.

Position your mouse pointer over the program then click to launch it.

Use the arrow keys to browse through the programs.

Press  to launch it.

---

**NOTE:** Select **All apps** at the bottom of the left pane to display a full list of programs and folders on your Notebook PC in alphabetical order.

---

# Windows® apps

These are apps pinned on the right pane of the Start menu and displayed in tiled-format for easy access.

---

**NOTE:** Some Windows® apps require signing in to your Microsoft account before they are fully launched.

---

## Working with Windows® apps

Use your Notebook PC's touch screen, touchpad, or keyboard to launch, customize, and close apps.

### Launching Windows® apps from the Start menu

Tap the app to launch it.

Position your mouse pointer over the app then click to launch it.

Use the arrow keys to browse through the apps. Press

to launch an app.

## Customizing Windows® apps

You can move, resize, unpin, or pin apps to the taskbar from the Start menu using the following steps:

### Moving apps

Press and hold the app, then drag and drop it to a new location.

Position your mouse pointer over the app, then drag and drop the app to a new location.

## Resizing apps

Press and hold the app, then tap and select an app tile size.

Position your mouse pointer over the app and right-click it, then click **Resize** and select an app tile size.

Use the arrow keys to navigate to the app.

Press or + (on selected models), then select **Resize** and select an app tile size.

## Unpinning apps

Press and hold the app, then tap the icon.

Position your mouse pointer over the app and right-click it, then click **Unpin from Start**.

Use the arrow keys to navigate to the app.

Press or + (on selected models), then select **Unpin from Start**.

## Pinning apps to the taskbar

Press and hold the app, then tap **Pin to taskbar**.

Position your mouse pointer over the app and right-click it, then click **Pin to taskbar**.

Use the arrow keys to navigate to the app.

Press  or  +  (on selected models), then select **Pin to taskbar**.

## Pinning more apps to the Start menu

From **All apps**, press and hold the app you want to add to the Start menu, then tap **Pin to Start**.

From **All apps**, position your mouse pointer over the app you want to add to the Start menu and right-click it, then click **Pin to Start**.

From **All apps**, press  or  +  (on selected models) on the app that you want to add to the Start menu, then select **Pin to Start**.

# Task view

Quickly switch between opened apps and programs using the task view feature, you can also use task view to switch between desktops.

## Launching task view

Tap the  icon on the taskbar or swipe from the left edge of the screen.

Position your mouse pointer over the  icon on the taskbar and click it.

Press  +  on your keyboard.

## Snap feature

The Snap feature displays apps side-by-side, allowing you to work or switch between apps.

## Snap hotspots

You can drag and drop apps to these hotspots to snap them into place.

## Using Snap

or

1. Launch the app you wish to snap.
2. Drag the title bar of your app and drop the app to the edge of the screen to snap.
3. Launch another app and repeat the above steps to snap another app.

1. Launch the app you wish to snap.
2. Press and hold the  key, then use the arrow keys to snap the app.
3. Launch another app and repeat the above steps to snap another app.

# Action Center

Action Center consolidates notifications from apps and presents a single place where you can interact with them. It also has a really useful Quick Actions section at the bottom.

## Launching Action Center

Click the  icon on the taskbar or swipe from the right edge of the screen.

Position your mouse pointer over the  icon on the taskbar and click it.

Press  +  on your keyboard.

## Other keyboard shortcuts

Using the keyboard, you can also use the following shortcuts to help you launch applications and navigate Windows® 10.

Launches **Start menu**

Launches **Action Center**

Launches the desktop

Launches the **File Explorer**

Opens the **Share** panel

Launches **Settings**

Launches **Connect** panel

Activates the Lock screen

Minimizes all currently active windows

Launches **Search**

Launches **Project** panel

Opens the **Run** window

Opens **Ease of Access Center**

Opens the context menu of the Start button

Launches the magnifier icon and zooms in your screen

Zooms out your screen

Opens **Narrator Settings**

# Connecting to wireless networks

## Wi-Fi

Access emails, surf the Internet, and share applications via social networking sites using your Notebook PC's Wi-Fi connection.

---

**IMPORTANT! Airplane mode** disables this feature. Ensure that **Airplane mode** is turned off before enabling the Wi-Fi connection of your Notebook PC.

---

## Connecting Wi-Fi

Connect your Notebook PC to a Wi-Fi network by using the following steps:

or

1. Select the  icon from the taskbar.
2. Select the  icon to enable Wi-Fi.
3. Select an access point from the list of available Wi-Fi connections.
4. Select **Connect** to start the network connection.

---

**NOTE:** You may be prompted to enter a security key to activate the Wi-Fi connection.

---

## Bluetooth

Use Bluetooth to facilitate wireless data transfers with other Bluetooth-enabled devices.

---

**IMPORTANT! Airplane mode** disables this feature. Ensure that **Airplane mode** is turned off before enabling the Bluetooth connection of your Notebook PC.

---

### Pairing with other Bluetooth-enabled devices

You need to pair your Notebook PC with other Bluetooth-enabled devices to enable data transfers. Connect your devices by using the following steps:

or

1. Launch **Settings** from the Start menu.
2. Select **Devices**, then select **Bluetooth** to search for Bluetooth-enabled devices.
3. Select a device from the list. Compare the passcode on your Notebook PC with the passcode sent to your chosen device. If they are the same, select **Yes** to successfully pair your Notebook PC with the device.

---

**NOTE:** For some Bluetooth-enabled devices, you may be prompted to key in the passcode of your Notebook PC.

---

## Airplane mode

Airplane mode disables wireless communication, allowing you to use your Notebook PC safely while in-flight.

---

**NOTE:** Contact your airline provider to learn about related in-flight services that can be used and restrictions that must be followed when using your Notebook PC in-flight.

---

### Turning Airplane mode on

or

Press  $fn$  +  $f2$ .

### Turning Airplane mode off

or

Press  $fn$  +  $f2$ .

# Turning your Notebook PC off

You can turn off your Notebook PC by doing either of the following procedures:

or

- Launch the Start menu, then select  **Power** > **Shut down** to do a normal shutdown.
- From the log-in screen, select  > **Shut down**.
- Press  +  to launch Shut down Windows. Select **Shut down** from the drop-down list then select **OK**.
- If your Notebook PC is unresponsive, press and hold the power button for at least four (4) seconds until your Notebook PC turns off.

# Putting your Notebook PC to sleep

To put your Notebook PC to Sleep mode:

or

- Launch the Start menu, then select  **Power** > **Sleep** to put your Notebook PC to sleep.
- From the log-in screen, select  > **Sleep**.

- Press  +  to launch Shut down Windows.  
Select **Sleep** from the drop-down list then select **OK**.

---

**NOTE:** You can also put your Notebook PC to Sleep mode by pressing the power button once.

---

## ***Chapter 4:*** ***Power-On Self-Test (POST)***

# The Power-On Self-Test (POST)

The POST (Power-On Self-Test) is a series of software-controlled diagnostic tests that run when you turn on or restart your Notebook PC. The software that controls the POST is installed as a permanent part of the Notebook PC's architecture.

## Using POST to access BIOS and Troubleshoot

During POST, you can access the BIOS settings or run troubleshooting options using the function keys of your Notebook PC. You may refer to the following information for more details.

## BIOS

The BIOS (Basic Input and Output System) stores system hardware settings that are needed for system startup in the Notebook PC.

The default BIOS settings apply to most conditions of your Notebook PC. Do not change the default BIOS settings except in the following circumstances:

- An error message appears onscreen during system bootup and requests you to run the BIOS Setup.
- You have installed a new system component that requires further BIOS settings or updates.

---

**WARNING!** Using inappropriate BIOS settings may result to system instability or boot failure. We strongly recommend that you change the BIOS settings only with the help of a trained service personnel.

---

## Accessing BIOS

Enter the BIOS settings by using any of the following methods:

- Restart your Notebook PC then press  during POST.
- Launch the Start menu, and choose **Settings > Update & security > Recovery**, then select **Restart now** under Advanced startup. When you enter the Advanced startup screen, select **Troubleshoot > Advanced options > UEFI Firmware Settings > Restart**.

## BIOS Settings

**NOTE:** The BIOS screens in this section are for reference only. The actual screens may differ by model and territory.

### EZ Mode

This menu appears when you enter the BIOS setup program and provides you an overview of the basic system information. To access the Advanced Mode for the advanced BIOS settings, select **Advanced Mode (F7)** or press .

## Boot

This menu allows you to set your boot option priorities. You may refer to the following procedures when setting your boot priority.

1. On the **Boot** screen, select **Boot Option #1**.
2. Press  and select a device as the **Boot Option #1**.

## Security

This menu allows you to set up the administrator and user password of your Notebook PC. It also allows you to control the access to your Notebook PC's hard disk drive, input/output (I/O) interface, and USB interface.

---

### NOTE:

- If you install a **User Password**, you will be prompted to input this before entering the operating system.
  - If you install an **Administrator Password**, you will be prompted to input this before entering BIOS.
- 

To set the password:

1. On the **Security** screen, select **Setup Administrator Password** or **User Password**.
2. Type in a password then press .
3. Re-type to confirm the password then select **OK**.

To clear the password:

1. On the **Security** screen, select **Setup Administrator Password** or **User Password**.
2. Type in the current password then press .
3. Leave other fields blank then select **OK** to continue.
4. Select **OK** to clear the old password.

---

**NOTE:** A keyboard is required to type in the password.

---

## Save & Exit

To keep your configuration settings, select **Save Changes and Exit** before exiting the BIOS.

## To update the BIOS:

1. Verify the Notebook PC's exact model then download the latest BIOS file for your model from the ASUS website.
2. Save a copy of the downloaded BIOS file to a flash disk drive.
3. Connect your flash disk drive to your Notebook PC.
4. Restart your Notebook PC then access the BIOS settings.
5. From the BIOS menu, select **Advanced** > **ASUS EZ Flash 3 Utility**, then press .

6. Locate your downloaded BIOS file in the flash disk drive then press . Follow the onscreen instructions to complete the update.

7. After the BIOS update process, select **Save & Exit > Restore Defaults** to restore the system to its default settings.
