- 1. Select **World Clock** to start the KDE world clock software.

2. Major cities and territories are marked on the map in black. When you move the pointer over the map, the screen automatically displays the city name and its local time wherever you leave the pointer.

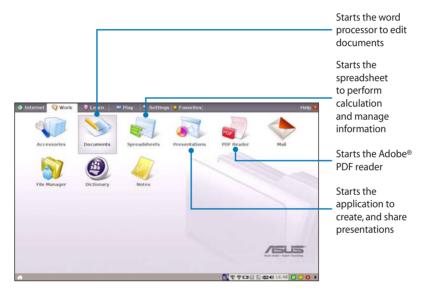

Work

Office applications

Documents/Spreadsheets/Presentations/PDF Reader

The Work tab includes several office software items like **Documents**, **Spreadsheets**, **Presentations**, and **PDF Reader**. Some applications may require setup before use. Follow the steps as provided by the respective wizard to finish the initialization and get your jobs done more efficiently.

If you have problems using these applications, click **Help** on the top right corner and select **Work** tab for detailed instructions.

Accessing files

The following example describes how to locate and open your document from the connected external storage device:

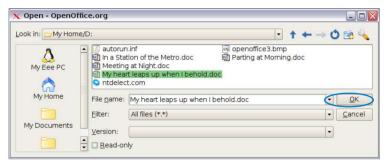

- 1. Double-click Documents to start **OpenOffice.org Writer**.
- 2. On the **File** menu, click **Open**, or press <Ctrl> + <O>.

For other office applications, follow the general steps above to access files.

Mail

The Mozilla Thunderbird e-mail client allows to import preferences, account settings, address books, and other data from an existing account in your original personal computer or notebook. Follow the Account Wizard for new account setup.

Contact your service provider If you do not know the incoming and outgoing server address of your e-mail account.

Management software

Your Eee PC includes two management-related applications.

I. File Manager provides an overview of all your files and enables easy management of data.

Eee PC supports file compression in a zip and tgz file format only, and file extraction from zip, gz, tar, and rar formats.

To locate and open your file:

- 1. Connect your USB flash memory disk or USB portable hard disk drive containing desired data to your Eee PC.
- 2. Highlight and select **Open in File Manager** at the prompt.

- 3. All the files and folders in your USB external storage device are shown in the right pane. Locate the desired file and double-click it to open.
 - Use the directory tree in the left pane to locate files more quickly if numerous folders are listed.
 - To remove your connecting the USB device, right click the USB icon icon icon in the Notification area and select **Safely remove**.
- **II. PIM (Personal Information Manager)** helps manage personal information like appointments, to-do items and contacts.
