**System Test**

Click the **System Test** button on the left to start the system checkup. Select the item you want to test and follow the wizard to complete the test.

Contact us

If you can't ﬁnd a solution to your problem after the system test, you can visit our support website or click **Send Feedback with System Log** to send the test log to ASUS support team. Our technical personnel would help you with the problems.

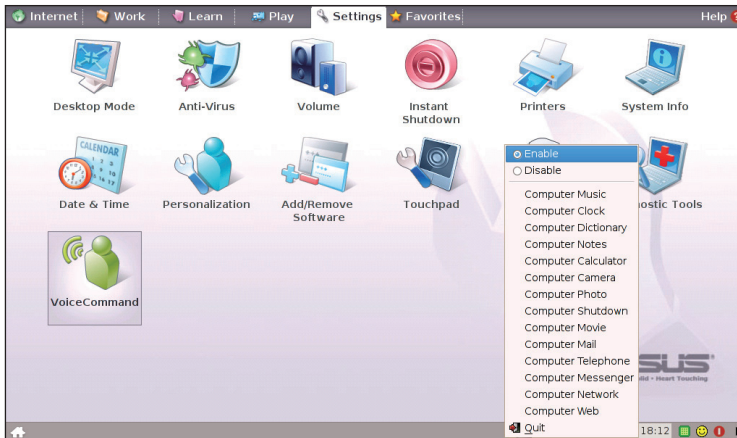

Before you send the log, remember to set up your e-mail account in the Mozilla Thunderbird client ﬁrst. Refer to page 4-20 for details.

Voice Command (in selected territories)

Operate your Eee PC hands-free. With voice command, you can launch Eee PC utilities without touching the keyboard. Just let your lips do the service.

Follow the instructions below to use voice command:

1. Double-click **VoiceCommand** from the **Settings** tab.
2. Right click the voice command icon in the Notification area and toggle **Enable** to activate this function.
3. The items on the list are available for voice command function. Add "computer" before each command.

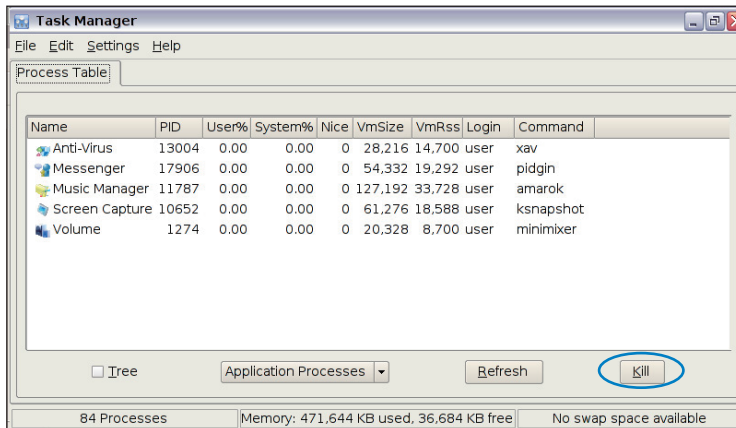

An example of voice command use follows:

1. If you encounter new vocabulary, consult the dictionary in your Eee PC.
2. Activate the voice command function.
3. Speak out "computer-dictionary," and the built-in dictionary will be at your service.

Task Manager

The Task Manager displays the application processes. Tweak your Eee PC up if it is running slow by killing the application with Task Manager.

Follow the instructions below to terminate applications:

1. Double click the SOS icon [⊞] in the Notification area to display the running applications.
    Or, press [Fn] + [F6] (<Fn> + <F6>) directly to launch Task Manager.
2. Select an unnecessary application that uses the system resources and click **Kill** to terminate the process.

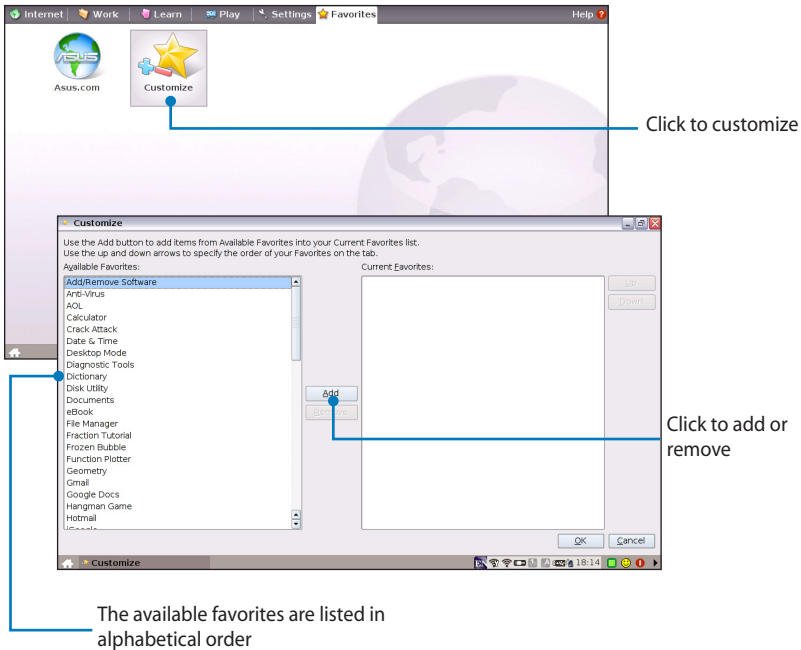

> Using Task Manager to terminate applications may cause damage to the files that the application is reading or editing. We do not recommend you use Task Manager to stop the applications that are working on your important data. Or, back up your important data before using Task Manager.

Favorites

Customize your favorites on the Favorites tab. Click **Customize** and start to add or remove your favorites.

From the available favorites list in the left pane, select a desired item to include in your favorites, and click **Add**. To remove a favorite from your current favorites list, select an item from the right pane and click **Remove**.

Click to customize

Click to add or remove

The available favorites are listed in alphabetical order

> The item order in the list corresponds to the display order on the Favorites tab.

System Recovery

System Recovery
5

System Recovery

There are three ways to perform the system recovery. Refer to the following sections for details.

The OS image file bundled in the Recovery DVD may be not the latest version. After the system recovery, use the **Add/Remove Software** in the **Settings** tab to update your OS.

You will lose all your data during the system recovery. Ensure to back up your important data before recovering your system.

Using Hidden Partition

1. Hold **<F9>** during bootup (requires a Recovery Partition).

    If you have installed WIndows XP to your Eee PC, the built-in hidden partition would be cleared and cannot be used for system recovery.

2. Highlight **Restore Factory Settings** and press **<Enter>** to start the system recovery.

```
Normal Boot
Perform Disk Scan
Restore Factory Settings

Use the ↑ and ↓ keys to select which entry is highlighted.
Press enter to boot the selected OS, 'e' to edit the
commands before booting, or 'c' for command-line.
```
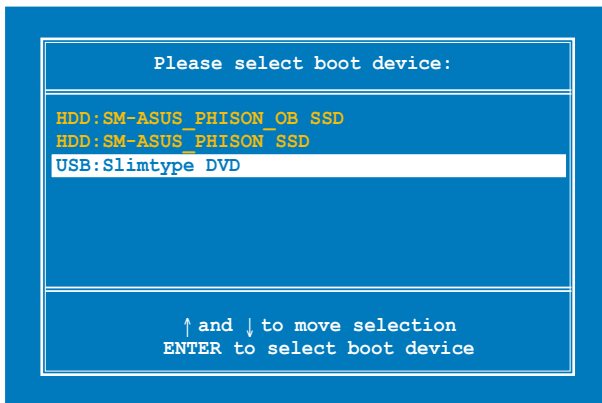

If the system recovery fails, there might be something wrong with your Eee PC SSD. Contact your local RMA for support.

Using the Recovery DVD

1. Connect an external DVD optical drive to your Eee PC and insert the Recovery DVD into the optical drive (System needs to be powered ON).

2. Restart the system and press **<ESC>** on bootup and the **Please select boot device** screen appears. Select USB:XXXXXX (may be labled as the ODD brand name) to boot from the optical drive.

```
          Please select boot device:

HDD:SM-ASUS_PHISON_OB SSD
HDD:SM-ASUS_PHISON SSD
USB:Slimtype DVD

          ↑ and ↓ to move selection
        ENTER to select boot device
```

3. Key in **yes** and press **<Enter>** to continue the system recovery:

```
ISOLINUX 3.11 2005-09-02 Copyright (C) 1994-2005 H. Peter Anvin
.

Press <Space> for Troubleshooting Menu...
Loading /boot/vmlinuz......................
Loading /boot/initrd.gz............................
Ready.
Uncompressing Linux... Ok, booting the kernel.
Waiting 5 Sec

Ready to image Eee PC using build 2008.03.05_21.08.
Enter "yes" to continue, anything else to reboot.
yes
```

4. When the recovery is completed, press <Enter> to reboot the system.
