

Lyra mini

Quick Start Guide

Setting up Lyra mini

1. Unplug your cable / DSL modem*. Remove the battery if it has one.

* If you are using DSL for internet, you will need a username/password from your internet service provider (ISP).

* Make sure your device support BLE, Bluetooth 4.0 or above.

2. Plug in your first Lyra mini and connect it to the modem with the cable provided in the box.
3. Plug your modem back in.
4. Download the Lyra mini app and follow the steps to setup your Wi-Fi and other Lyra mini.

Colors of Lyra mini

	<p>Random Breathing</p> <p>Lyra mini is booting up or applying settings.</p>
	<p>Light Cyan</p> <p>Everything is good!</p>
	<p>Red</p> <p>Loss connection to the primary Lyra mini. Move it closer.</p>
	<p>Solid White</p> <p>Lyra mini is ready for setup. It will start blinking when setting up with the app.</p>
	<p>Orange</p> <p>Loss connection to the Internet. Please check the cable connected with your modem.</p>

Buttons

	<p>Reset</p> <p>Hold it for 3 seconds to reset this Lyra mini to default setting.</p>
	<p>Pairing</p> <p>Hold it for 3 seconds on both the primary Lyra mini and the new Lyra mini you wish to add into the network. You'll see blinking cyan on both Lyra mini.</p> <p>Note: After you set up the first Lyra mini, you can use this button to add another one.</p>

Federal Communications Commission Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference.
- This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

The operation frequency of the device in the 5150-5250 MHz band is for indoor use only.

WARNING!

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Prohibition of Co-location

This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.

IMPORTANT NOTE:

Radiation Exposure Statement: This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance. To maintain compliance with FCC exposure compliance requirement, please follow operation instruction as documented in this manual .

This device within the 5.15 ~ 5.25 GHz is restricted to indoor operations to reduce any potential for harmful interference to co-channel MSS operations.

Declaration of Conformity for R&TTE directive 1999/5/EC

Essential requirements – Article 3

Protection requirements for health and safety – Article 3.1a

Testing for electric safety according to EN 60950-1 has been conducted.

These are considered relevant and sufficient.

Protection requirements for electromagnetic compatibility – Article 3.1b

Testing for electromagnetic compatibility according to EN 301 489-1 and EN 301

489-17 has been conducted. These are considered relevant and sufficient.

Effective use of the radio spectrum – Article 3.2

Testing for radio test suites according to EN 300 328 & EN 301 893 have been conducted. These are considered relevant and sufficient. The operation frequency of the device is in the 5150-5250 MHz band is for indoor use only.

CE Mark Warning

This is a Class B product, in a domestic environment, this product may cause radio interference, in which case the user may be required to take adequate measures. Operation Channels: CH1~11 for N. America; Ch1~14 for Japan; CH1~13 for Europe (ETSI).

This equipment may be operated in AT, BE, CY, CZ, DK, EE, FI, FR, DE, GR, HU, IE, IT, LU, MT, NL, PL, PT, SK, SL, ES, SE, GB, IS, LI, NO, CH, BG, R O, TR.
