FCC Certification

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -- Reorient or relocate the receiving antenna.
- -- Increase the separation between the equipment and receiver.
- -- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

Shielded cables must be used with this unit to ensure compliance with the Class B FCC limits.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance would void the user authority to operate the equipment.

1. Key Features

Digital Audio Player

Supports MP3 and WMA.

- USB interface for uploading downloading files (compiled to USB V1.1)
- Firmware Upgradeable

Provides the latest updated features via free downloads from our website and upgradeable to other digital music formats if available.

- Full Graphic LCD for displaying information with backlight.
- FM Tuner function with memory function (Preset channel).
- 6 Equalizing Patterns
- · Low battery level detection.

• The Digital Audio Player will power off automatically if the player is

idle for approximately three minutes.

• Support for Win ME, Win 2000 and Win XP.

Function Keys

2. Basic Operation

Installing the Driver (for Win 98 and Win 98SE only)

The USB mass storage function will not be activated without driver installation. To activate the USB mass storage function, please use the installation CD-ROM to install the driver. The firmware upgrade program cannot run in Win98 environment.

- 1. Install the "Digital Solid State Audio Player" program in your computer
 - 1.1 Insert the Installation CD
 - 1.2 An InstallShield Wizard will pop up automatically
 - 1.3 Click on Next to proceed the installation
 - 1.4 Once the installation is done. Click on Finish

Remarks:

No Driver is required for Win ME, Win 2000 and Win XP. The OS will detect the Audio Player automatically after connection with the USB port is established.

Firmware Upgrade Procedure

For WinME, Win2000 or WinXP only

- Install the "Digital Solid State Audio Player" program in your computer
 - 1.1 Insert the Installation CD
 - 1.2 An Install Shield Wizard will pop up automatically

- 1.3 Click on Next to proceed the installation
- 1.4 Once the installation is done. Click on Finish
- 2. Firmware Download
 - 2.1 Download the latest firmware from our website

www.memorexelectronics.com. Unzip the firmware file into the directory

C:\Program\Digital\Audio digital player

- 2.2 Click on **Start** and select **Program**. From program, select the DFP Solid State Audio Player, then click on **Update**.
- 2.3 An Update dialogue box will pop up. Click on Start and the application program will begin to download the firmware.

Remarks:

Some memory space in Flash Memory is reserved for Firmware Upgrade Features. Therefore,usable memory space will be less than 128MB (MMP8500)

Formatting the Player

- Click on Start and select Program. From program, select the DFP Solid State Audio Player, then click on Format.
- 2. A Format dialogue box will pop up, click on **Start** and the application program will format the Player.

Operating in different modes

- The Digital Audio Player can operate in different modes (*Music Mode*, *FM Tuner Mode*, *and Stop Watch Mode*). Press MODE button once for Mode Selection Menu.
- Press ⋈ or ⋈ buttons to switch to different modes.

Music Mode Operation

- Insert the earphone plug into the earphone jack of the Digital Audio Player.
- 2. Turn on the unit by pressing

- 9. Press **>>** button to select the next track.
- 10. Press and hold **H** button for fast reverse.

- 11. Press and hold **>>>** button for fast forward.
- Slide HOLD switch to lock all buttons. In this mode the buttons will not function when pressed. This is useful so that you don't accidentally change your settings. (In the case of the stop status in the *Music Mode*, the player turns off automatically.)
- 13. Press

FM Tuner Mode Operation

While playing in the Music Mode, press MODE button to select

FM Tuner Mode before proceeding to the next step.

- FM Tuning

Auto Scanning the whole FM band

-If the **PRESET** icon is on, then press

- Each FM station detected will be stored in the

10 preset channels (new FM stations

detected

will overwrite previous presets).

- Manual Preset FM Band
 - If the **PRESET** icon is on, press

- Press >>> to increase FM frequency. The unit

will start the Auto Scan function if the 渊

button is pressed and held for a longer

time.

The unit will stop when the next FM station is detected.

- Press 📢 to decrease FM frequency. The

unit

will start the Auto Scan function if the K button is pressed and held for a longer

time.

The unit will stop when the previous FM station is detected.

- Press > II button once, then STORE and

Channel number icons will be shown on

LCD.

- Press M to increase Channel Number.

- Press 🗰 to decrease Channel Number.

- Press > II button again to store this FM

frequency in the selected channel

number.

(The STORE icon will be turned off)

• Operating the Preset Channels

- If the PRESET icon is off, then press

- To delete a preset channel, press and hold

▶ II button.

Stereo Operation

Press and hold the **EQ** button to toggle the **STEREO** icon **ON** and **OFF**. When the **STEREO** icon is **OFF**, reception will be in Mono. If the unit is in the STERO mode, but the FM signal is weak, then the **STEREO** icon will not be turned on and reception will be in Mono.

Stop Watch Mode Operation

- Press the MODE button
- Press 📢 or 渊 to select Stop Watch
- Press
 II button to Start timing
- Press
 II button to Stop timing
- Press

3. Useful Features

- Press and hold **EQ/REPEAT** button while playing music to display the current EQ status. Then press **EQ/REPEAT** button again to scroll the six EQ modes (Normal, Rock, Classic, POP, Jazz and Ultra Bass). The program will exit the *EQ Mode* if no consecutive key pressed.

Real Provide The P

Repeat Mode

- Press the EQ/REPEAT button to toggle among different Repeat

Mode functions.

- Play a single file repeatedly.
- Play all files in the player repeatedly.
- Randomly play all files in the player repeatedly and stop.

s

• Randomly play all files in the player repeatedly. $\overset{\bullet}{\overset{\bullet}{1}}$

Setting Mode

- Press and hold the MODE button; the *Setting Mode* Menu will be shown on the LCD.
- Press the keep or be button to scroll through different setting options (CONTRAST, EQUALIZER, PLAY TIMER and LIGHT TIMER).
- After pointing to the requested option, press + to confirm this selection. Press the K or >> button to change the setting Pressing again to return to *Setting Mode* Menu.
- Press to quit the *Setting Mode* Menu and return to normal operation.

4. Additional Information

External Memory Card

Copy music files to memory card

- Insert the external memory card and connect the audio player to the computer.
- 2. Copy the music files to the removable drive.

Installing the Battery

- 1. Slide and open the battery compartment door.
- 2. Insert the battery with the correct polarity.
- 3. Close the battery compartment door.

Notes:

- To avoid battery leakage or corrosion, remove the battery from the player if the player is not to be used for a long time.
- Remove a dead battery from the player immediately to avoid damaging the player.
- When corrosion occurs, wipe the battery compartment immediately with a dry cloth and insert a new battery.

RealOne Player Installation

- 1. Insert the Installation CD
- Click on Start and select Program. From program, click on Windows Explorer.
- Select the directory of CD-ROM from Windows Explorer, and click on the folder of RealOne Player. Different versions of the application program will be displayed.
- 4. Double click the version that you want to install in computer; the installation will then begin automatically.
- 5. Follow the RealOne Install Wizard step by step to finish the installation.

Safe Removal Procedure

Before disconnecting the Digital Audio Player from the USB cable, please make sure the following procedure is followed; otherwise damage may occur to the Player.

Double click the "safe removal" icon on the task bar; the "Unplug or Eject Hardware" window will be pop up. You can select the device you want to remove. You can now safely unplug the device from the USB port of your computer.

Trouble Shooting

Precautions

- Copyright
 - Distributing copies of MP3 tracks without permission is a violation of international copyright laws.
- Safety

- Vibration experienced during walking or exercising will not affect the player. However, dropping the player or dropping a heavy object on the player may result in damage or sound distortion.

- Avoid spilling any liquid onto or into the player.

- Do not leave the player in a location near heat sources or in a place subject to direct sunlight, excessive dust or sand, moisture, rain, mechanical shock, or an unleveled surface

or in a car with the windows closed during periods of excessive heat.

• On Headphones and Earphones

- Road Safety

Do not use headphones while driving, cycling, or operating any motorized vehicle. It may create a traffic hazard and is illegal in some areas. It can also be potentially dangerous to play your headset at a high volume while walking, especially at pedestrian crossings. You should exercise extreme caution or discontinue use in potentially hazardous situations.

- Preventing hearing damage

Avoid using the headphones at a high volume. Hearing Experts advise not to play music loudly and for continuously long periods. If you experience a ringing in your ears, reduce the volume or discontinue using the headphones. Have consideration for others Keep the volume at a moderate level. This allows you to hear the sound from outside and to be considerate to the people around you.

Care and Maintenance

Your Digital Audio Player is a precision electronic device, and should not be subjected to rough handling or exposed to extreme temperatures or moisture. Do not use chemical agents or liquids to clean the unit, as they may damage the plastic. Be sure to remove the batteries before cleaning the unit. Weak batteries should be replaced promptly, since they can leak and damage the player. Use only alkaline or zinc carbon batteries. Do not mix different types of batteries or new and used batteries. Do not recharge non-rechargeable batteries. Use only recommended batteries or equivalent. Be sure to observe the correct polarity when inserting the batteries. Worn out batteries

should be removed from the unit promptly. Do not short-circuit the supply terminals.

Please retain this information for future reference.

Memorex reserves the right to make technical changes without notice in the interest of progress.
