# BHC110 -- *Bluetooth* Headset Quick Installation Guide

## Buttons

## Starting to Use
### How to Charge

Plug the charger into the headset. Plug the other end of the charger into an electrical outlet. During the charging, the red LED turns on and remains on until charging is complete. When charging is complete (red LED is off), remove the charger form the electrical outlet and detach the charger from the speaker.

## Pairing Your Headset and Phone

Before you can use your Bluetooth headset you're your phone it has to be added once to the phone. Follow the instruction form the phone user guide on how to turn on the Bluetooth in your phone. With the headset and phone in close proximity:

1. Make sure the headset is in power off. Press the power button for 6 seconds until the blue and red LED flashes.
2. Initiate the pairing sequence using hands-free mode if available. The unit may also be paired in headset mode if hands-free mode is not available.
3. Perform a **device discovery** from the phone. *For details on device discovery for your phone, refer to the user guide for the phone.*
4. Select the **Mono Headset** from the discovered devices list, and then confirm following the on screen prompts.
5. When prompted by the phone, enter the passkey **0000**, and then confirm to pair the headset with the phone.

## Controlling Headset Volume

**Increase:** Press the volume button in the **+** position repeatedly until you reach the desired volume level.

**Decrease:** Press the volume button in the **-** position repeatedly until you reach the desired volume level.

## Placing and Receiving Calls

| Red On | Charging |
| Red flashes | Power Low |
| Red flashed 5 times | Powering Off |

# Troubleshooting

**Q: No connection to phone**

A: Make sure the headset is charged and within range of the phone. Check or redo the **Bluetooth** setting in the phone.

**Q: The headset is automatically switched off**

A: The battery is too low. The indicator light on the headset flashes red.

**Q: Unexpected behavior**

A: Recharge the headset. The headset will reset when recharging the headset

**Q: Battery capacity**

A: A battery that has been infrequently used or a new one could have reduced capacity. It may need to be fully recharged and discharged a number of times.

**Federal Communication Commission Interference Statement**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.   These limits are designed to provide reasonable protection against harmful interference in a residential installation.   This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.   However, there is no guarantee that interference will not occur in a particular installation.   If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

**IMPORTANT NOTE:**
**FCC Radiation Exposure Statement:**
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
