

## Model outline

The OCR601 and OCR601B capture the machine readable zone (MRZ) from documents complying to ICAO9303. The OCR601 has an integrated RFID reader enables the device to simultaneously decode the contents of an e-passport or contactless smart card.

## Main features

- |                       |                   |
|-----------------------|-------------------|
| 1. Hinged cover       | 4. Document guide |
| 2. OCR reading window | 5. RJ50 connector |
| 3. Power indicator    | 6. Cable tidy     |

## Document orientation

The document should be placed with the Machine Readable Zone (MRZ) facing downwards on the document guide. Slide the document under the hinged cover until fully inserted.

## Connection

Plug in the USB connection to the host device and connect the DC power connector to the power supply. The *power indicator* will illuminate green. The OCR601 requires an application programme to be running on the host computer: please refer to your system administrator.

## How to read a document with OCR data

Orient the document correctly with the MRZ text down under the hinged lid. Follow the instructions provided by the host application.

If a read is unsuccessful then re-present the document; for persistent errors refer to the *Troubleshooting* section.

## How to read a document with data stored on the chip

Available on model OCR601 only. Orient the document correctly with the MRZ text down under the hinged lid. Follow the instructions provided by the host application.

If a read is unsuccessful then re-swipe; for persistent errors refer to the *Troubleshooting* section.

## Troubleshooting

Problem	Possible Cause	Solution
Persistent bad reads	The document is oriented incorrectly in the document guide	Refer to <i>document orientation</i> section
	Poor reading technique	Refer to authorised trainer to check technique
	Dirty window	Refer to <i>Service &amp; cleaning</i> section
Persistently not reading	Bad connection between host and OCR601	Check all connections
	Application not running on host or OCR601 not working properly	Consult with technical staff

## Techniques for reading reliably

### Do

1. Hold document still during read process
2. Ensure document is fully inserted under hinged cover

### Don't

1. Remove document until host application instructs you to do so
2. Insert damaged or defaced documents on the reader

## Service and cleaning

The module has no serviceable parts and must not be opened. The reading window can be cleaned by firmly lifting back the hinged lid and cleaning the glass window with soft clean lint-free cloth.

## Warranty statement

(a) Access Limited (ACCESS) hardware Products are warranted against defects in workmanship and materials for a period of twelve (12) months from the date of shipment by ACCESS or an authorised reseller to its customer, but in no event more than fifteen (15) months from shipment of the Products by ACCESS, unless otherwise provided by ACCESS in writing, provided the Product remains unmodified and is operated under normal and proper conditions. (b) Spare parts (i.e. Parts, components, or subassemblies sold by ACCESS for use in the service and maintenance of Products) are warranted against defects in workmanship and materials for a period of thirty (30) days from the date of shipment. Spare parts may be new or originate from returned units under the conditions set forth in subsection (d) below; (c) For repairs on ACCESS-branded hardware Products under this Agreement, including repairs covered by warranty, the repair services provided are warranted against defects in workmanship and materials on the repaired component of the Product for a period of thirty (30) days from the shipment date of the repaired Product, or until the end of the original warranty period, whichever is longer; and (d) Products may be serviced or manufactured with parts, components, or subassemblies that originate from returned products and that have been tested as meeting applicable specifications for equivalent new material and Products. The sole obligation of ACCESS for defective hardware Products is limited to repair or replacement (at ACCESS's option) on a "return to service depot" basis with prior ACCESS authorisation. The customer is responsible for shipment to ACCESS and assumes all costs and risks associated with this transportation; return shipment to the customer will be at ACCESS's expense. The customer shall be responsible for return shipment charges for product returned where ACCESS determines there is no defect ("No Defect Found"), or for Product returned that ACCESS determines is not eligible for warranty repair. No charge will be made to the customer for replacement parts for warranty repairs. ACCESS is not responsible for any damage to or loss of any software programs, data or removable data storage media, or the restoration or reinstallation of any software programs or data other than the software, if any, installed by ACCESS during the manufacture of the Product; (e) Except for the warranty applying solely to the repaired component arising from a repair service as provided in (c) above, the aforementioned provisions do not extend the original warranty period of any Product that had either been repaired or replaced by ACCESS; (f) The above warranty shall not apply to any Product (I) which has been repaired, tampered with, altered or modified, except by ACCESS's authorized service personnel; or (II) in which the defects or damage to the Product result from normal wear and tear, misuse, negligence, improper storage, water or other liquids, battery leakage, use of parts or accessories not approved or supplied by ACCESS, or failure to perform operator handling and scheduled maintenance instructions supplied by ACCESS; (III) which has been subjected to unusual physical or electrical stress, abuse, or accident, or forces or exposure beyond normal use within the specified operational and environmental parameters set forth in the applicable Product specification; nor shall the above warranty provisions apply to any expendable or consumable items, such as batteries, supplied with Product. EXCEPT FOR THE WARRANTY OF TITLE AND THE EXPRESS WARRANTIES STATED ABOVE, ACCESS DISCLAIMS ALL WARRANTIES ON PRODUCTS FURNISHED HEREUNDER INCLUDING ALL IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE. ANY IMPLIED WARRANTIES THAT MAY BE IMPOSED BY LAW ARE LIMITED IN DURATION TO THE LIMITED WARRANTY PERIOD. SOME STATES OR COUNTRIES DO NOT ALLOW A LIMITATION ON HOW LONG AN IMPLIED WARRANTY LASTS OR THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES FOR CONSUMER PRODUCTS. ## Regulatory compliance

### FCC compliance

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference;
- This device must accept any interference received including interference that may cause undesired operation.

**WARNING! Changes or modifications made to the system that are not approved by the party responsible for compliance could void the user's authority to operate the equipment.**

Note: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

### CE

Marking by the CE symbol indicates compliance of this system to the applicable Council Directives of the European Union, including the EMC Directive (2004/108/EC) and the Low Voltage Directive (2006/95/EC). A "Declaration of Conformity" in accordance with the applicable directives has been made and is on file at Access Ltd.
