Wireless Gaming Headset

Model: 100025012

PRODUCT GUIDE

March 03, 2021_V2

Federal Communication Commission Interference Statement

for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

3. Also check "Volume mixer", browser like Google also has volume control, make sure turn that to the max as well

Protect your hearing

Listening at high volume for long time periods may affect your hearing. Try to take a break between each session.

Always remember that for any audio product, reduce the volume to

• Turn on power switch: press power switch to turn on power, your computer should detect and connect to headset automatically

(LED indicator will light up when power is on, press it again will turn

Note 1: Don't forget to adjust volume in software and hardware

Note 2: Headset will turn off automatically after 15 minutes when no audio is playing to save battery life
