Step1 Get the **MegaPlug AV 200 Mbps Powerline Ethernet Network Adapter** from the box.

Step2 Get one **Ethernet Cable**.

Step3 Plug one end of the **Ethernet Cable** into the **Ethernet Port** on the bottom of the **MegaPlug Adapter**.
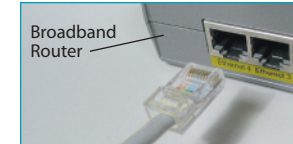

Note: An Ethernet port looks similar to a phone port but is slightly larger.

Step4 Plug the **MegaPlug Adapter** into a **Power Outlet**.

Do NOT plug the Adapter into a power strip or wall outlet that uses surge protection as the Adapter may not work.

Step5 Plug the other end of the **Ethernet Cable** into an OPEN **Ethernet Port** on your Broadband Modem or Router.

Broadband Router

Step6 Get the **MegaPlug AV 200 Mbps 4-Port Switch** from the box. You will connect the 4 Port Switch to the device(s) that you want to have Internet access.

Step7 Get the **Black Power Cord.**

Step8 Plug one end of the **Power Cord** into the back of the **MegaPlug 4-Port Switch**.

Step9 Plug the other end into a **Power Outlet**.

Do NOT plug the Switch into a power strip or wall outlet that uses surge protection as the Switch may not work.
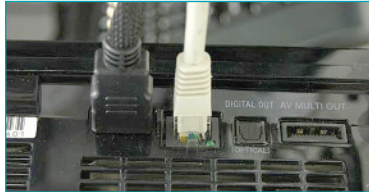

Step10 Get the other **Ethernet Cable**.

Part No: 0530-0602-000

QS1024/0309

Step 11 Plug one end of the **Ethernet Cable** into an **Ethernet Port** on the back of the **MegaPlug 4-Port Switch.**
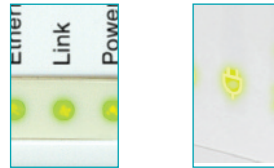

Step 12 Plug the other end of the **Ethernet Cable** into the device that you want to connect to the Internet.

Note: You can repeat Steps 10 thru 12 for each device that needs to be connected to the Internet.

Step 13 Check the LEDs and make sure both **Link Lights** turn SOLID **GREEN**.

Note: This Quick Start Guide shows you how to install the 4-Port Switch in a location apart from your router/gateway (another room for example). If you need additional Ethernet ports near the router/gateway, you can reverse the installation order of the Powerline units (i.e., install the 4-Port Switch first, then install the MegaPlug Adapter in another room).

Congratulations!

You have successfully installed the MegaPlug AV Powerline Ethernet Network Adapter and 4-Port Switch.

These adapters ship with a generic encryption key. If you would like to change the key, go to **www.actiontec.com/howto** for further instructions. If you require additional adapters for additonal computers/devices, they may be added by following the same steps in this guide.

Actiontec®

Mega **Plug** ™ **AV**
200 Mbps
Powerline
Ethernet Kit

Model# HPE200AVP, HPE400AVP

Quick Start Guide

This Quick Start Guide will walk you through the easy steps to install your MegaPlug™ AV Powerline Ethernet Kit.

You will need the following items:
- One MegaPlug™ AV 200 Mbps Powerline Ethernet Network Adapter
- One MegaPlug™ AV 200 Mbps 4-Port Switch
- Two Ethernet Cables
- One Black Power Cord
