

YOU WROTE:

7) 2 manuals were provided that appear very similar. Please explain.

I REPLY:

One manual is a 'Quick Install Guide' (QIG), and the other is the 'Installation Instructions'(II). The QIG has minimal information and is multi-language, and is packaged with the product. The II has a lot of the same info, but with more details for those who need it. The II is provided as an online document only.
