

## CDM530NC WiFi Mobile Broadband Router

### Installation Steps

#### **Step 1. Install the battery:**

Turn OFF the power switch, open the battery lid, and then insert the Li-ion battery into the battery holder.

DO NOT insert or remove the Li-ion battery while the power switch is at ON position.

#### **Step 2.**

Close the battery lid

#### **Step 3. Plug in power:**

Connect with the power adapter to the receptor on the back panel of it.

**Step 4. Start to Charge the Battery:**

Then plug the other end of the power adapter into a wall outlet.

If it is the first time to put the battery in, the power LED will show amber which means the battery is been charging. It will take about 3 hours to fully charge the battery, and when the battery is fully charged, the power LED will show green.

**Step 5. Power ON:**

Turn ON the power switch.

**Step 6. Connect with a USB 3G modem:**

Plug your USB modem which is with activated SIM card provided by your 3G service provider.

**Step 7. Connect with Ethernet Cable**

Insert the Ethernet cable into RJ45 Ethernet Port on the back panel. And then plug the other end of RJ45 into the computer or Laptop computer. The Ethernet LED will show green color if the Ethernet connection is normally connected.

**Step 8. Start to configure the device:**

You can start to configure the device via the Easy Setup Utility .  
(see Easy Setup Utility)

# Chapter 1 Getting Started with Easy Setup Utility

There are two approaches for you to set up the WiFi Mobile Router quickly and easily. One is through executing the provided Windows Easy Setup Utility on your PC, and the other is through browsing the device web pages and configuration.

## 2.1 Easy Setup by Windows Utility

### Step 1 :

Install the Easy Setup Utility from the provided CD then follow the steps to configure the device.

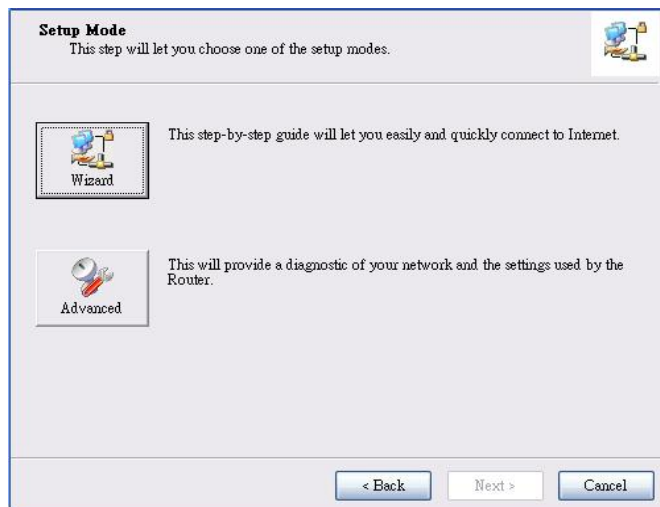

### Step 2 :

Select Language then click "Next" to continue.

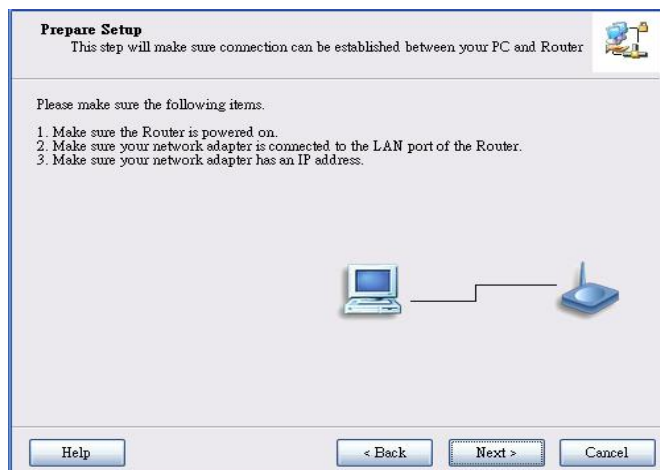

### Step 3 :

Then click the "Wizard" to continue.

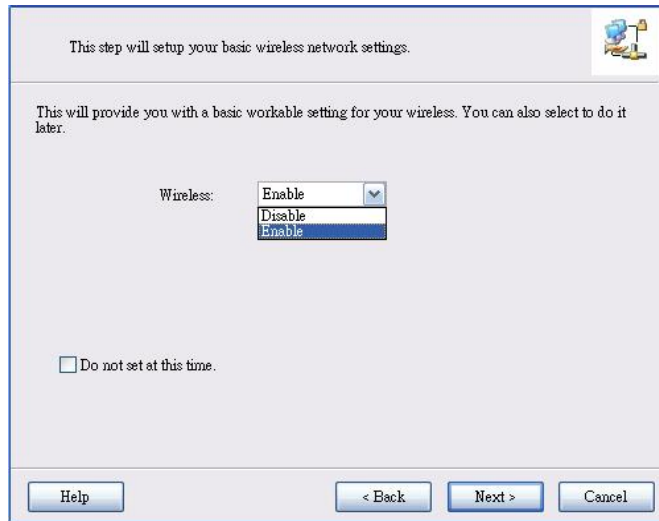

### Step 4 :

Click "Next" to continue.

**Step 5 :**

Select Wireless Enable, and then click "Next" to continue.

This step will setup your basic wireless network settings.

This will provide you with a basic workable setting for your wireless. You can also select to do it later.

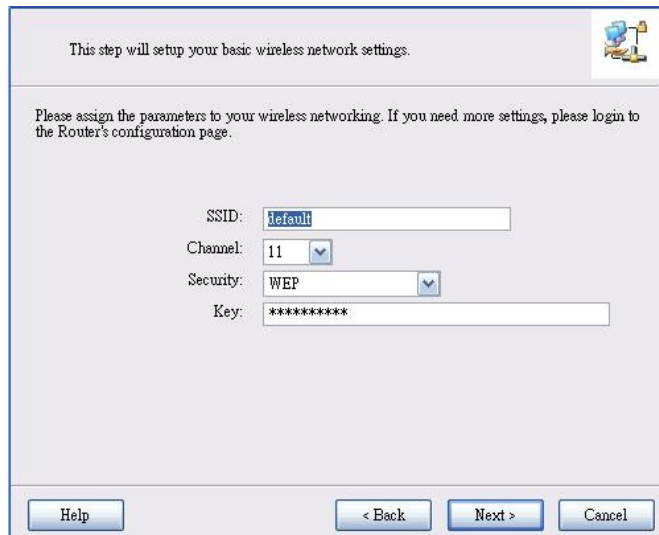

Wireless:

Do not set at this time.

Help < Back Next > Cancel

**Step 6 :**

Enter SSID, Channel and Security options, and then click "Next" to continue.

This step will setup your basic wireless network settings.

Please assign the parameters to your wireless networking. If you need more settings, please login to the Router's configuration page.

SSID: default

Channel: 11

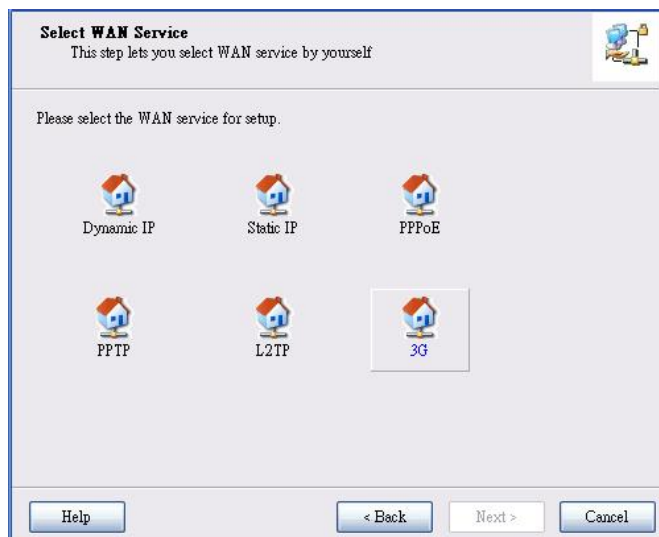

Security: WEP

Key: \*\*\*\*\*

Help < Back Next > Cancel

**Step 7 :**

Select 3G Service by clicking 3G icon to continue.

**Select WAN Service**  
This step lets you select WAN service by yourself

Please select the WAN service for setup.

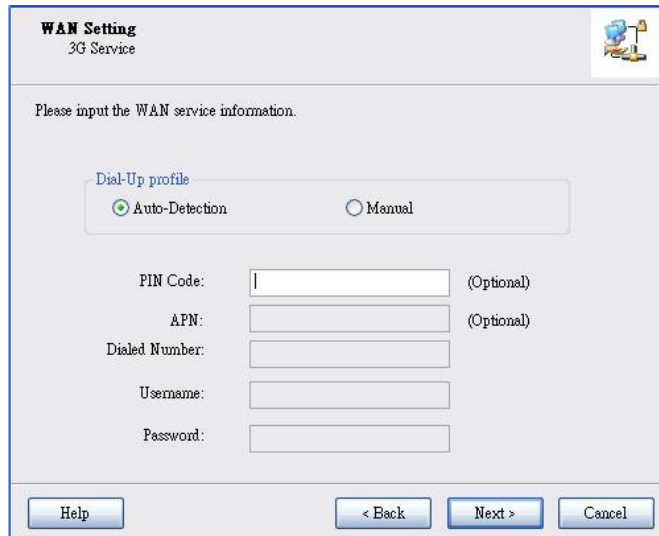

Dynamic IP Static IP PPPoE

PPTP L2TP 3G

Help < Back Next > Cancel

**Step 8-1 :**

Select "Auto-Detection", and the Utility will try to detect and configure the required 3G service settings automatically. Click "Next" to continue.

The screenshot shows a dialog box titled "WAN Setting 3G Service". It contains the instruction "Please input the WAN service information." Below this, there is a "Dial-Up profile" section with two radio buttons: "Auto-Detection" (which is selected) and "Manual". Underneath, there are five input fields: "PIN Code:" (with "(Optional)" to its right), "APN:" (with "(Optional)" to its right), "Dialed Number:", "Username:", and "Password:". At the bottom of the dialog, there are four buttons: "Help", "< Back", "Next >", and "Cancel".

**Step 8-2 :**

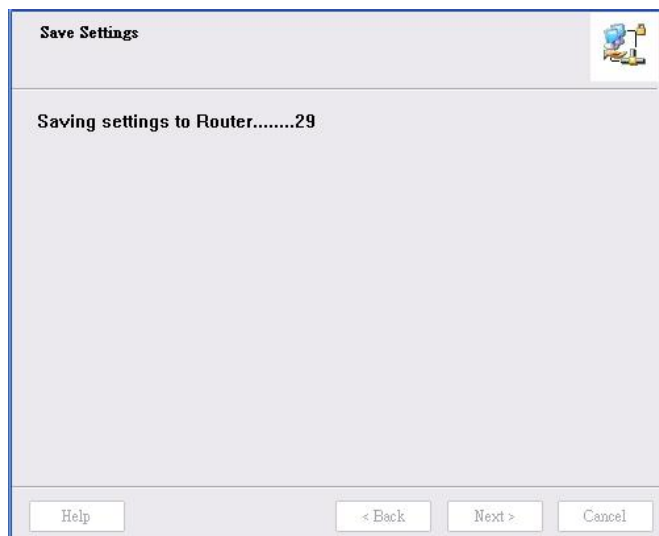

Or you can select "Manual" and manually fill in the required 3G service settings provided by your ISP. Click "Next" to continue.

The screenshot shows the same "WAN Setting 3G Service" dialog box. In this instance, the "Manual" radio button is selected. The "Auto-Detection" radio button is unselected. The rest of the interface, including the input fields and buttons, remains the same as in the previous screenshot.

**Step 9 :**

The WiFi Mobile Router is rebooted to make your entire configuration take effect.

The screenshot shows a dialog box titled "Save Settings". It contains the text "Saving settings to Router.....29". At the bottom of the dialog, there are four buttons: "Help", "< Back", "Next >", and "Cancel".

**Step 10 :**

Click "Next" to test the Internet connection or you can ignore test.

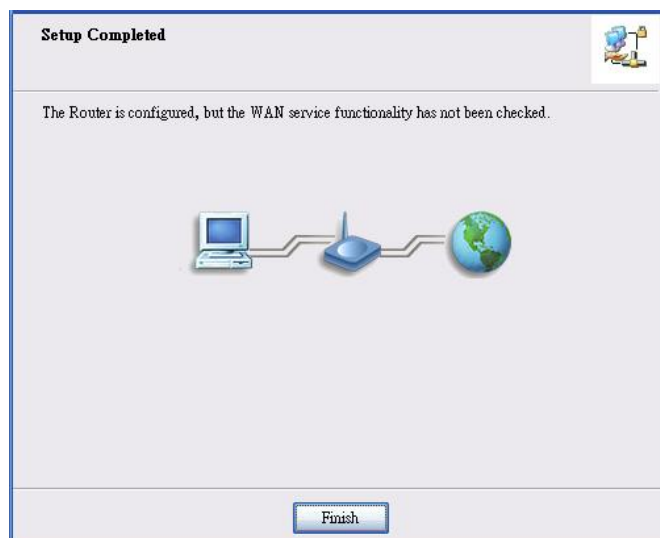

**Step 11 :**

Click "Next" to test WAN Networking service.

**Step 12 :**

Setup is completed.

## **FCC statement in User's Manual (for class B)**

### **"Federal Communications Commission (FCC) Statement**

This Equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### FCC Caution:

1. The device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:
  - (1) This device may not cause harmful interference, and
  - (2) this device must accept any interference received, including interference that may cause undesired operation.
  
2. This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.
  
3. Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user authority to operate the equipment.

### **IMPORTANT NOTE:**

#### **FCC Radiation Exposure Statement:**

**This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.**
