Quick Installation Guide

Air 4420 and Air 2411

Wireless Video Kit

Step 1 Installation

Air 2411

Turn off your AirTies Set Top Box. Place the Air 2411 into one of the USB ports on the AirTies Set Top Box, as shown below.

Air 4420

Complete the cabling process as shown in the diagram.

1. Connect the power adapter inside your box to the power inlet socket of your device and plug into the electric socket.
2. Turn on the Air 4420 by switching the On/Off button to position "1".
3. Connect the Ethernet cable inside the box to the Air 4420's Ethernet port and connect the other end to a gateway / modem or switch's Ethernet port.

Access Point Cabling

Step 2 Setup

Turn on your Set Top Box and Television. Set the input on your Television to be the Set Top Box.

When you are prompted press the AirTouch button your Air 2411.

Immediately afterwards press the OK button on the remote control.

After approximately 30 seconds the wireless connection will be configured between the Set Top Box and the Air 4420.

Congratulations! You successfully configured your AirTies wireless kit. You should be able to watch TV from your Set Top Box.
