

Aladdin

AMS-10RGB

PRINCIPAL SPECIFICATIONS

Compatible sheet types	Bi + RGB 10W
Range of dimming	1% ~ 100.0% (1% resolution)
Color temperature	2850k ~ 6098k, Hue 0 ~ 360
Output power	Up to 10W
Output channel	5 channels / Bi-Color + RGB
User interface	Graphic OLED (128 X 64)
Input power sources	5V USB-C
Supports wireless	Bluetooth LE

SUMMARY

Flicker free high precision dimming controller

- It can adjust to 2500 steps for dimming control

Useful OLED screen

- The small OLED screen displays useful information for operator
- It provides an easy way to set the parameters with three buttons

Provides a variety of remote control methods

- It supports Android or iPhone controller by Bluetooth LE

CAUTION

Lock On or Off	Click color volume and hold

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference. and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Caution

Any changes or modifications (including the antenna) made to this device that are not expressly approved by the manufacturer may void the user's authority to operate the equipment.

To comply with FCC RF exposure compliance requirements, a separation distance of at least 20 cm must be maintained between the antenna of this device and all persons. This device must not be co-located or operation in conjunction with any other antenna or transmitter.

This equipment complies with FCC

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

WARRANTY

We offer a one-year free warranty period after purchased and you can continually get a warranty service with extra charge after expired free warranty period

We do not guarantee the service for free of charge in case of below even though it is within free warranty period

- Product failure due to consumer negligence
- Product failure due to power trouble that we did not allow
- Product failure due to disassembling by unofficial facilities that we did not allow
- Product failure due to natural disaster
