

ALCATEL EYE-BOX

THE RESPONSE TO THE ESSENTIAL  
COMMUNICATION NEEDS OF SMBS

# THE ALCATEL EYE-BOX OFFER

## The response to the essential communication needs of SMBs

A solution for communication, collaboration and complete, simple mobility to meet the essential needs of SMBs.

Today SMBs want to increase their employees' **productivity** and **reactivity** by giving them communication and collaboration services they can use when on the move. Each person must be able to benefit from his or her professional environment for sharing information and communicating, whether they are in the office or traveling.

Now you can access your e-mail, manage your diary, share your contacts, consult your files and use business communication services, wherever you are.

ALCATEL EYE-BOX

ALCATEL EYE-BOX IS THE IDEAL COMPANION FOR OMNIPCX OFFICE TO MEET ESSENTIAL COMMUNICATION NEEDS.

# THE IDEAL MOBILITY AND COLLABORATION SOLUTION FOR SMBS

## MOBILE COLLABORATION

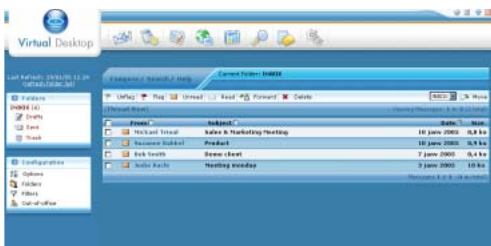

Alcatel Eye-box enables your employees to access and share the information they need for their activities, regardless of their location (office, hotel, customer visit or at home) and the tools available to them (PC, laptop, PDA, Smartphone, public Internet terminal).

Using any network or Internet access, it's never been easier to:

- ▶ Access the company messaging system (e-mail and voice mail)
- ▶ Manage a diary and organize meetings
- ▶ Share group and company contacts
- ▶ Share work documents

## FLEXIBLE INTERFACES

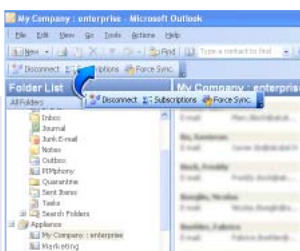

Alcatel Eye-box enables you to effortlessly access all the shared information using interfaces specially adapted to the situations corresponding to your daily activities.

When you're out of the office, you'll be able to use your work environment thanks to the virtual desktop's secure web interface using a standard Internet browser.

When you're on the move, the virtual desktop also adapts to your PDA or WAP Smartphone.

**So in every situation you'll have access to the same information as if you were in the office.**

### The Virtual Desktop and the Mobile Virtual Desktop

The essential tools you need for collaboration outside the office: e-mails, contacts, diaries, bookmarks, and files.

### Alcatel Connector for Microsoft Outlook®

Combine Microsoft Outlook®'s flexibility of use with the services centralized by the Alcatel Eye-box: e-mails, contacts, and diaries.

# THE UNIFIED COMMUNICATION SOLUTION ACCESSIBLE TO SMBS

## BUSINESS COMMUNICATION

Today, to increase your reactivity and the quality of dialog with your partners, you need global solutions integrating collaboration and mobility solutions into your company telephony system.

Alcatel Eye-box and Alcatel OmniPCX Office meet these needs with an integrated solution designed for SMBs.

Alcatel Eye-box services enable you to increase efficiency:

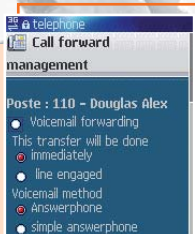

- ▶ Make use of your e-mail to be notified, and consult your voice mail.
- ▶ Use the Alcatel Eye-box contact database to make phone calls with a single click.
- ▶ Make the most of the unified communication services in all situations thanks to your collaboration and mobility applications: Outlook® / Alcatel PIMphony, Virtual Desktop and Mobile Virtual Desktop
- ▶ Your telephone service settings can be managed remotely: voice mail, call forwarding, personal assistant.
- ▶ When traveling, replace your office phone with the terminal of your choice (mobile, home phone, external number, etc.) and benefit from business communication services: supervision, call log, voice mail, forwarding

SINGLE CLICK

**Your unified communication services accessible  
via secure web interfaces on PC and Mobile.**

CALL YOUR CONTACTS  
FROM THE VIRTUAL DESKTOP WITH A SINGLE CLICK.

ADAPT YOUR TELEPHONY SERVICES  
WHILE YOU'RE TRAVELING  
FROM A PC OR MOBILE.

USE THE ADVANCED TELEPHONY FUNCTIONS  
ON YOUR PC WITH ALCATEL PIMPHONY
