

RESOLUTION

RE300-5 DSC Compatible Keyfob

Keyfob is a portable device used to remotely control a security system.

Features

- Supports for up to 8 button functions
- Low battery indication
- 5 year warranty

Enroll by placing the panel into wireless enrollment mode and pressing a keyfob button multiple times as instructed by the panel installation manual. Alternately, sensor ID located on the back of the fob can be used to manually enroll the sensor.

Assign User

- For most security panels, keyfobs **must** be assigned to a user to function properly.

To replace the battery, remove the screw on the back of the keyfob and unsnap the back from the cover.

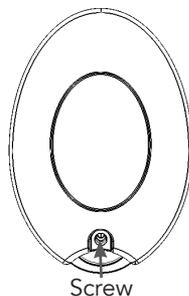

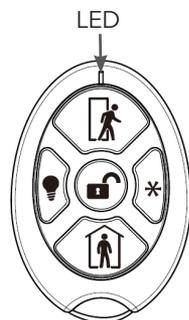

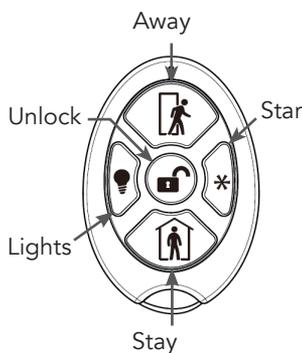

- After battery replacement, it may take up to 3 button presses before the low battery indication clears.

Pro Tips

Optional advanced button commands are sent by pressing the lights button and another button at the same time. Advanced button commands are transmitted on a secondary ID which is the sensor's primary ID with the last digit replaced by a 1.

Secondary ID Commands

- Lights + Star = Star on secondary ID
- Lights + Unlock = Unlock on secondary ID
- Lights + Away = Arm away on secondary ID
- Lights + Stay = Arm stay on secondary ID

Verify proper enrollment and operation using your control panel's installation manual.

Specifications

Physical	
Housing Dimensions	2.2 x 1.5 x .6 inches (5.6 x 3.8 x 1.4 centimeters)
Weight with Battery	.66 ounces (19 grams)
Environmental	
Operating Temperature	32°F to 120 °F (0 to 49 °C)
Maximum Humidity	85% non-condensing relative humidity
Sensor Specifications	
Frequency	433.92 MHz
Replacement Battery	One Panasonic CR2032
Nominal Battery Life	4 to 6 years
Transmitted Indications	Low Battery
Certification	
RE300-5	FCC, IC

Specifications subject to change without notice

WARRANTY

Resolution Products, Inc. will replace products that are defective in their first five (5) years.

IC NOTICE

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference, and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.
