

## **FCC Radiation Exposure Statement**

To comply with FCC RF exposure requirements in section 1.1307, a minimum separation distance of 1.29 m (51 inches) is required between the antenna and all persons.

## **Antenna Installation**

**WARNING:** It is the responsibility of the installer to insure that when using the outdoor antenna kits in the United States (or where FCC rules apply), only those antennas certified with the product are used. The use of any antenna other than those certified with the product is expressly forbidden in accordance to FCC rules CFR47 part 15.204.

The installer should configure the output power level of antennas, according to country regulations and per antenna type.

See section 2.4.9 for more information regarding setting the appropriate power level per antenna.

## **Information to User**

Any changes or modifications of equipment not expressly approved by the manufacturer could void the user's authority to operate the equipment and the company's warranty.
