FCC

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution : Any changes or modifications in construction of this device which are not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

Note : This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Others and Cautions

Addition of SMC

You can have more memory space by adding a SMC (Smart Media Card).

Power off Hansori before using a SMC.

[Mounting view of SMC]

- Mount on the SMC that you have additionally purchased, in the same direction as illustrated in the figure.

[Cautions for SMC use]

1. Format the external memory before using the SMC.
(Refer to the page No. 12.)
2. Don't pull out the SMC during play. Otherwise, data can be damaged and the player may have malfunctions.
3. The metal surface of the front side of SMC is contacted to the internal circuit of player. Be careful that the surface is not damaged.

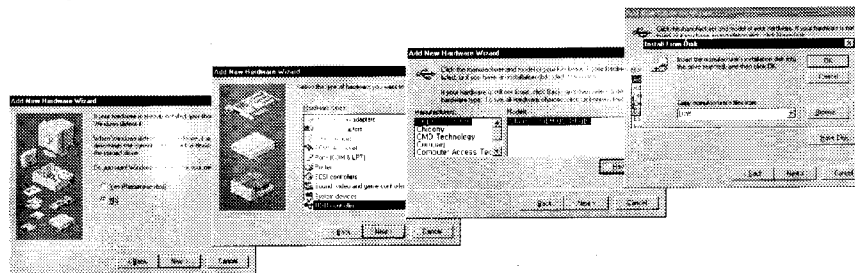

[Insert SMC into Hansori and power on.
Then, "SMC" appears on the LCD screen.]

HANSORI
