Maintaining Your Game Controller: Do not drop, throw, disassemble, crush, bend, puncture, or paint your game controller, and take care not to spill any food or liquid on your controller. If your controller does get wet, use rubber gloves to remove the batteries and wait for the controller to dry completely before re-inserting the batteries. Do not attempt to dry your controller with an external heat source, such as a microwave oven or hair dryer. Clean the controller with a soft cloth and avoid using liquids or harsh chemicals that may damage the controller; be careful not to wipe it with anything abrasive. Store your controller in cool dust free areas out of direct sunlight.

Batteries: This product contains alkaline batteries. Only use new 1.5V alkaline or 1.2 NiMH rechargeable AA sized batteries. Never mix old and new batteries. Keep all of the batteries out of the reach of infants and young children. Do not open, disassemble, puncture cut, bend or shred the batteries. Do not expose to water or other liquids, fire or explosion hazard. Do not attempt to short circuit the battery by allowing metal objects to touch the battery terminals on the controller, which could cause the terminals to become hot. Remove all batteries if they are worn out or before storing your controller for an extended period of time. Dispose of all batteries in accordance with applicable laws and regulations and never dispose of batteries by throwing them into a fire. Avoid dropping the controller or the batteries. If dropped and you suspect damage, take steps to prevent any ingestion or direct contact of fluids and any other materials from the batteries with skin or clothes and obtain inspection and repair at an appropriate service outlet.

Other Safety Considerations: 1) Some individuals may experience lightheadedness, seizures, and/or blackouts when exposed to flashing lights or other repetitive light patterns, which can occur when playing video games. If you or your child has a family history of epilepsy or of experiencing any of the aforementioned conditions, consult a physician before using the controller. If you or your child experiences any of these symptoms while using the controller, stop using the controller and seek medical care immediately. Children and teenagers may be more prone to these conditions than adults. Legal guardians should monitor their children closely for these symptoms and should encourage their children to take frequent breaks when using the controller, to use the controller in a well-lit room, and to sit a reasonable distance away from the screen. 2) Engaging in repetitive motions such as pressing buttons or playing some games may cause you to experience occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body. Discontinue use of your controller and consult a physician if you experience discomfort. To reduce risk of these symptoms avoid prolonged use and take frequent breaks. 3) Small parts contained in your controller, such as the batteries, may present a choking hazard to small children.
