

# MICROAMP50

## BI-DIRECTIONAL AMPLIFIER FOR SMALL AREA INDOOR COVERAGE

The MicroAmp50 is a high-performance bi-directional amplifier and integrated AC power supply. It is a cost-effective solution specifically designed for small area indoor coverage and is driven by an external donor antenna. The MicroAmp50 comes with either a built-in antenna or external antenna port for maximum flexibility in coverage shaping.

- Built-in overload protection
- Minimum environmental impact
- Trouble free installation and service
- Multiple passbands available
- Supports multiple bands:
  - LMR
  - Cellular
  - TACS
- Supports all technologies:
  - Analog
  - CDMA
  - TDMA
  - IDEN
  - GSM
