Subject: FCC ID:L5C0762TX Ansen Electronics

Hi Alice,

I see that Chris granted this today. Congratulations. I have a favor to ask. I realize that I neglected to pick up on the lack of a 15.105 statement in the users manual. Eventhough the Grant has already been issued, so that either one of us does not have any future problems with the FCC, could you request Ansen to resubmit a revised manual page showing the addition of that statement? It would just be better for all involved if they would. Thank you, and again, I apologize for my oversight. I won't be back at work until Monday Dec 3, but I will check with you then on this. Thanks again, and have a good week.

Regards,

Mariannne
