## Using Your Apple Remote - content to come

Use your Apple Remote with Apple products that have a built-in infrared (IR) receiver. Play a DVD or music from your iTunes library, watch photo slideshows and movie trailers, and more.

### To use your remote:

- Press Play/Pause to play or pause a song, slideshow, or movie.
- Press Right or Left to skip to the next or previous song in your iTunes library, or to the next or previous chapter on a DVD.
- Hold down Right or Left to fast-forward or rewind a song or movie.
- Press Up or Down to adjust the volume of a Mac or iPod dock (but not the volume of an Apple TV).

## Pairing Your Apple Remote

You can pair your Apple Remote with a specific Mac or Apple product. After you pair the Mac or Apple product, it's controlled by only the paired remote.

### To pair your remote:

- 1 Move within 3 to 4 inches (8 to 10 cm) of your Mac or Apple product.
- 2 Point the remote at the IR receiver on the front of your Mac or Apple product.
- 3 Hold down Right and Menu for 6 seconds.

When you've paired your remote, a chainlink symbol appears onscreen.

## To unpair your remote on a Mac:

- 1 Choose Apple (🍏) > System Preferences from the menu bar.
- 2 Click Security & Privacy, click Advanced, and then click Unpair.

## To unpair your remote on other Apple products:

- Hold down Menu and Left for 6 seconds.

## Charging the remote

Content to come.

## Regulatory Compliance Information

### FCC Compliance Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**Important:** Changes or modifications to this product not authorized by Apple could void the electromagnetic compatibility (EMC) and wireless compliance and negate your authority to operate the product. This product has demonstrated EMC compliance under conditions that included the use of compliant peripheral devices and shielded cables between system components. It is important that you use compliant peripheral devices and shielded cables between system components to reduce the possibility of causing interference to radios, televisions, and other electronic devices. This product was tested for EMC compliance under conditions that included the use of Apple peripheral devices.
