

Apple TV Info

WARNING: Read all safety information below and operating instructions before using Apple TV to avoid injury. Failure to follow these safety instructions could result in fire, electric shock, or other injury or damage to Apple TV or other property.

Important Safety Instructions

Read and follow these instructions to use Apple TV safely.

- Read these instructions.
- Keep these instructions.
- Heed all warnings.
- Follow all instructions.
- Do not use Apple TV near water.
- Clean only with a dry cloth.
- Do not block any ventilation openings. Install in accordance with manufacturer's instructions.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other devices (including amplifiers) that produce heat.
- Protect the power cord from being walked on or pinched, particularly at the plugs and at the point where it exits from Apple TV.
- Only use attachments/accessories specified by the manufacturer.
- Unplug Apple TV during lightning storms or when unused for long periods of time.
- Refer all servicing to qualified service personnel. Servicing is required when Apple TV has been damaged in any way, such as when the power cord or plug is damaged, liquid has been spilled or objects have fallen into Apple TV, or Apple TV has been exposed to rain or moisture, does not operate normally, or has been dropped.

Power

Apple TV has no on/off switch. To disconnect Apple TV from power, unplug the power cord. Make sure the power cord is always easily accessible.

When connecting or disconnecting Apple TV, always hold the plug by its sides. Keep fingers away from the metal part of the plug.

Location

Do not use Apple TV outdoors. Apple TV is an indoor product. Do not place naked flame sources, such as lighted candles, on or near Apple TV. Do not use Apple TV near water. Do not expose Apple TV to dripping or splashing, and do not place any object filled with liquid, such as a vase, on Apple TV. Do not move Apple TV if another device such as a TV, computer, or other electronic device is connected to it.

WARNING: To reduce the risk of fire or electric shock, do not expose Apple TV to rain, liquid, moisture, excessive heat, or naked flame.

WARNING: The remote contains batteries. Do not expose the remote to excessive heat such as sunshine, fire, or the equivalent.

Cleaning and care

To clean Apple TV, unplug the power cord and all cables. Then use a soft, dry, lint-free cloth. Avoid getting moisture in openings. Don't use window cleaners, household cleaners, aerosol sprays, solvents, alcohol, ammonia, or abrasives to clean Apple TV.

Repairing

Do not make repairs yourself. You can find more information about getting service at <https://support.apple.com/apple-tv/repair/service>.

WARNING: Do not attempt to open Apple TV or disassemble it. You run the risk of electric shock, and damage caused by disassembly is not covered by the limited warranty. No user-serviceable parts are inside.

Handling

Your Apple TV may be damaged by improper storage or handling. Be careful not to drop Apple TV when transporting it.

Operating environment

Apple TV works best in ambient temperatures between 32° and 95° F (0° and 35° C) and can be stored at temperatures between -4° and 113° F (-20° and 45° C). While you're using Apple TV, it's normal for the case to get warm. The Apple TV case is designed to transfer heat from inside the unit to the cooler air outside.

Do not operate Apple TV in areas with significant amounts of airborne dust or particulate matter that might clog the ventilation openings.

Explosive atmospheres

Using Apple TV in any area with a potentially explosive atmosphere, such as areas where the air contains high levels of flammable chemicals, vapors, or particles (such as grain, dust, or metal powders), may be hazardous. Obey all signs and instructions.

Medical conditions

If you have a medical condition that you believe could be affected by using Apple TV (for example, seizures, blackouts, eyestrain, or headaches), consult with your physician prior to using Apple TV.

Medical devices

The remote contains radios that emit electromagnetic fields. These electromagnetic fields may interfere with pacemakers, defibrillators, and other medical devices. Keep at least 6 inches (approximately 15 cm) of separation between your pacemaker or defibrillator and the remote. If you suspect the remote is interfering with your pacemaker or any other medical device, stop using it and consult your physician for information specific to your medical device.

Repetitive motion

When you perform repetitive activities such as playing games on Apple TV, you may experience occasional discomfort in your hands, arms, wrists, shoulders, neck, or other parts of your body. If you experience discomfort, stop those activities and consult a physician.

Charging the remote

Charge the remote with the included Lightning cable, or with other third-party "Made for iPhone" Lightning cables. Using counterfeit or damaged cables or chargers, or charging when moisture is present, can cause fire, electric shock, injury, or damage to the remote or other property. When you use a power adapter to charge the remote, make sure the Lightning cable is fully inserted into the power adapter before you plug the adapter into a power outlet.

Lightning cable and connector

Avoid prolonged skin contact with the connector when the Lightning cable is plugged into a power source, because it may cause discomfort or injury. Avoid situations where your skin is in contact with the Lightning connector for a long period of time when it's plugged in. For example, while the remote is charging or while the Lightning cable is plugged into a power source, don't sit or sleep on it or place it under a blanket, pillow, or your body. Take special care if you have a physical condition that affects your ability to detect heat against the body.

Discoloration of the Lightning connector after regular use is normal. Dirt, debris, and exposure to liquids may cause discoloration. To remove the discoloration or if the cable becomes warm during use or won't charge the remote, disconnect the Lightning cable from your computer or power adapter and clean it with a soft, dry, lint-free cloth. Do not use liquids or cleaning products when cleaning the Lightning connector.

Gaming

Hold the remote securely and avoid excessive motion when playing games on Apple TV. Use the Remote Loop (sold separately) and maintain a secure grip on the remote to prevent injury, or accidental damage to the remote or other property.

Device information

Information such as the model number, serial number, and electrical rating is located on the bottom of Apple TV. To find the serial number onscreen, go to Settings > General > About.

User Guide

Before using Apple TV, review the Apple TV User Guide. Go to help.apple.com/appletv. You can also download the user guide from the iBooks Store (where available). Retain documentation for future reference.

Regulatory

Regulatory information, certification, and compliance marks specific to Apple TV are available on Apple TV. Go to Settings > System > Legal > Regulatory. Additional regulatory information is in "Safety, handling, and support" in the Apple TV User Guide.

FCC Compliance Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Responsible party (contact for FCC matters only):
Apple Inc. Corporate Compliance
1 Infinite Loop, MS 91-1EMC
Cupertino, CA 95014

ISED Canada Compliance Statement

This device complies with ISED Canada license-exempt RSS standard(s).

ISED Canada ICES-003 Compliance Label

Complies with CAN ICES-3 (B)/NMB-3(B).

ENERGY STAR® Compliance Statement

Apple TV meets the ENERGY STAR® guidelines for energy efficiency. Reducing energy consumption saves money and helps conserve valuable resources. For more information about ENERGY STAR®, go to www.energystar.gov.

By default, power management is enabled and puts Apple TV to sleep after 1 hour of user inactivity. To put Apple TV to sleep immediately, press and hold the Home button on the remote. To wake Apple TV, press the Home button on the remote. To change sleep settings, go to Settings > General > Sleep After.

EU Compliance Statement

Apple Inc. hereby declares that this wireless device is in compliance with the essential requirements and other relevant provisions of the R&TTE Directive and Radio Equipment Directive 2014/53/EU, as applicable.

A copy of the EU Declaration of Conformity, including device frequency bands and maximum radio-frequency power, is available online at www.apple.com/euro/compliance.

Apple's EU representative is Apple Distribution International, Hollyhill Industrial Estate, Cork, Ireland.

Use Restriction

This device is restricted to indoor use when operating in the 5150 to 5350 MHz frequency range.

This device can be used in the EU.

Disposal and Recycling

The lithium-ion battery in the remote should be removed by Apple or an authorized service provider. Dispose of this product and/or its battery separately from household waste, and in accordance with local environmental laws and guidelines. For information about battery service and recycling, go to www.apple.com/batteries. For information about Apple's recycling program, recycling collection points, restricted substances, and other environmental initiatives, go to www.apple.com/environment.

EU Disposal Information

The symbol above means that according to local laws and regulations your product and/or its battery shall be disposed of separately from household waste. When this product reaches its end of life, take it to a collection point designated by local authorities. The separate collection and recycling of your product and/or its battery at the time of disposal will help conserve natural resources and ensure that it is recycled in a manner that protects human health and the environment.

Battery Charger System Efficiency

Apple One-Year Limited Warranty Summary

Apple warrants the included hardware product and accessories against defects in materials and workmanship for one year from the date of original retail purchase. Apple does not warrant against normal wear and tear, nor damage caused by accident or abuse. To obtain service, call Apple or visit an Apple Retail Store or an Apple Authorized Service Provider—available service options are dependent on the country in which service is requested and may be restricted to the original country of sale. Call charges and international shipping charges may apply,

depending on the location. Subject to the full terms and detailed information on obtaining service available at www.apple.com/legal/warranty and www.apple.com/support, if you submit a valid claim under this warranty, Apple will either repair, replace, or refund your Apple TV at its own discretion. Warranty benefits are in addition to rights provided under local consumer laws. You may be required to furnish proof of purchase details when making a claim under this warranty.

For Australian Consumers: Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure. Apple Pty Ltd, PO Box A2629, Sydney South, NSW 1235. Tel: 133-622.

For Brazilian Consumers: Warranty benefits are in addition to rights provided under local consumer laws, except for the one-year warranty that already comprises the full term of legal warranty provided by the Brazilian consumer defense code/regulations.
