**Get started with Watch Now.** In Watch Now, browse a curated feed of recommendations, based on channels you're subscribed to and movies or TV shows you've watched.

Spider-Man: Into the Spider-Verse is available on the Apple TV app

Keep watching in Up Next. In Up Next, you'll find movies or TV shows you're watching, as well as movies and TV shows you've added to your queue. To add a new movie or TV show to Up Next, click the Add to Up Next button.

Discover more in Movies, TV Shows, and Kids. If you're looking for something specific, click the Movies, TV Shows, or Kids tab in the menu bar, then browse by genre.
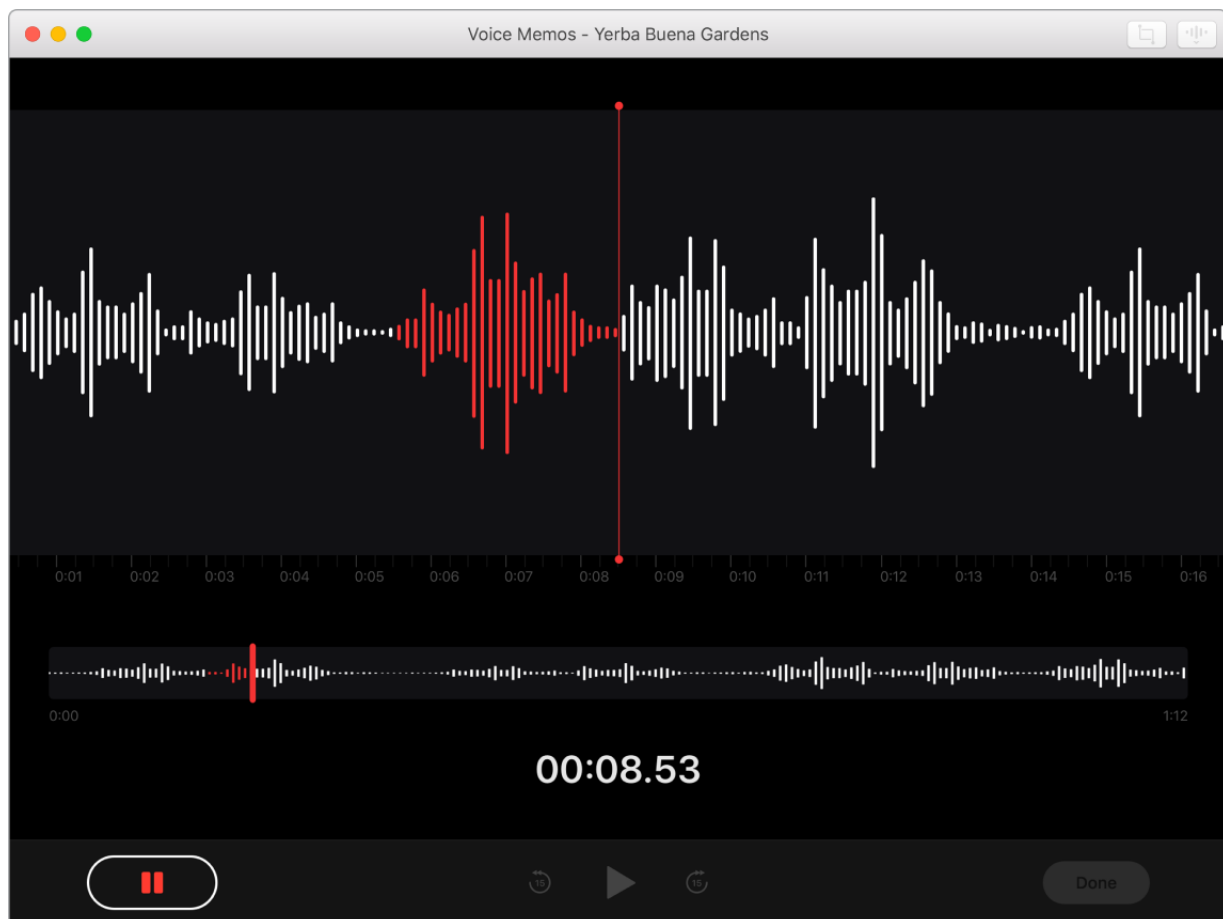

Buy, rent, or subscribe. When you find a movie or TV show you want to watch, you can choose to buy or rent it. Channels you've subscribed to are available on all devices, and can be used by up to six family members through Family Sharing.

Choose something from your own library. Click Library to see all the movies and TV shows you've purchased or downloaded, organized by genre. To start watching, just click the movie or TV show.

Learn more. See the Apple TV App User Guide.

🎙️Voice Memos

Voice Memos makes it easier than ever to capture personal reminders, class lectures, and even interviews or song ideas. With iCloud, you can access the voice memos you record with your iPhone, right on your Mac Pro.

Record from your Mac Pro. To record, click the red button. To stop recording, click Done. Organize your recordings by giving them a name in the name field. Play back a recording by clicking the Play button. (Requires an external microphone. Accessories are sold separately at apple.com, your local Apple Store, or other resellers.)

Your voice memos across all your devices. Your voice memos are available on all your devices when you sign in with the same Apple ID. You can access recordings you made with your iPhone or iPad right from your Mac.
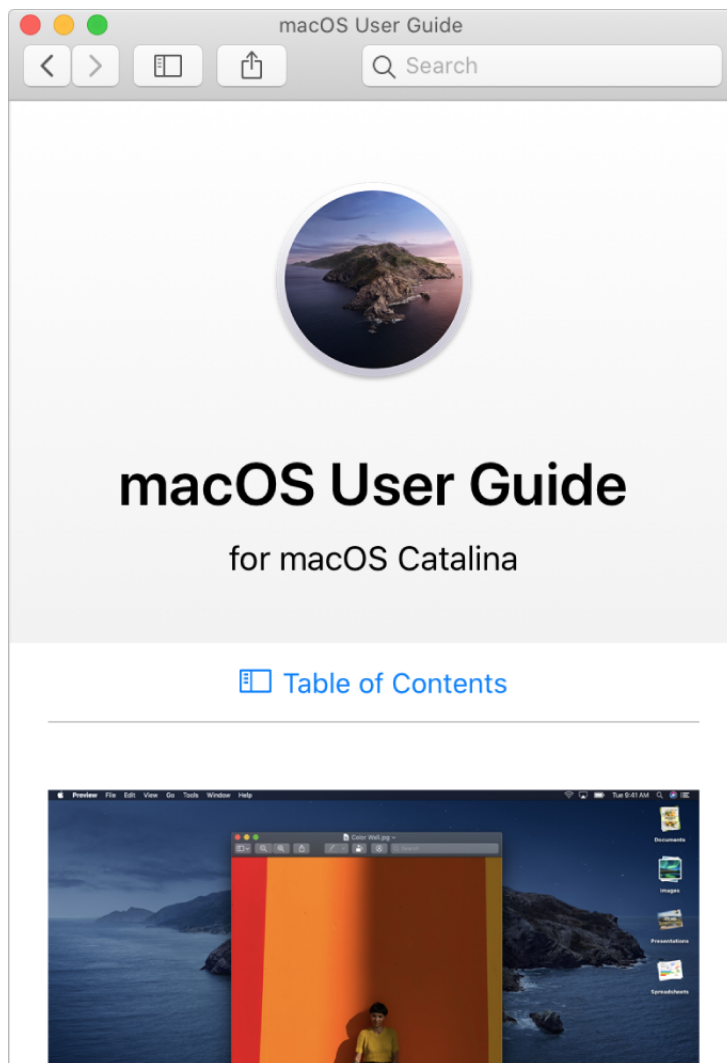

Learn more. See the Voice Memos User Guide.

Find answers

macOS User Guide

The macOS User Guide has a lot more information about how to use your Mac Pro.
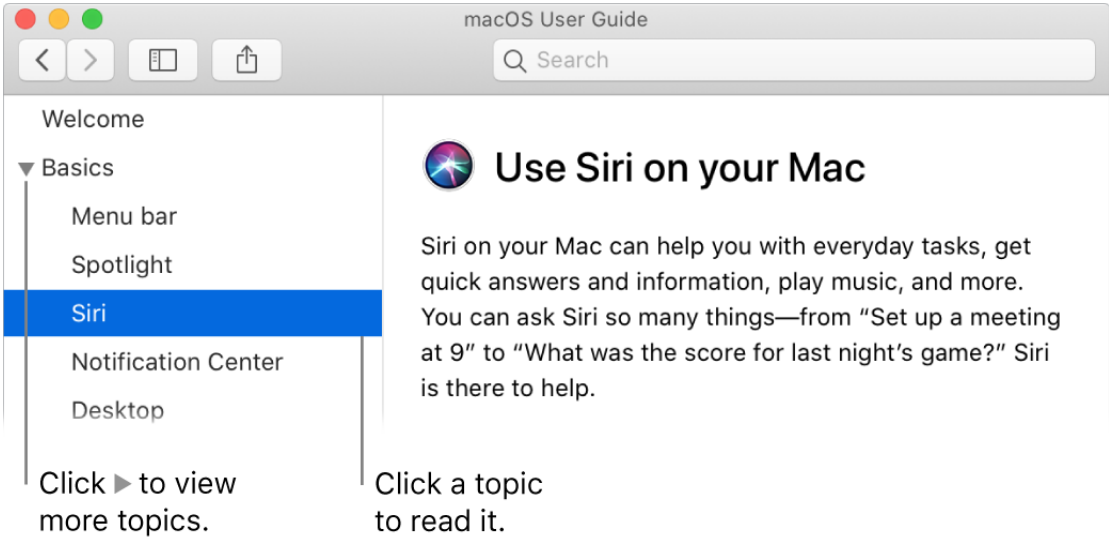

Get help. Click the Finder icon 🙂 in the Dock, then click the Help menu in the menu bar and choose macOS Help to open the macOS User Guide. Or type a question or term in the search field, then choose a topic from the results list.

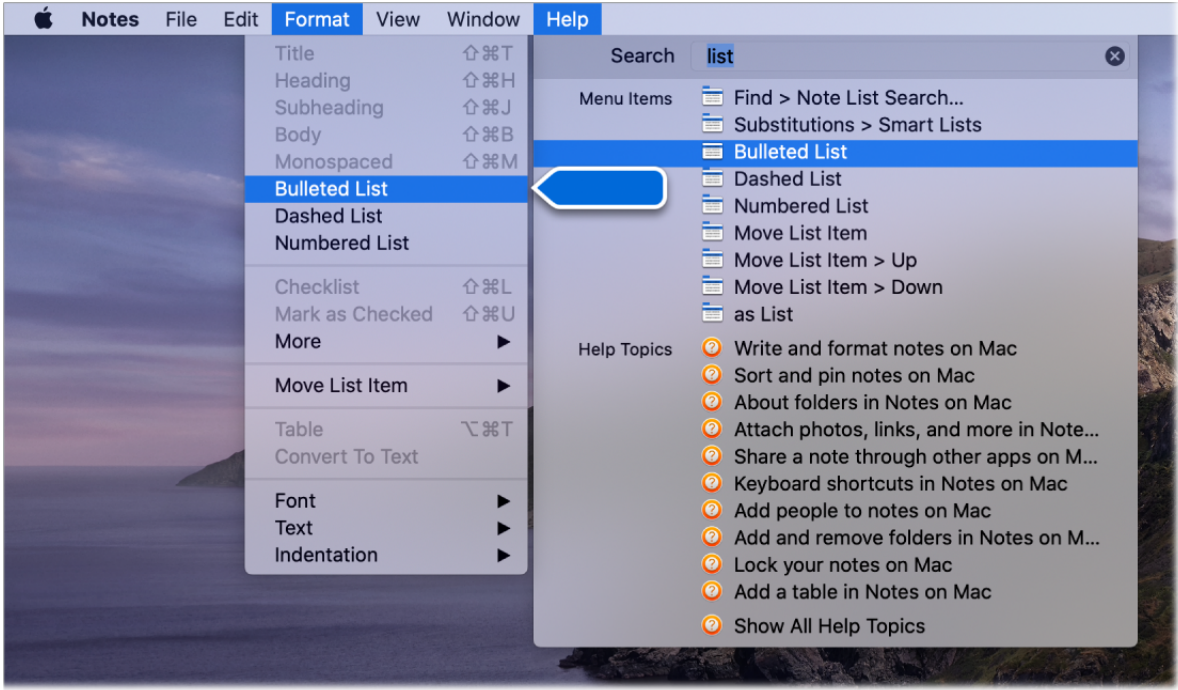

— Show the table of contents.

— Learn about macOS.

Explore topics. To find a topic in the macOS User Guide, you can browse or search. To browse, click "Table of Contents" to see the list of topics, then click a topic to read it. Or type what you want to find in the search field to go right to your answer.

Click ▶ to view more topics.

Click a topic to read it.

Find out what's new. Click the Help menu, then choose "See What's New in macOS" to find out more about the latest features of macOS.

💡 **Tip:** If you can't remember the location of a menu item in an app, search for it in Help. Place the pointer over the result, and an arrow shows you the command.

Common questions about your Mac

How do I get support for my Mac Pro? Go to [link to come].

Where is my serial number? Choose Apple menu > About This Mac. The serial number is the last item in the list.

How can I find the documentation for my Mac Pro? To find the Mac Pro Essentials guide, choose Apple menu > About This Mac, click the Support tab, then click User Manual. From the Support tab, you can also click "macOS Help" to open the user guide for the operating system. For older Mac models, see Browse manuals by product.

How do I get help for an app? When you're using the app, click the Help menu in the menu bar at the top of the screen.

Where is the safety information for my Mac Pro? See Important safety information for your Mac.

How do I find the technical specifications? Choose Apple menu > About This Mac and click the buttons at the top.

How do I check my disk for problems? Use Disk Utility. See Repair a disk using Disk Utility on Mac in the Disk Utility User Guide.

Keyboard shortcuts on your Mac

You can press key combinations to do things on your Mac Pro that you'd normally do with a trackpad, mouse, or other device. Here's a list of commonly used keyboard shortcuts.

Shortcut	Description
Command-X	Cut the selected item and copy it to the Clipboard.
Command-C	Copy the selected item to the Clipboard.
Command-V	Paste the contents of the Clipboard into the current document or app.
Command-Z	Undo the previous command. Press Command-Shift-Z to redo.
Command-A	Select all items.
Command-F	Open a Find window, or find items in a document.
Command-G	Find the next occurrence of the item you're searching for. Press Command-Shift-G to find the previous occurrence.
Command-H	Hide the windows of the front app. Press Command-Option-H to view the front app but hide all other apps.
Command-M	Minimize the front window to the Dock. Press Command-Option-M to minimize all windows of the front app.
Command-N	Open a new document or window.
Command-O	Open the selected item, or open a dialog to select a file to open.
Command-P	Print the current document.
Command-S	Save the current document.
Command-W	Close the front window. Press Command-Option-W to close all windows of the app.
Command-Q	Quit the current app.
Command-Option-Esc	Choose an app to Force Quit.
Command-Tab	Switch to the next most recently used app among your open apps.
Command-Shift-5	Open the Screenshot utility. You can also take screenshots using the following shortcuts: • Press Command-Shift-3 to take a screenshot of the entire screen. • Press Command-Shift-4 to take a screenshot of a selected area of the screen.

If you switched to the Mac from a PC, check out the Apple Support article Mac tips for Windows switchers for a list of Mac keyboard shortcuts and the differences between Mac and Windows keyboards. For more keyboard shortcuts, see the Apple Support article Mac keyboard shortcuts.

Screenshot utility on your Mac

Explore the Screenshot menu to find all the controls you need to take screenshots and screen recordings. You can also capture your voice during a screen recording. The optimized workflow lets you take photos and videos of your screen, and then easily share, edit, or save them.
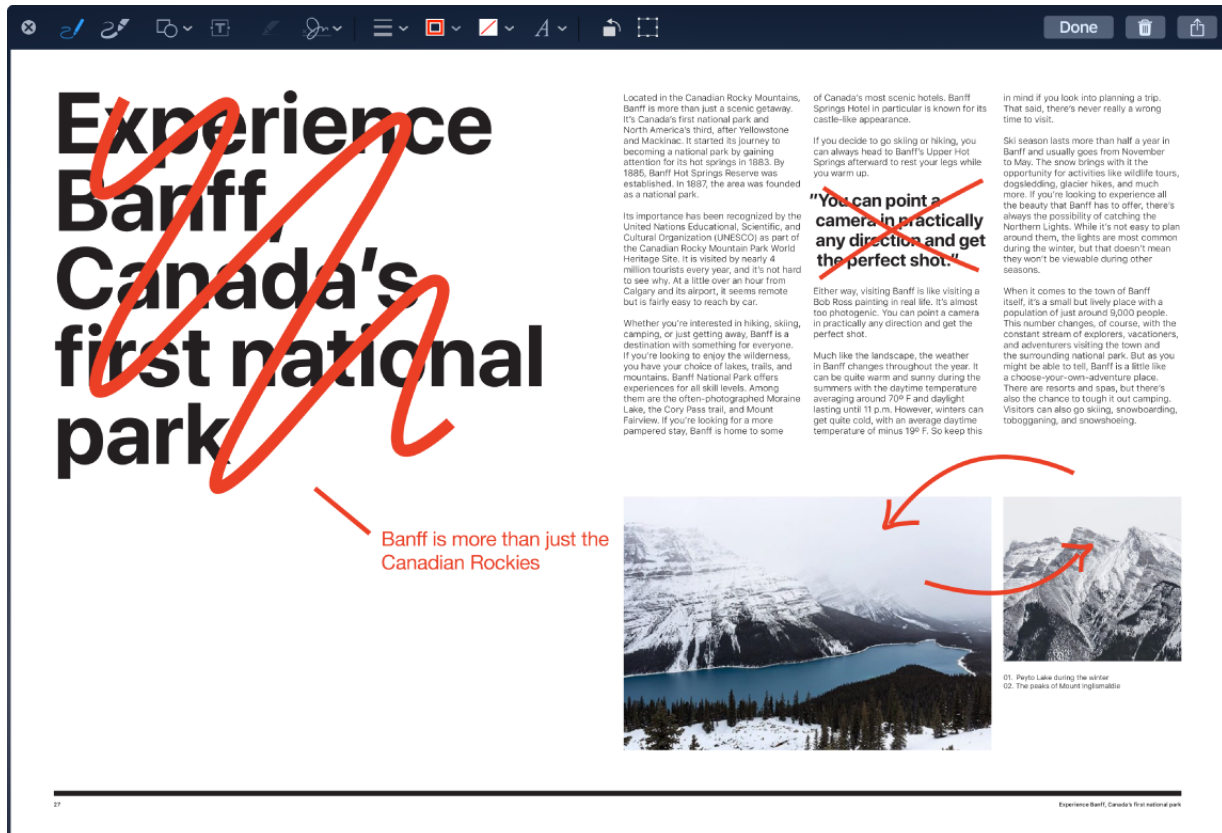

Access the screenshot controls. Press Command-Shift-5. You can capture the entire screen, a selected window, or a portion of a window. You can also record the entire screen or a selected portion of the screen.

Use the icons at the bottom of the screen to capture a selection ⬚, record your screen 🖥, and more. Click Options to modify your save location, set a timer before capturing, set microphone and audio options, or show the pointer. Click Capture to take the screenshot.

After you take a screenshot or video, a thumbnail appears in the corner of the screen. Drag the thumbnail into a document or folder, swipe to the right to quickly save it, or click to edit or share it.

Note: You can also open the Screenshot utility from the Other folder in Launchpad, or in the Apps/Utilities folder in the Finder.

Mark up your screenshot. Click the thumbnail of your screenshot to use Markup tools and make annotations. You can also click Share ⬆ to send your marked up screen to colleagues or friends—right from the screenshot itself.

Learn more. See [Take screenshots or screen recordings on Mac](#) in the macOS User Guide.

Accessibility on your Mac

Your Mac, iOS devices, and iPadOS devices include powerful tools to make Apple product features available and easy to use by all—such as VoiceOver, Voice Control, Switch Control, and Hover Text. Voice Control lets you control your Mac entirely with your voice. With features such as Hover Text and Zoom Display, you can interact with items on the screen in a variety of sizes. Read on to learn about the new Accessibility features. For comprehensive details about Accessibility support in Apple products, go to [Accessibility](#).

Important: Mac Pro doesn't have a built-in microphone, so you must connect an external microphone (sold separately) in order to use Voice Control.

Accessibility preferences. Preferences are now organized around topics of vision, hearing, and motor, making it simpler to find what you're looking for.

Do it all with Voice Control. Now you can control your Mac with just your voice.

Note: All audio processing for Voice Control happens on-device, so your personal data is kept private.
