

# iPod touch

## **Welcome to iPod touch.**

To start, turn on iPod touch by pressing and holding the Sleep/Wake button for a few seconds. Then follow the onscreen instructions to set up iPod touch.

## **Learn more.**

Learn more about iPod touch features at [www.apple.com/ipodtouch](http://www.apple.com/ipodtouch).

For instructions and safety information, see the *iPod touch User Guide*.\* Go to [support.apple.com/guide/ipod-touch](http://support.apple.com/guide/ipod-touch) to view the guide on the web, or use Apple Books to download the guide (where available).

## **Get support.**

Visit [www.apple.com/support/ipodtouch](http://www.apple.com/support/ipodtouch) for helpful resources.

Listen responsibly. \*Not all features are available in all areas.

# iPod touch

## **iPod touch User Guide**

Before using iPod touch, review the user guide at [support.apple.com/guide/ipod-touch](http://support.apple.com/guide/ipod-touch). You can also use Apple Books to download the guide (where available) or, to view the user guide on iPod touch, use the Safari bookmark. Retain documentation for future reference.

## **Safety and Handling**

See “Safety, handling, and support” in the *iPod touch User Guide*.

## **Exposure to Radio Frequency Energy**

On iPod touch, go to Settings > General > About > Legal > RF Exposure. Or go to [www.apple.com/legal/rfexposure](http://www.apple.com/legal/rfexposure).

## **Battery**

Don't attempt to replace the iPod touch battery yourself—you may damage the battery, which could cause overheating, fire, and injury. The lithium-ion battery in your iPod touch should be serviced or recycled by Apple or an authorized service provider, and must be recycled or disposed of separately from household waste. Dispose of batteries according to your local environmental laws and guidelines. For information about Apple lithium-ion batteries and battery service and recycling, go to [www.apple.com/batteries/service-and-recycling](http://www.apple.com/batteries/service-and-recycling).

## **Avoiding Hearing Damage**

To prevent possible hearing damage, do not listen at high volume levels for long periods. More information about sound and hearing is available online at [www.apple.com/sound](http://www.apple.com/sound) and in “Important safety information” in the *iPod touch User Guide*.

## **Medical Device Interference**

iPod touch contains magnets that may interfere with medical devices. See “Important safety information” in the *iPod touch User Guide*.

## **Apple One-Year Limited Warranty Summary**

Apple warrants the included hardware product and accessories against defects in materials and workmanship for one year from the date of original retail purchase. Apple does not warrant against normal wear and tear, nor damage caused by accident or abuse. To obtain service, call Apple or visit an Apple Store or an Apple Authorized Service Provider—available service options are dependent on the country in which service is requested and may be restricted to the original country of sale. Call charges and international shipping charges may apply, depending on the location. Subject to the full terms and detailed

information on obtaining service available at [www.apple.com/legal/warranty](http://www.apple.com/legal/warranty) and [support.apple.com](http://support.apple.com), if you submit a valid claim under this warranty, Apple will either repair, replace, or refund your iPod touch at its own discretion. Warranty benefits are in addition to rights provided under local consumer laws. You may be required to furnish proof of purchase details when making a claim under this warranty.

For Australian Consumers: Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure. Apple Pty Ltd, PO Box A2629, Sydney South, NSW 1235. Tel: 133-622.

For Brazilian Consumers: Warranty benefits are in addition to rights provided under local consumer laws, except for the 1-year warranty that already comprises the full term of legal warranty provided by the Brazilian consumer defense code/regulations.

### **Regulatory**

Regulatory information, certification, and compliance marks specific to iPod touch are available on iPod touch. Go to Settings > General > Regulatory. Additional regulatory information is in "Safety, handling, and support" in the *iPod touch User Guide*.

### **FCC and ISED Canada Compliance**

This device complies with part 15 of the FCC Rules and ISED Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This product has demonstrated EMC compliance under conditions that included the use of compliant peripheral devices and shielded cables between system components. It is important that you use compliant peripheral devices and shielded cables between system components to reduce the possibility of causing interference to radios, televisions, and other electronic devices.

---

# Safety, handling, and support

## Important safety information for iPod touch

**WARNING:** Failure to follow these safety instructions could result in fire, electric shock, injury, or damage to iPod touch or other property. Read all the safety information below before using iPod touch.

**Handling** Handle iPod touch with care. It is made of metal, glass, and plastic and has sensitive electronic components inside. iPod touch or its battery can be damaged if dropped, burned, punctured, or crushed, or if it comes in contact with liquid. If you suspect damage to iPod touch or the battery, discontinue use of iPod touch, as it may cause overheating or injury. Don't use iPod touch with cracked glass, as it may cause injury. If you're concerned about scratching the surface of iPod touch, consider using a case or cover.

**Repairing** Don't open iPod touch and don't attempt to repair iPod touch yourself. Disassembling iPod touch may damage it or may cause injury to you. If iPod touch is damaged, malfunctions, or comes in contact with liquid, contact Apple or an Apple Authorized Service Provider. Repairs by service providers other than Apple or an Apple Authorized Service Provider may not involve the use of Apple genuine parts and may affect the safety and functionality of the device. You can find more information about repairs and service at the [iPod Service Answer Center website](#).

**Battery** Don't attempt to replace the iPod touch battery yourself. The lithium-ion battery in iPod touch should be replaced by Apple or an authorized service provider. Improper replacement or repair could damage the battery, cause overheating, or result in injury. The battery must be recycled or disposed of separately from household waste. Don't incinerate the battery. For information about battery service and recycling, see the [Battery Service and Recycling website](#).

**Distraction** Using iPod touch in some circumstances may distract you and might cause a dangerous situation (for example, avoid using headphones while riding a bicycle). Observe rules that prohibit or restrict the use of mobile devices or headphones.

**Navigation** Maps depends on data services. These data services are subject to change and may not be available in all regions, resulting in maps and location-based information that may be unavailable, inaccurate, or incomplete. Compare the information provided in Maps to your surroundings. Use common sense when navigating. Always observe current road conditions and posted signs to resolve any discrepancies. Some Maps features require Location Services.

**Charging** Charge iPod touch with the included USB cable. You can also charge

iPod touch with “Made for iPod” or other third-party cables and power adapters that are compliant with USB 2.0 or later and with applicable country regulations and international and regional safety standards, including the International Standard for Safety Information Technology Equipment (IEC 60950-1). Other adapters may not meet applicable safety standards, and charging with such adapters could pose a risk of death or injury.

Using damaged cables or chargers, or charging when moisture is present, can cause fire, electric shock, injury, or damage to iPod touch or other property. When you use the Apple USB power adapter (sold separately) to charge iPod touch, make sure the USB cable is fully inserted into the power adapter before you plug the adapter into a power outlet. It’s important to keep iPod touch and its power adapter in a well-ventilated area when in use or charging.

**Charging cable and connector** Avoid prolonged skin contact with the charging cable and connector when the charging cable is connected to a power source because it may cause discomfort or injury. Sleeping or sitting on the charging cable or connector should be avoided.

**Prolonged heat exposure** iPod touch and its USB power adapter (available separately) comply with applicable surface temperature standards and limits defined by the International Standard for Safety of Information Technology Equipment (IEC 60950-1). However, even within these limits, sustained contact with warm surfaces for long periods of time may cause discomfort or injury. Use common sense to avoid situations where your skin is in contact with a device or its power adapter when it’s operating or connected to a power source for long periods of time. For example, don’t sleep on a device or power adapter, or place them under a blanket, pillow, or your body, when it’s connected to a power source. Keep your iPod touch and its USB power adapter (available separately) in a well-ventilated area when in use or charging. Take special care if you have a physical condition that affects your ability to detect heat against the body.

**USB power adapter** (available separately) To operate the Apple USB power adapter safely and reduce the possibility of heat-related injury or damage, plug the power adapter directly into a power outlet. Don’t use the power adapter in wet locations, such as near a sink, bathtub, or shower stall, and don’t connect or disconnect the power adapter with wet hands. Stop using the power adapter and any cables if any of the following conditions exist:

- The power adapter plug or prongs are damaged.
- The charge cable becomes frayed or otherwise damaged.
- The power adapter is exposed to excessive moisture, or liquid is spilled into the power adapter.
- The power adapter has been dropped, and its enclosure is damaged.

USB power adapter specifications:

<b>Frequency</b>	50 to 60 Hz, single phase
<b>Line voltage</b>	100 to 240 Vac
<b>Output voltage</b>	5 Vdc / 1A

**Hearing loss** Listening to sound at high volumes may damage your hearing. Background noise, as well as continued exposure to high volume levels, can make sounds seem quieter than they actually are. Turn on audio playback and check the volume before inserting anything in your ear. For information about how to set a maximum volume limit, see [Play music on iPod touch](#). For more information about hearing loss, see the [Sound and Hearing website](#).

To avoid hearing damage, use only compatible receivers, earbuds, headphones, speakerphones, or earpieces with iPod touch. The headsets sold with iPhone 5s or later in China mainland (identifiable by dark insulating rings on the plugs) are designed to comply with Chinese standards and are only compatible with iPhone 5s and later, iPad Air and later, iPad Pro, iPad mini 2 and later, and iPod touch 6th generation and later.

**WARNING:** To prevent possible hearing damage, do not listen at high volume levels for long periods.

**Radio frequency exposure** iPod touch uses radio signals to connect to wireless networks. For information about radio frequency (RF) energy resulting from radio signals, and steps you can take to minimize exposure, go to Settings  > General > About > Legal > RF Exposure, or see the [RF Exposure website](#).

**Radio frequency interference** Observe signs and notices that prohibit or restrict the use of electronic devices. Although iPod touch is designed, tested, and manufactured to comply with regulations governing radio frequency emissions, such emissions from iPod touch can negatively affect the operation of other electronic equipment, causing them to malfunction. When use is prohibited, such as while traveling in aircraft, or when asked to do so by authorities, turn off iPod touch, or [use airplane mode](#) or Settings  > Wi-Fi and Settings > Bluetooth to turn off the iPod touch wireless transmitters.

**Medical device interference** iPod touch contains components and radios that emit electromagnetic fields. iPod touch contains magnets, and the included EarPods also have magnets. These electromagnetic fields and magnets may interfere with medical devices, such as pacemakers and defibrillators. Consult your physician and medical device manufacturer for information specific to your medical device and whether you need to maintain a safe distance of separation between your medical device and iPod touch and the EarPods. If you suspect iPod touch or the EarPods are interfering with your medical device, stop using iPod touch.

**Not a medical device** iPod touch and the Health app are not designed or intended for use in the diagnosis of disease or other conditions, or in the cure, mitigation, treatment,

or prevention of disease.

**Medical conditions** If you have any medical condition or experience symptoms that you believe could be affected by iPod touch or flashing lights (for example, seizures, blackouts, eyestrain, or headaches), consult with your physician prior to using iPod touch.

**Explosive and other atmospheric conditions** Charging or using iPod touch in any area with a potentially explosive atmosphere, such as areas where the air contains high levels of flammable chemicals, vapors, or particles (such as grain, dust, or metal powders), may be hazardous. Exposing iPod touch to environments having high concentrations of industrial chemicals, including near evaporating liquified gasses such as helium, may damage or impair iPod touch functionality. Obey all signs and instructions.

**Repetitive motion** When you perform repetitive activities such as typing, swiping, or playing games on iPod touch, you may experience discomfort in your hands, arms, wrists, shoulders, neck, or other parts of your body. If you experience discomfort, stop using iPod touch and consult a physician.

**High-consequence activities** This device is not intended for use where the failure of the device could lead to death, personal injury, or severe environmental damage.

**Choking hazard** Some iPod touch accessories may present a choking hazard to small children. Keep these accessories away from small children.

## Important handling information for iPod touch

**Cleaning** Clean iPod touch immediately if it comes in contact with anything that may cause stains, or other damage—for example, dirt or sand, ink, makeup, soap, detergent, acids or acidic foods, or lotions. To clean:

- Disconnect all cables and turn off iPod touch by pressing and holding the Sleep/Wake button, then dragging the slider.
- Use a soft, slightly damp, lint-free cloth—for example, a lens cloth.
- Avoid getting moisture in openings.
- Don't use cleaning products or compressed air.

The front of iPod touch is made of glass with a fingerprint-resistant oleophobic (oil-repellant) coating. This coating wears over time with normal usage. Cleaning products and abrasive materials will further diminish the coating and may scratch the glass.

**Using connectors, ports, and buttons** Never force a connector into a port or apply excessive pressure to a button, because this may cause damage that is not covered under the warranty. If the connector and port don't join with reasonable ease, they

probably don't match. Check for obstructions and make sure that the connector matches the port and that you have positioned the connector correctly in relation to the port.

**Lightning to USB Cable** Discoloration of the Lightning connector after regular use is normal. Dirt, debris, and exposure to moisture may cause discoloration. If your Lightning cable or connector become warm during use or iPod touch won't charge or sync, disconnect it from your computer or power adapter and clean the Lightning connector with a soft, dry, lint-free cloth. Do not use liquids or cleaning products when cleaning the Lightning connector.

Certain usage patterns can contribute to the fraying or breaking of cables. The Lightning to USB Cable, like any other metal wire or cable, is subject to becoming weak or brittle if repeatedly bent in the same spot. Aim for gentle curves instead of angles in the cable. Regularly inspect the cable and connector for any kinks, breaks, bends, or other damage. Should you find any such damage, discontinue use of the Lightning to USB Cable.

**Operating temperature** iPod touch is designed to work in ambient temperatures between 32° and 95° F (0° and 35° C) and stored in temperatures between -4° and 113° F (-20° and 45° C). iPod touch can be damaged and battery life shortened if stored or operated outside of these temperature ranges. Avoid exposing iPod touch to dramatic changes in temperature or humidity. When you're using iPod touch or charging the battery, it is normal for iPod touch to get warm.

If the interior temperature of iPod touch exceeds normal operating temperatures (for example, in a hot car or in direct sunlight for extended periods of time), you may experience the following as it attempts to regulate its temperature:

- iPod touch stops charging.
- The screen dims.
- A temperature warning screen appears.
- Some apps may close.

**Important:** You may not be able to use iPod touch while the temperature warning screen is displayed. If iPod touch can't regulate its internal temperature, it goes into deep sleep mode until it cools. Move iPod touch to a cooler location out of direct sunlight and wait a few minutes before trying to use iPod touch again.

See the Apple Support article [Keeping iPhone, iPad, and iPod touch within acceptable operating temperatures](#).

# Get information about your iPod touch

---

## View overall storage availability and storage used per app

Go to Settings  > General > iPod touch Storage.

See the Apple Support articles [How to check the storage on your iPhone, iPad, and iPod touch](#) and [Manage your iCloud storage](#).

---

## See battery usage

Go to Settings  > Battery to see the elapsed time since iPod touch has been charged. See [Charge and monitor the iPod touch battery](#).

---

## See more information about iPod touch

Go to Settings  > General > About. The items you can view include:

- Name
- iOS software version
- Model name
- Part and model numbers. To the right of Model, the part number appears. To see the model number, tap the part number.
- Serial number
- Number of songs, videos, photos, and apps
- Capacity and available storage space
- Wi-Fi and Bluetooth addresses
- Legal (including legal notices and license, warranty, and RF exposure information)

To copy the serial number and other identifiers, touch and hold the identifier until Copy appears.

To see regulatory marks, go to Settings > General > Regulatory.

---

## View or turn off diagnostic information

Go to Settings  > Privacy > Analytics.

To help Apple improve products and services, iPod touch sends diagnostic and usage data. This data doesn't personally identify you, but may include location information.

---

## Learn more about iPod touch software and service

Refer to the following resources to get more iPod touch-related safety, software, and service information.

To learn about	Do this
Using iPod touch safely	See <a href="#">Important safety information for iPod touch</a> .

# FCC compliance statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

*Note:* This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications to this product not authorized by Apple could void the electromagnetic compatibility (EMC) and wireless compliance and negate your authority to operate the product.

This product has demonstrated EMC compliance under conditions that included the use of compliant peripheral devices and shielded cables between system components. It is important that you use compliant peripheral devices and shielded cables between system components to reduce the possibility of causing interference to radios, televisions, and other electronic devices.

Responsible party (contact for FCC matters only):

Apple Inc.  
One Apple Park Way, MS 911-AHW  
Cupertino, CA 95014  
USA  
[www.apple.com/contact](http://www.apple.com/contact)

## ISED Canada compliance statement

This device complies with ISED Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Operation in the band 5150–5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems.

Le présent appareil est conforme aux CNR d'ISDE Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

La bande 5150–5250 MHz est réservée uniquement pour une utilisation à l'intérieur afin de réduire les risques de brouillage préjudiciable aux systèmes de satellites mobiles utilisant les mêmes canaux.

## Apple and the environment

At Apple, we recognize our responsibility to minimize the environmental impacts of our operations and products. See our [Environment website](#).

## Disposal and recycling information for iPod touch

### ***Apple Recycling Program (available in some regions)***

For free recycling of your old device, a prepaid shipping label, and instructions, see the [Trade in with Apple GiveBack website](#).

This symbol indicates that this product and/or battery should not be disposed of with household waste. You must dispose of iPod touch properly according to local laws and regulations. When iPod touch reaches its end of life, contact local authorities to learn about disposal and recycling options, or simply drop it off at your local Apple Retail Store or return it to Apple. The battery will be removed and recycled in an environmentally friendly manner. See the [Trade in with Apple GiveBack website](#). (In Australia, see the [Trade in with Apple GiveBack \(AU\) website](#).)

### ***European Union—Disposal Information***

The symbol above means that according to local laws and regulations your product and/or its battery shall be disposed of separately from household waste. When this product reaches its end of life, take it to a collection point designated by local authorities. The separate collection and recycling of your product and/or its battery at the time of disposal will help conserve natural resources and ensure that it is recycled in a manner that protects human health and the environment.

### ***Brasil – Informações sobre descarte e reciclagem***

O símbolo acima indica que este produto e/ou sua bateria não devem ser descartados no lixo doméstico. Quando decidir descartar este produto e/ou sua bateria, faça-o de acordo com as leis e diretrizes ambientais locais. Para informações sobre substâncias de uso restrito, o programa de reciclagem da Apple, pontos de coleta e telefone de informações, visite [www.apple.com/br/environment](http://www.apple.com/br/environment).

### ***Información sobre eliminación de residuos y reciclaje***

El símbolo de arriba indica que este producto y/o su batería no debe desecharse con los residuos domésticos. Cuando decida desechar este producto y/o su batería, hágalo de conformidad con las leyes y directrices ambientales locales. Para obtener información sobre el programa de reciclaje de Apple, puntos de recolección para reciclaje, sustancias restringidas y otras iniciativas ambientales, visite [www.apple.com/la/environment](http://www.apple.com/la/environment) o [www.apple.com/mx/environment](http://www.apple.com/mx/environment).

### ***Turkey environmental information***

Türkiye Cumhuriyeti: AEEE Yönetmeliğine Uygundur.

### ***Battery service***

The lithium-ion battery in iPod touch should be serviced by Apple or an authorized service provider, and must be recycled or disposed of separately from household waste. See the [Battery Service and Recycling website](#).

Dispose of batteries according to your local environmental laws and guidelines.

### ***China mainland battery statement***

警告：不要刺破或焚烧。该电池不含水银。

### ***Taiwan battery statement***

廢電池請回收

警告：請勿戳刺或焚燒。此電池不含汞。
