

Shared links and subscriptions

You can view links shared from social media, such as Twitter, and feeds you've subscribed to.

View shared links and subscriptions. Tap , then tap .

Subscribe to a feed. On a site that provides a subscription feed, tap , tap Add to Shared Links, then tap Add to Shared Links.

Delete a subscription. Tap , tap , tap Subscriptions below the list of your shared links, then tap  next to the subscription you want to delete.

Share links. Tap .

Tap to share with someone nearby using AirDrop.

Other sharing options

Fill in forms

Whether you're signing in to a website, signing up for a service, or making a purchase, you can fill in a web form using the onscreen keyboard or have Safari fill it in for you using AutoFill.

Tired of always having to sign in? When you're asked if you want to save the password for the site, tap Yes. The next time you visit, your user name and password are filled in for you.

Fill in a form. Tap any field to bring up the onscreen keyboard. Tap < or > above the keyboard to move from field to field.

Fill it in automatically. Go to Settings > Safari > AutoFill, then turn on Use Contact Info and Names and Passwords. When you're filling in the form, tap AutoFill Contact or AutoFill Password above the keyboard, then choose a contact. Not all websites support AutoFill.

Choose a different identity. If you use multiple identities with a site and an unwanted identity is filled in, tap Passwords above the keyboard, then select the identity you prefer.

Add a credit card for purchases. Go to Settings > Safari > AutoFill > Saved Credit Cards > Add Credit Card. To enter the information without typing, tap Use Camera, then position iPhone so that your card appears in the frame. Also, when you make an online purchase, you can allow Safari to save the credit card. See [iCloud Keychain](#).

Use your credit card information. Look for the AutoFill Credit Card button above the keyboard whenever you're in a credit card field. Enter your card's security code, which isn't stored. For greater security of your credit card information, [use a passcode](#) for iPhone.

Submit a form. Tap Go, Search, or the link on the webpage.

Use Reader for distraction-free reading

Use Safari Reader to view a page without ads, navigation, or other distracting items.

Focus on content. Tap  at the left end of the address field. If you don't see the icon, Reader isn't available for the page you're looking at.

Share just the good stuff. To share just the article text and a link to it, tap  while viewing the page in Reader.

Return to the full page. Tap  in the address field again.

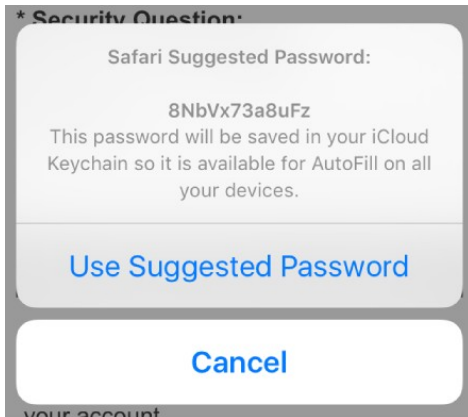

Privacy and security

Adjust Safari settings to keep your browsing activities to yourself and protect yourself from malicious websites.

Keep a low profile. Go to Settings > Safari, then turn on Do Not Track. Safari will ask websites you visit not to track your browsing, but beware—a website can choose not to honor the request.

Control cookies. Go to Settings > Safari > Block Cookies. To remove cookies already on iPhone, go to Settings > Safari > Clear History and Website Data.

Let Safari create and store secure passwords for you. When creating a new account, tap the password field, tap Suggest Password, then tap Use Suggested Password.

View your saved passwords. Go to Settings > Safari > Passwords, then enter your iPhone passcode or use Touch ID.

Erase your browsing history and data from iPhone. Go to Settings > Safari > Clear History and Website Data.

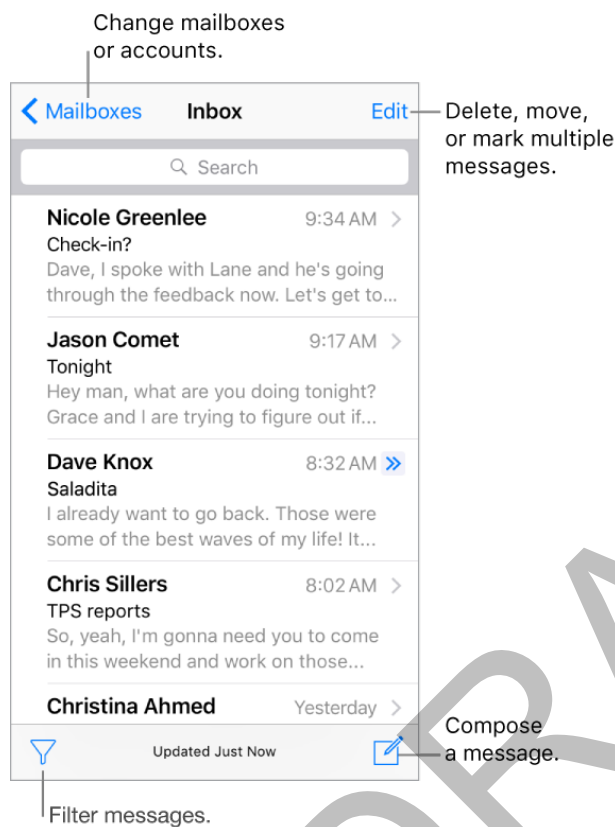

Visit sites without making history. Tap , then tap Private. Sites you visit won't be added to History on your iPhone or appear in the list of tabs on your other devices. To hide the pages and exit Private Browsing Mode, tap , then tap Private again. The pages will re-appear the next time you use Private Browsing Mode.

Watch for suspicious websites. Go to Settings > Safari, then turn on Fraudulent Website Warning.

Mail

Write messages

WARNING: For important information about avoiding distractions that could lead to dangerous situations, see [Important safety information](#).

Create a message. Tap . Touch and hold to view draft messages you've saved.

3D Touch. To create a new message from the Home screen, press Mail, then choose the New Message quick action. See [3D Touch](#).

Ask Siri. Say something like:

- “New email to Jonah Schmidt”
- “Email Simon and say I got the forms, thanks”

Add attachments. Double-tap in the message body, tap Add Attachment, then select files from iCloud Drive.

Insert a photo or video. Double-tap in the message body, then tap Insert Photo or Video.

Quote some text when you reply. Tap the insertion point, then select the text you want to include. Tap ↩, then tap Reply. You can turn off the indentation of the quoted text in Settings > Mail, Contacts, Calendars > Increase Quote Level.

Send a message from a different account. Tap the From field to choose an account.

Change a recipient from Cc to Bcc. After you enter recipients, you can drag them from one field to another or change their order.

Mark addresses outside certain domains. When you're addressing a message to a recipient that's not in your organization's domain, Mail can color the recipient's name red to alert you. Go to Settings > Mail > Mark Addresses, then define the domains that you don't want marked. You can enter multiple domains separated by commas, such as "apple.com, example.org."

Add additional mail accounts. Go to Settings > Mail > Accounts, then tap Add Account.

Change your mail signature. Go to Settings > Mail > Signature. If you have more than one mail account, you can set a different signature for each of them.

Automatically send a copy to yourself. Turn on Settings > Mail > Always Bcc Myself.

Preview your messages

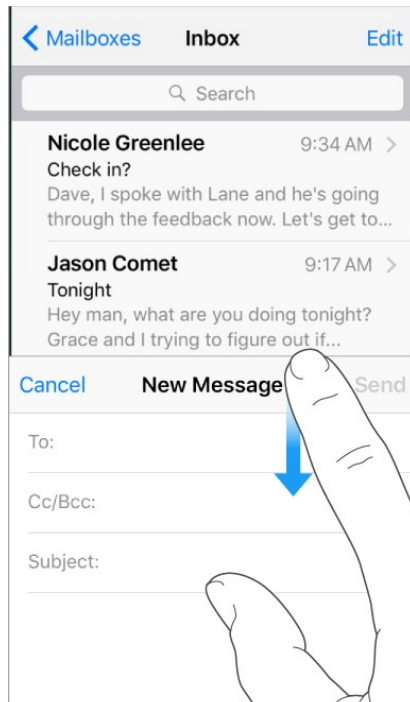

3D Touch. Press a message to peek at it, then swipe up, left, or right to use quick actions. Press a little deeper to pop the message open. See [3D Touch](#).

See a longer preview. Go to Settings > Mail, Contacts, Calendars > Preview. You can show up to five lines.

Is this message for me? Go to Settings > Mail, Contacts, Calendars, then turn on Show To/Cc Label. If the label says Cc instead of To, you were just copied. You can also use the To/Cc mailbox, which gathers all mail addressed to you. To show or hide it, tap Mailboxes, then tap Edit.

Finish a message later

Look at another message while you're writing one. Swipe down on the title bar of a message you're writing. When you're ready to return to your message, tap its title at the bottom of the screen. If you have more than one message waiting to be finished, tap the bottom of the screen to see them all.

Save a draft for later. If you're writing a message and want to finish it later, tap Cancel, then tap Save Draft. To get it back, touch and hold .

With OS X v10.10 or later, you can also hand off unfinished messages with your Mac. See [Continuity](#).

See important messages

Get notified of replies to a message or thread. While reading a message, tap , then tap Notify Me. While you're writing a message, tap  in the Subject field. To change how notifications appear, go to Settings > Notifications > Mail > Thread Notifications.

Gather important messages. Add important people to your VIP list, so all their messages appear in the VIP mailbox. Tap the sender's name in a message, then tap Add to VIP. To change how notifications appear, go to Settings > Notifications > Mail > VIP.

Ask Siri. Say something like: "Any new mail from Natalia today?"

Flag a message so you can find it later. Tap  while reading the message. To change the appearance of the flagged message indicator, go to Settings > Mail > Flag Style. To see the Flagged mailbox, tap Edit while viewing the Mailboxes list, then tap Flagged.

Search for a message. Scroll to or tap the top of the message list to reveal the search field. Searching looks at the address fields, the subject, and the message body. To search multiple accounts at once, search from a smart mailbox, such as All Sent.

Search by timeframe. Scroll to or tap the top of the messages list to reveal the search field, then type something like “February meeting” to find all messages from February with the word “meeting.”

Search by message state. To find all flagged, unread messages from people in your VIP list, type “flag unread vip.” You can also search for other message attributes, such as “attachment.”

Junk, be gone! Tap  while you’re reading a message, then tap Move to Junk to file it in the Junk folder. If you accidentally move a message, shake iPhone immediately to undo.

Make a mailbox a favorite. Favorite mailboxes appear at the top of the Mailboxes list so you can access them easily. To designate a mailbox as a favorite, tap Edit while viewing the Mailboxes list. Tap Add Mailbox, then select the mailboxes to add.

Show draft messages from all of your accounts. While viewing the Mailboxes list, tap Edit, tap Add Mailbox, then turn on the All Drafts mailbox.

Delete messages

View then delete a message. Tap a message to open it. To delete it, tap . To turn the confirmation of deletion on or off, go to Settings > Mail > Ask Before Deleting.

Delete a message with a swipe. While viewing a list of messages, swipe a message to the left to reveal a menu of actions, then tap Trash. Or, to delete a message in a single gesture, swipe it all the way to the left.

Delete multiple messages at once. While viewing a list of messages, tap Edit, select some messages, then tap Trash. If you change your mind, shake iPhone immediately to undo.

Recover a deleted message. Go to the account’s Trash mailbox, open the message, then tap  and move the message. Or, if you just deleted it, shake iPhone to undo. To see deleted messages across all your accounts, add the Trash mailbox. To add it, tap Edit in the mailboxes list, then select it in the list.

Archive instead of delete. Instead of deleting messages, you can archive them so they're still around, in the Archive mailbox, if you need them. To turn this option on, select Archive Mailbox in Settings > Mail > Accounts > [account name] > Advanced. Then, to delete a message instead of archiving it, touch and hold , then tap Delete.

Stash your trash. You can set how long deleted messages stay in the Trash mailbox. Go to Settings > Mail > Accounts > [account name] > Advanced > Remove. Some email services might override your selection; for example, iCloud doesn't keep deleted messages longer than 30 days, even if you select Never.

Attachments

Preview an attachment. Touch and hold an attachment, then tap Quick Look.

3D Touch. Press an attachment to preview it, press deeper to open it using Quick Look. See [3D Touch](#).

Save a photo or video to Photos. Touch and hold the photo or video, then tap Quick Look. Tap , then tap Save Image.

Mark up attachments. You can use Markup to annotate an image or PDF attachment. Touch and hold the attachment, then tap Markup (if it's an attachment you're sending) or "Markup and Reply" (if it's an attachment you've received).

Open an attachment with another app. Touch and hold the attachment until a menu appears, then tap the app you want to use to open the attachment. Some attachments automatically show a banner with buttons you can use to open other apps.

See messages with attachments. Tap  to turn on filtering, then tap “Filtered by” and turn on “Only Mail with Attachments.” You can also use the Attachments mailbox, which shows messages with attachments from all accounts. To add it, tap Edit while viewing the Mailboxes list.

Add an attachment. See [Write messages](#).

Send large attachments. Mail Drop lets you send files that exceed the maximum size allowed by your email account. Tap Send when you’re ready to send a message with large attachments, then follow the onscreen instructions to use Mail Drop.

Work with multiple messages

Move or mark multiple messages. While viewing a list of messages, tap Edit. Select some messages, then choose an action. If you change your mind, shake iPhone immediately to undo.

Manage a message with a swipe. While viewing a list of messages, swipe a message to the left to reveal a menu of actions. Swipe all the way to the left to select the first action. You can also swipe a message to the right to reveal another action. Choose the actions you want to appear in the menus at Settings > Mail > Swipe Options.

Organize your mail with mailboxes. Tap Edit in the mailboxes list to create a new one, or rename or delete one. (Some built-in mailboxes can’t be changed.) There are several smart mailboxes, such as Unread, that show messages from all your accounts. Tap the ones you want to use.

Group related messages together. Turn on Settings > Mail > Organize by Thread. Swipe left or right on a message in a thread to reveal actions. To threading options, go to Settings > Mail.

Filter messages. Tap  to hide messages that don’t match the current filter. Tap again to turn the filter off. To set up the filter, tap  to turn on filtering, then tap “Filtered by.” You can filter by read or flagged status, by messages addressed to you, messages from VIPs and other criteria.

See and save addresses

See who received a message. While viewing the message, tap More in the To field.

Add someone to Contacts or make them a VIP. Tap the person’s name or email address, then tap Add to VIP. You can also add the address to a new or existing contact.

Print messages

Print a message. Tap , then tap Print.

Print an attachment or picture. Tap to view it, tap , then choose Print.

See [AirPrint](#).

DRAFT

Music

Music at a glance

Use Music to enjoy music stored on iPhone as well as music streamed over the Internet, including Beats 1 radio, which broadcasts all day, every day from studios in Los Angeles, New York, and London. With an optional Apple Music membership, listen to millions of tracks, recommended by music experts.

Note: You need a Wi-Fi or cellular connection to stream music from Apple Music and Radio. In some cases an Apple ID is also required. Services and features are not available in all areas, and features may vary by area. Additional charges may apply when using a cellular connection.

WARNING: For important information about avoiding hearing loss, see [Important safety information](#).

Access music

Play music on iPhone in the following ways:

- *Become an Apple Music member:* With a membership and Wi-Fi or cellular connection, stream as much music as you like from the Apple Music catalog and download songs, albums, and playlists. See [Apple Music](#).
- *Listen to Beats 1:* Beats 1 radio is free to listen to live—no subscription required.
- *Purchase music from the iTunes Store:* Go to iTunes Store. See [iTunes Store at a glance](#).
- *iCloud Music Library:* Listen to your music on any of your devices. iCloud Music Library contains your imported music, purchased music, music you've added and downloaded from Apple Music, and music you've synced from iTunes on your computer. iCloud Music Library is available to Apple Music members and iTunes Match subscribers. Find this music in Library (see [Library](#)).
- *Family Sharing:* Purchase an Apple Music Family Membership and every family member you've added to your iCloud family can enjoy Apple Music. See [Family Sharing](#).
- *Sync music with iTunes on your computer:* See [Sync with iTunes](#).

Apple Music

Apple Music is a subscription music service. As an Apple Music member, you can play and download all the music you want. You get recommendations for playlists and albums based on the music you love. You can also explore dozens of curated ad-free stations and thousands of playlists for any genre or activity, created by music editors and expert curators with a passion for music.

Nonmembers can use the Apple Music app to listen to their own music stored on iPhone, play and download previous iTunes purchases, and listen live to Beats 1 radio shows for free.

Join Apple Music. You can join Apple Music when you first open Music, or later in Settings > Music > Join Apple Music.

Individual, student, or family memberships are available.

- *Individual membership:* Get access to the full Apple Music library, expert recommendations, and on-demand radio stations.
- *Family membership:* Up to six people can enjoy unlimited access to Apple Music on their devices.
- *Student membership:* Have complete access to Apple Music, with personalized recommendations, the best new music, and more at a price designed for students.

If you're a student at a qualifying school, you can join Apple Music for a discounted membership price for up to 48 months (4 years). The time needn't be continuous. Student memberships aren't available in all locations.

Note: If you end your Apple Music membership, you can no longer stream Apple Music tracks or play Apple Music tracks you've downloaded.

Show or hide Apple Music. Go to Settings > Music, then turn Show Apple Music on or off.

Use cellular data. Go to Settings > Music > Cellular Data, where you can choose to stream music and download music over a cellular connection. Turn on High Quality Streaming to always stream music at the highest quality.

Note: High Quality Streaming uses more cellular data, and songs may take longer to start playing.

Get personalized recommendations

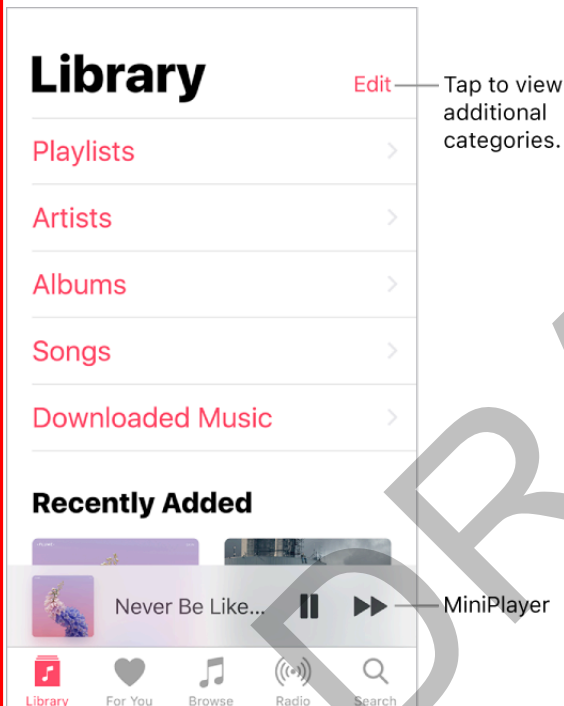

Apple Music can suggest songs you might enjoy, with a little guidance about your favorite kinds of music.

Select your favorite genres and artists. When you first tap For You, you're asked to tell Music about your preferences. Tap the genres you like. (Double-tap those you love, and touch and hold the genres you don't care for.) Tap Next, then do the same with the artist names that appear. Apple Music uses these preferences when recommending music to you.

Update genre and artist preferences. Tap , then tap Choose Artists For You.

Library

The Library tab includes any added or downloaded music from Apple Music, music and music videos synced to iPhone, iTunes purchases, and the music you make available through iTunes Match.

Browse and play your music. Tap a category, such as Playlists or Albums, touch and hold the album art, then tap ► to play. Tap the MiniPlayer to display the Now Playing screen.

3D Touch. Press the album art, then tap ► to play. See [3D Touch](#).

Sort albums and songs. Go to Settings > Music to sort albums or songs by artist or title.

View more categories. In the Library tab, tap Edit, then select additional categories.

View only music stored on iPhone. In the Library tab, tap Downloaded Music.

Play music shared on a nearby computer. If a computer on your network shares music through iTunes Home Sharing, tap the Library tab, tap Home Sharing, then choose a shared library.

Remove music from iCloud Music Library. Go to Settings > Music, then turn off iCloud Music Library to remove it from iPhone. (It remains in iCloud.) Music you purchased or synced, and music identified by iTunes Match that you downloaded remains.

Add Apple Music

Add music from Apple Music to your library. Do one of the following:

- Touch and hold a song, album, playlist, or video, then tap Add to Library.
 - 3D Touch.** Press the item, then choose Add to Library. See [3D Touch](#).
- When viewing the contents of an album or playlist, tap Add to add it, or tap + to add individual tracks.
 - 3D Touch.** Press the MiniPlayer, then choose Add to Library.
- On the Now Playing screen, tap +.

Music you add to iPhone is also added to other devices where you've signed in to iCloud using the same Apple ID.

Note: You must turn on Settings > Music > iCloud Music Library to add Apple Music to your library. Apple Music that you add to your library plays only when you have a Wi-Fi or cellular connection. To play music when you're not connected to the Internet, you must download it to iPhone. See [Download music](#).

Add music to a playlist. Touch and hold an album, playlist, track, or music video. Tap Add to a Playlist, then choose a playlist.

3D Touch. Press the album, playlist, track, or music video. Tap Add to a Playlist, then choose a playlist. See [3D Touch](#).

The first time you tap Add to Playlist, you can choose to automatically add songs to your library when you add them to a playlist. If you do this, the songs are also added automatically to your library on devices where you're signed in with the same Apple ID. Go to Settings > Music > Also Adds Songs to Library to turn this setting on or off.

Delete music from Library. Touch and hold the song, album, playlist, or music video, then tap Delete from Library.

3D Touch. Press the album or song, then tap Delete from Library. See [3D Touch](#).

Download music

Download music from Apple Music. After adding a track, album, or playlist (see [Add Apple Music](#)), tap .

Note: You must turn on Settings > Music > iCloud Music Library to add and download Apple Music to your library.

Always download Apple Music. Go to Settings > Music, then turn on Automatic Downloads.

Download iTunes Match music. If you have an iTunes Match subscription, your iTunes Match library is available in your library; you don't need to add it. To download it, tap Library, choose a category, select an album, playlist, or song, then tap .

See download progress. On the Library screen, tap Downloaded Music > Download.

Limit music storage. If iPhone is low on storage space, you can automatically remove downloaded music that you haven't played in a while. Go to Settings > Music > Optimize Storage, then choose a minimum amount of music storage.

Remove music stored on iPhone. Touch and hold the song, album, playlist, or music video. Tap Remove, then tap Remove Downloads. The item is removed from iPhone, but not from iCloud Music Library.

3D Touch. Press the song or album, then tap Remove. See [3D Touch](#).

To remove all songs or certain artists from iPhone, go to Settings > Music > Downloaded Music, tap Edit, then tap  next to All Songs or the artists whose music you want to delete.

Search for music

Search Apple Music. Tap Search, then tap a recent or trending search. To search for specific music, tap the search field, tap Apple Music, then enter a song, album, playlist, artist, compilation, or genre. Tap a result to play it.

Search your library. Tap Search, tap the search field, tap In Library, then enter a song, album, playlist, or artist. Tap a result to play it.

Play music

3D Touch. On the Home screen, press the Music icon, then choose a quick action. See [3D Touch](#).

Control playback. Tap a song to play it and show the MiniPlayer. Tap the MiniPlayer to show the Now Playing screen, where you can do the following:

- Tap ►► to skip to the next song.
- Tap ◀◀ to return to the song's beginning.
- Double-tap ◀◀ to play the previous song in an album or playlist.

Skip to any point in a song. Drag the playhead.

Share music. Tap ●●●, then tap Share Song.

Shuffle. Swipe up, then tap ⌘ to play your songs in random order. Tap again to turn off shuffle.

When viewing the contents of a playlist or album, tap Shuffle All.

Repeat. Swipe up, then tap ↺ to repeat an album or playlist. Double-tap ↺ to repeat a single song.

Add song to library. Tap +.

See lyrics. Swipe up to see the Lyrics entry, then tap Show. Tap Hide to hide them.

More. Tap ●●● for additional options.

See what's up next. Swipe up. Tap a song to play it and the songs that follow. Drag ≡ to reorder the list.

Get audio controls from the Lock screen or when using another app. Swipe up from the bottom edge of the screen to open Control Center, then swipe left. See [Control Center](#).

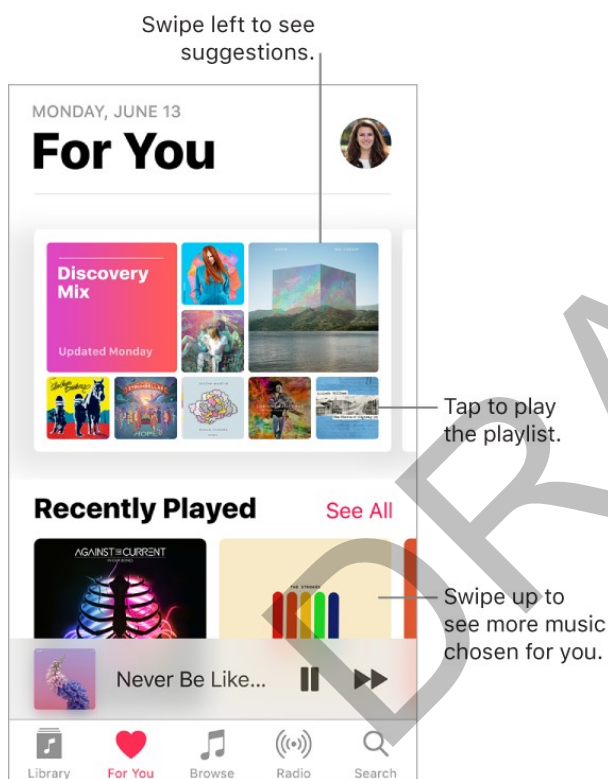

Stream music to a Bluetooth or AirPlay device. Tap  in Now Playing, then choose a device. See [Bluetooth devices](#) and [AirPlay](#).

Quickly navigate to the album. Tap the track, artist, or album name in Now Playing.

Hide Now Playing. Tap  at the top of Now Playing.

For You

Discover expertly selected playlists and albums based on your tastes.

Play music selected for your tastes. Tap For You, touch and hold an album or playlist, then tap  to play it. Tap an album or a playlist's album art to view its contents.

3D Touch. Press an album or playlist, then tap  to play it. See [3D Touch](#).

Tell Apple Music what you love. Touch and hold an album or playlist, then tap Love or Dislike. On the Now Playing screen or when viewing the contents of an album or playlist, tap , then tap Love or Dislike. Telling Music what you do and don't like improves future recommendations.

Reorder a playlist. Play the playlist, tap the MiniPlayer to show the Now Playing screen, swipe up to show Up Next, then drag  to rearrange the song order.

Do more with your music. Touch and hold an album or playlist to play it, add it to your library, add it to a playlist, share the album, love or dislike it, and more. Touch and hold an album to create a station based on its content.

3D Touch. Press an album or playlist to see options. See [3D Touch](#).

Playlists

Create playlists to organize your music. Tap Library, tap Playlists, then tap New Playlist. Enter a title and description, tap Add Music, then select music to add to the playlist.

You can also tap **•••** in a track list or in the Now Playing screen, tap Add to a Playlist, then tap New Playlist.

Customize your playlist's artwork. Tap Edit, tap , then take a photo or choose an image from your photo library.

Share a playlist. Touch and hold a playlist, then tap Share Playlist.

3D Touch. Press a playlist, then tap Share Playlist. See [3D Touch](#).

Create a public playlist. Select a playlist, tap Edit, then turn on Public Playlist.

Edit a playlist you created on iPhone. Select the playlist, then tap Edit.

- *Add more songs:* Tap a playlist, tap Edit, tap Add Music, then choose music from your library.
- *Delete a song:* Tap a playlist, tap Edit, tap , then tap Delete. Deleting a song from a playlist doesn't delete it from iPhone.
- *Change the song order:* Drag .

New and changed playlists are added to iCloud Music Library and appear on all your devices if you're an Apple Music member or iTunes Match subscriber. If you're not a member or subscriber, they're copied to your music library the next time you sync iPhone with your computer.

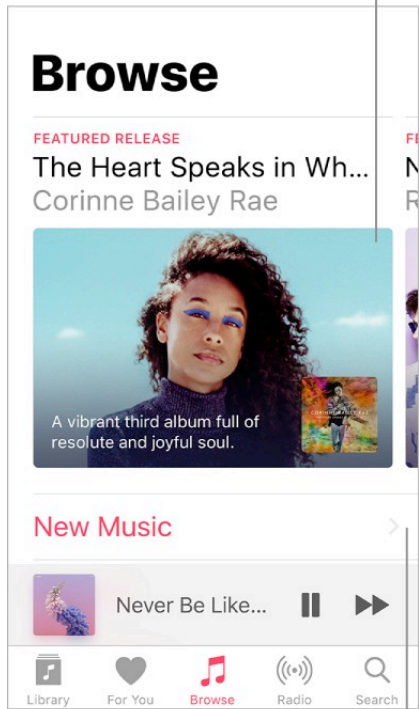

Delete a playlist you created on iPhone. Touch and hold the playlist, then tap Delete from Library.

3D Touch. Press a playlist, then tap Delete from Library. See [3D Touch](#).

Browse

Get recommendations for today's best music from music experts.

APPLE CONFIDENTIAL
Swipe left to see
featured music.

Swipe up to
explore new and
recommended
music.

Explore new music. Tap the Browse tab, then tap New Music

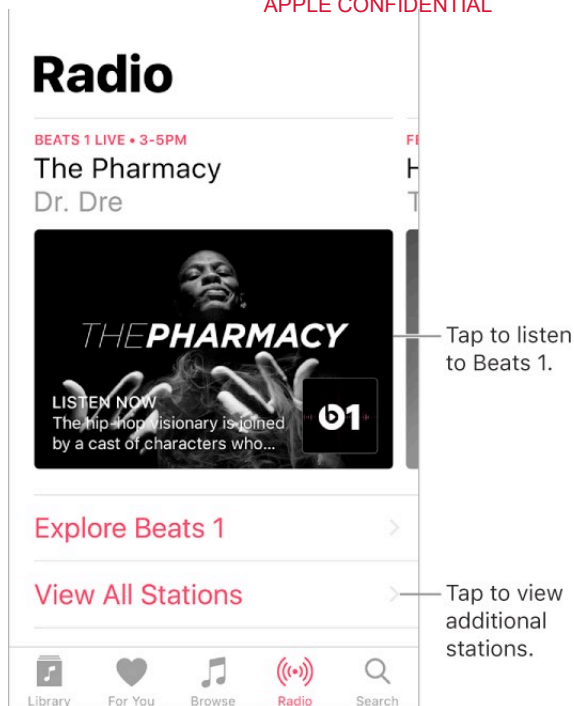

Browse expert recommendations. Tap Curated Playlists, then choose a playlist, activity or mood, curator, or genre.

See what's hot. Tap Top Charts, then choose a song, album, or music video.

Browse your favorite genres. Tap Genres, choose a genre, then tap a featured album, song, artist, playlist, or music video to enjoy music handpicked by music experts.

Radio

Radio offers the always-on Beats 1, featuring world-class radio programming, the latest music, and exclusive interviews with popular artists. You can listen to featured stations created by music experts in virtually every genre. And you can create custom stations from songs or artists of your choosing.

Listen to live radio. Tap the currently playing Beats 1 program.

Note: Because Beats 1 is live radio, you can't pause, rewind, or skip tracks.

Listen to past shows and find out when your favorite shows are on. Tap Explore Beats 1, then tap a show or DJ.

Listen to your favorite music genre. Tap View All Stations, then tap a genre or featured station. If you already listened to a station, tap a recently played station on the Radio screen.

Create a station. Touch and hold an artist or song, then tap Create Station.

3D Touch. Press an artist or song, then tap Create Station. See [3D Touch](#).

iTunes Match

With an iTunes Match subscription, all your music can be stored in iCloud—even songs you've imported from CDs. You can access your music from all your devices and listen to your entire library wherever you are. To learn more about iTunes Match, see the Apple Support article [Subscribe to iTunes Match](#).

Subscribe to iTunes Match. Go to Settings > Music > Subscribe to iTunes Match.

Turn on iTunes Match. Go to Settings > iTunes & App Store. Sign in if you haven't already. Go to Settings > Music, then turn on iCloud Music Library.

Siri and Voice Control

You can use Siri or Voice Control to control music playback. See [Make requests](#) and [Voice Control](#).

Siri can also help you find music in the iTunes Store. See “Find it with Siri” in [Browse or search](#).

Use Siri. Press and hold the Home button. In addition to the commands available through Voice Control, you can use Siri to do the following:

- *Play an album, artist, song, playlist, or radio station:* Say “play” followed by the name of the artist, album, song, playlist, or station that you want to play. If Siri doesn’t find what you asked for, be more specific. For example, say “play the radio station ‘Pure Pop’” rather than saying “play ‘Pure Pop.’”
- *Play music in random order:* Say “play (artist or album) shuffled.”
- *Play similar music:* While music is playing, say “play more songs like this one” or “create a radio station based on this song.”
- *Browse Apple Music:* You can play any Apple Music track by title (“play ‘Happy’ by Pharrell Williams”), by artist (“play Echosmith”), and by chart (“play the top song from March 1991”).
- *Choose music by mood:* Say something like “play something happy” or “play some upbeat music.”
- *Request music from a specific curator:* Say something like “play a Pitchfork playlist.”
- *Make personalized requests:* Say something like “be my DJ,” “play something that I would like,” “play recommended music,” “play a Taylor Swift album that I’d love,” “play my discover mix,” or “play my daily playlists.”
- *Ask for more information:* Ask something like “when was this album released,” “what is Taylor Swift’s most popular album,” “who sings ‘When Doves Cry,’” or “tell me about this album.”
- *Add music from Apple Music to your collection (Apple Music membership required):* Say, for example, “add ‘Lifted Up’ by Passion Pit to Library” or, while playing something, say “add this to my collection.”
- *Correct Siri:* If Siri doesn’t play what you expect to hear, say something like “no, the album,” “no, the one from my library,” or “no, the version by Frank Sinatra.”

Use Voice Control. Press and hold the Home button. Voice Control only works when Siri is disabled.

- *Play or pause music:* Say “play music.” To pause, say “pause,” “pause music,” or “stop.” You can also say “next song” or “previous song.”
- *Play an album, artist, or playlist:* Say “play album,” “play artist,” or “play playlist” followed by the name of the artist, album, or playlist you wish to play.
- *Find out more about the current song:* Say “what’s playing,” “who sings this song,” or “who is this song by.”

Sound Check, EQ, and volume limit settings

Turn Sound Check on or off. Go to Settings > Music > Sound Check. Sound Check normalizes the volume level of your audio.

Choose an equalization (EQ) setting. Go to Settings > Music > EQ. EQ settings generally apply only to music played from the Music app, but they affect all sound output, including the headset jack, AirPlay, and Bluetooth audio connections.

Set a volume limit. Go to Settings > Music > Volume Limit.

Note: To prevent changes to the volume limit, go to Settings > General > Restrictions > Volume Limit, then tap Don’t Allow Changes.

DRAFT

Messages

Messages at a glance

Use Messages to send and receive texts, photos, videos, and more through iMessage or SMS/MMS services. With the iMessage service, you can enhance your messages with bubble effects, invisible ink, full-screen effects, handwritten messages, Digital Touch, iMessage apps, stickers, and more.

WARNING: For important information about avoiding distractions while driving, see [Important safety information](#).

Set up iMessage and SMS/MMS

With the Messages app, you can exchange messages with other SMS and MMS devices using your cellular connection on iPhone, and with other iOS devices and Mac computers using iMessage.

iMessage is an Apple service that sends messages over Wi-Fi or cellular connections to other iOS devices (with iOS 5 or later) and Mac computers (with OS X v10.8 or later). These messages don't count against your messaging plan. Messages sent via iMessage can include photos, videos, and other info. You can see when other people are typing, and let them know when you've read their messages. For security, messages sent via iMessage are encrypted before they're sent.

iMessage texts appear in blue bubbles, and SMS/MMS texts appear in green bubbles. For more information about SMS/MMS and iMessage, see the Apple Support article [Use Messages with your iPhone, iPad, or iPod touch](#).

Sign in to iMessage. Go to Settings > Messages, then turn on iMessage.

If you're signed in to iMessage with the same Apple ID on all your devices, all the messages that you send and receive on iPhone can also appear on your other Apple devices. You can send a message from whichever device is closest to you. You can even start a conversation on one device and continue it on another with [Handoff](#).

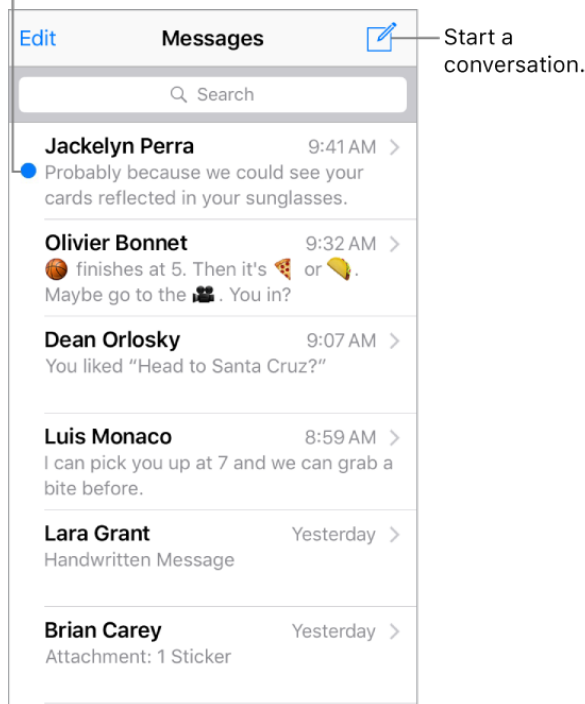

Sign in to iMessage on your other Apple devices.

- *iOS devices:* Go to Settings > Messages, then turn on iMessage.
- *Mac:* Open Messages, choose Messages > Preferences, click Accounts, then select iMessage in the Accounts list. Enter your Apple ID and password, then click Sign In.

With Continuity, all the SMS/MMS messages that you send and receive on iPhone can also appear on your other iOS devices and your Mac. For more information, see the Apple Support article [Use Continuity to connect your iPhone, iPad, iPod touch, and Mac](#).

Send and receive messages

A blue dot indicates unread messages.

Start a conversation. Tap . To specify a recipient, enter a phone number or email address, or tap and choose a contact. Tap the text field, then enter your message. Tap to send.

Alternatively, to start a conversation in Mail, Calendar, or Safari, touch and hold a phone number, then choose Send Message.

3D Touch. To start a conversation on the Home screen, press the Messages icon, then tap New Message. See [3D Touch](#).

Tip: To see what time a message was sent or received, drag a bubble to the left.

Note: An alert appears if a message can't be sent. Tap the alert to try sending the message again.

Send a message to a group. Tap , then enter multiple recipients.

To manage a group conversation, tap . You can name the conversation, add someone to the conversation, or leave the conversation.

Use emoji. When typing a message, tap or to switch to the Emoji keyboard. To automatically replace text with emoji, tap the highlighted words. See [Use international keyboards](#).

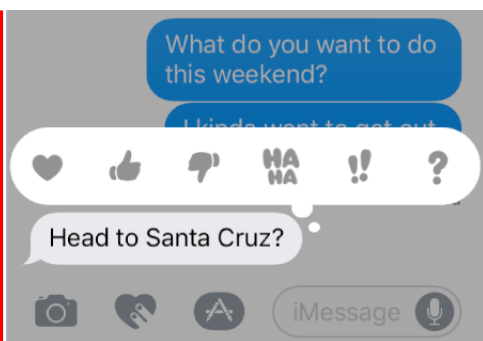

Resume a conversation. Tap the conversation in the Messages list.

3D Touch. To preview a conversation and quickly respond, press the conversation in the Messages list, then swipe up to choose a quick action. See [3D Touch](#).

Ask Siri. Say something like:

- “Send a message to Emily saying how about tomorrow”
- “Reply that’s great news”
- “Read my messages”
- “Read my last message from Bob”

Respond with a Tapback. To send a quick response that lets people know what you’re thinking, double tap a message, then choose your response.

View and manage conversation details. Tap ⓘ. On the details screen, you can:

- See a person’s contact info by tapping the monogram or photo.
- Perform quick actions such as making a phone call or FaceTime call.
- Send your current location or share your location for a specified length of time.
- Send read receipts.
- View images and attachments.

View the Messages list. Tap < or swipe from the left edge. On 2016 IPHONE PLUS, iPhone 6s Plus, and iPhone 6 Plus, you can see both the Messages list and the selected conversation in landscape orientation.

Search conversations. In the Messages list, swipe down to reveal the search field, then enter the text you’re looking for. You can also search conversations from the Home screen. See [Search](#).

Delete a conversation. In the Messages list, swipe the conversation to the left, then tap Delete.

Note: You can’t recover a deleted conversation.

Share photos, videos, and audio

With iMessage or MMS, you can send messages with photos, videos, and audio. Your carrier determines the size limit of attachments; iPhone may compress photo and video attachments when necessary.

Send a photo or video. Tap , and:

- *Quickly take a photo from within Messages:* Frame the shot in the viewfinder, then tap .
- *Choose a recent photo or video:* Swipe left to browse through recent shots.
- *Take a photo or video using Camera:* Swipe right, then tap Camera.
- *Choose a photo or video from your Photo Library:* Swipe right, then tap Photo Library.

Then, tap  to send or  to cancel.

Note: To save space, iPhone automatically deletes video messages two minutes after you view them, unless you tap Keep. To always keep them, go to Settings > Messages > Expire (below Video Messages), then tap Never.

Find and share trending photos and videos from the web. See [iMessage apps](#).

Send an audio message. Touch and hold  to record an audio message, then lift your finger to stop recording. Tap  to listen to your message before you send it, tap  to send or  to cancel.

Note: To save space, iPhone automatically deletes audio messages two minutes after you listen to them, unless you tap Keep. To always keep them, go to Settings > Messages > Expire (below Audio Messages), then tap Never.

Raise iPhone to listen or reply to an audio message. Raise iPhone to your ear to play incoming audio messages; raise it again to reply. To turn this feature on or off, go to Settings > Messages (below Audio Messages).

Forward a message or attachment. Touch and hold a message or attachment, tap More, select additional items if desired, then tap ↗.

Share, save, or print an attachment. Tap the attachment, then tap 📎.

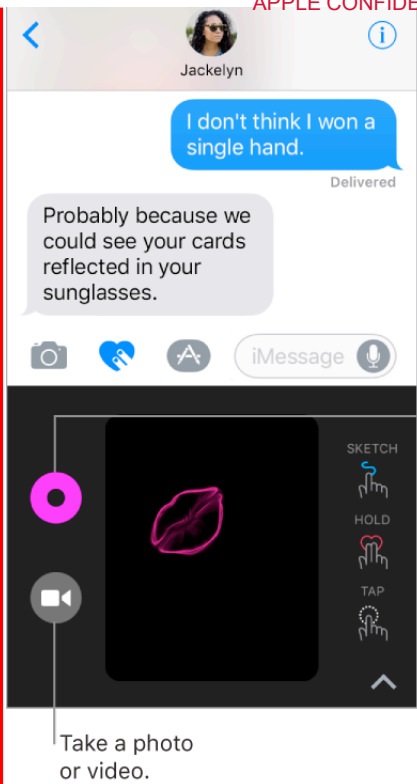

Copy an attachment. Touch and hold the attachment, then tap Copy.

Share items from another app. In the other app, tap Share or 📎, then tap Message.

Delete a message or attachment. Touch and hold a message or attachment, tap More, select additional items if desired, then tap 🗑️.

Digital Touch

With iMessage, you can use Digital Touch to send sketches, taps, kisses, your heartbeat, and more. You can even add a Digital Touch effect to a photo or video.

Sketch with different colors.

Show more Digital Touch gestures.

Take a photo or video.

Send a sketch. Tap to open the drawing canvas, then draw with your finger. You can change the color, then start drawing again. The sketch is sent automatically when you stop drawing.

Sketch with different colors.

Expand the drawing canvas.

Express your feelings. Tap , then use gestures on the canvas to send a Digital Touch effect. Your feelings are sent automatically when you finish the gesture:

- *Burst of color:* Tap one finger on the canvas. You can change the color, then tap again.
- *Fireball:* Touch and hold one finger on the canvas.
- *Kiss:* Tap two fingers on the canvas.

- **Beating heart:** Touch and hold two fingers on the canvas.
- **Broken heart:** Touch and hold two fingers on the canvas until you see a beating heart, then drag your fingers down to break the heart.

Add a Digital Touch effect to a photo or video. Tap , and tap . Tap  to take a photo or  to record a video. Then add a Digital Touch effect, such as a sketch or kiss, to the photo or video. Tap  to send.

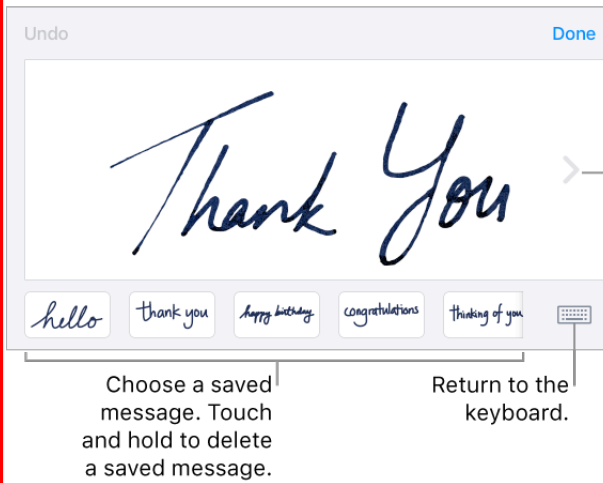

Note: To save space, iPhone automatically deletes Digital Touch messages two minutes after you view them, unless you tap Keep. To always keep them, go to Settings > Messages > Expire (below Video Messages), then tap Never.

Handwritten messages

With iMessage, you can send a handwritten message. The recipient sees the message animate, just as ink flows on paper.

Create and send a handwritten message. In landscape orientation, tap the text field, then tap . Write a new message with your finger, or choose a saved message at the bottom. Tap Done, then tap  to send or  to cancel.

Scroll to the right for
a longer message.

Send a saved message. After you create and send a handwritten message, the message is saved at the bottom of the handwriting screen. Tap a saved message to send it again.

iMessage apps

With iMessage apps, you can decorate a conversation with stickers, schedule dinner and a movie, send payments, share a song, and more—all without leaving Messages. Expand your options by downloading more iMessage apps from the App Store.

Open the app drawer.

Browse iMessage apps.

Add an iMessage app. Tap , tap , then tap Store.

Use an iMessage app. Tap , and swipe left or right to browse. Tap an app to add it to the conversation. Add a comment if you want, then tap  to send or  to cancel.

Decorate with stickers. Tap  to open the app drawer. Swipe left or right to navigate to a stickers app. Touch and hold a sticker, and drag it anywhere in the conversation. You can place it on top of a message bubble, dress up a photo, or even put it on another sticker.

Manage iMessage apps. Tap , tap , tap Store, then tap Manage. You can:

- Automatically add iMessage apps to the app drawer.
- Turn iMessage apps on or off.

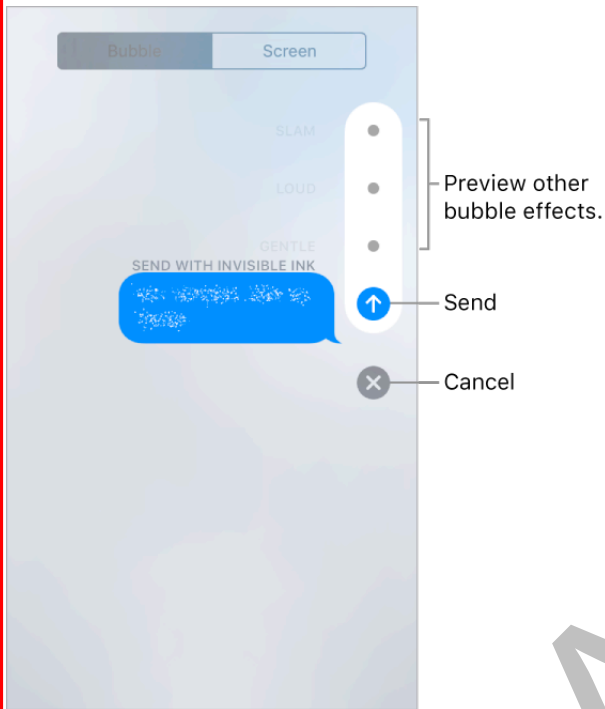

Remove an iMessage app. Tap , tap , touch and hold an app until you see the app icons jiggle, then tap  at the top-left corner. To finish, press the Home button.

Animate messages

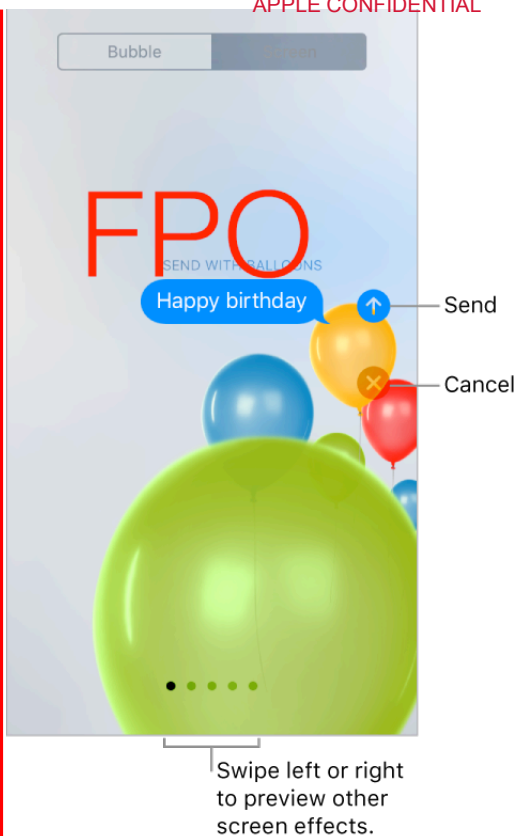

With iMessage, you can animate a single message with a bubble effect or fill the entire message screen with a full-screen effect. You can even send a personal message with invisible ink.

Use a bubble effect. After you type a message, press (touch and hold on devices without 3D Touch) . Tap the choices to preview different bubble effects. Tap  to send.

Tip: Want to send a personal message? When you use invisible ink, the message remains blurred until the recipient swipes to reveal it.

Use a full-screen effect. After you type a message, press (touch and hold on devices without 3D Touch) , then tap Screen. Swipe left or right to preview different screen effects. Tap  to send.

iMessage automatically includes the following screen effects for specific text strings:

- Balloons for “Happy birthday”
- Confetti for “Congratulations”
- Fireworks for “Happy New Year”

Manage message notifications and privacy

Manage notifications for messages. Go to Settings > Notifications > Messages. See [Notifications](#).

Set the alert sound for messages. Go to Settings > Sounds > Text Tone. See [Sounds and silence](#)

Set a distinctive alert sound for certain people. In the Contacts app, tap a contact, tap Edit, then tap Text Tone.

Mute notifications for a conversation. While viewing the conversation, tap ⓘ, then turn on Do Not Disturb.

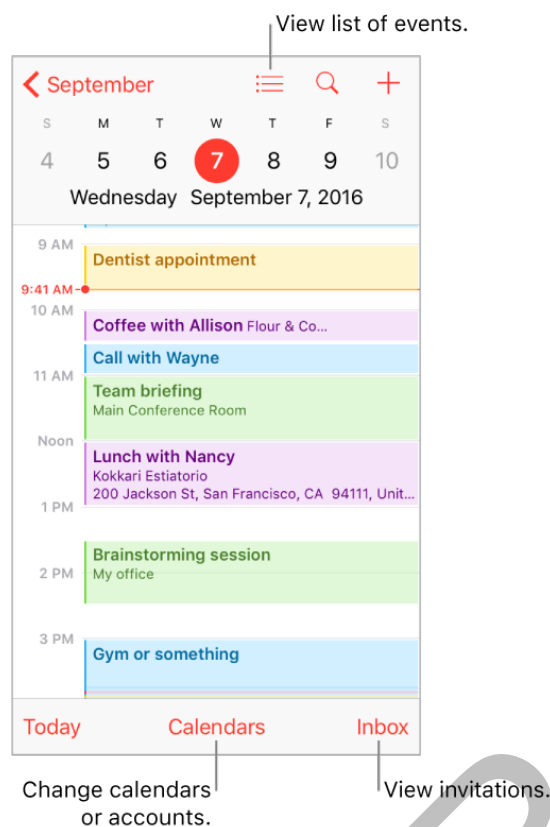

Block unwanted messages. To block messages, voice calls, and FaceTime calls from certain people, go to Settings > Messages > Blocked. For more information, see the Apple Support article [Block phone numbers and contacts or filter messages on your iPhone, iPad or iPod touch](#).

Filter unknown senders. Go to Settings > Messages, then turn on Filter Unknown Senders. This turns off iMessage notifications from people who aren't in your contacts and sorts them into a separate Messages list. When you view a message from an unknown sender, tap Report Junk (below the message) to delete it and send it to Apple.

DRAFT

Calendar

Calendar at a glance

Ask Siri. Say something like:

- “Set up a meeting with Barry at 9.”
- | “Do I have a meeting at 10?”
- | “Where is my 3:30 meeting?”

Add an event. In day view, touch and hold a time until a new event appears, then fill in the event details. If you add the address of the event’s location, you’re reminded in time to leave from your current location, based on traffic conditions.

Add an event from the Home screen. Press Calendar, then choose the New Event quick action. See [3D Touch](#).

Search for events. Tap , then enter text in the search field. The titles, invitees, locations, and notes for the calendars you’re viewing are searched.

Ask Siri. Say something like: “What’s on my calendar for Friday?”

View a weekly calendar. Rotate iPhone sideways.

Change your view. Tap a year, month, or day to zoom in or out on your calendar. In week or day view, pinch to zoom in or out.

Peek at a day’s events. In the monthly calendar, press a date to peek at that day’s schedule. Then press deeper to pop open the schedule.

View a list of events. In month view, tap  to see a day’s events.

Change the color of a calendar. Tap Calendars, tap  next to the calendar, then choose a color from the list. For some calendar accounts, such as Google, the color is set by the server.

Adjust an event. Touch and hold the event, then drag it to a new time, or adjust the grab points.

Ask Siri. Say something like: “Reschedule my appointment with Barry to next Monday at 9 a.m.”

Set a default calendar. Go to Settings > Calendar > Default Calendar. When you add an event using Siri or using other apps, it’s added to your default calendar.

Fine-tune Calendar. Go to Settings > Calendar where you can set which day of the week calendar starts with, display week numbers, use Hebrew dates, override the automatic time zone, and more.

Invitations

With iCloud, Microsoft Exchange, and some CalDAV servers you can send and receive meeting invitations. (Not all calendar servers support every feature.)

Invite others to an event. You can invite people to an event, even if you’re not the one who scheduled it, with Exchange and some other servers. Tap an event, tap Edit, then tap Invitees. Type names, or tap  to pick people from Contacts. If you don’t want to be notified when someone declines a meeting, go to Settings > Calendar, then turn off Show Invitee Declines.

RSVP. Tap an event you’ve been invited to, or tap Inbox and tap an invitation. If you add comments (which may not be available for all calendars), your comments can be seen by the organizer but not by other attendees. To see events you declined, tap Calendars, then turn on Show Declined Events.

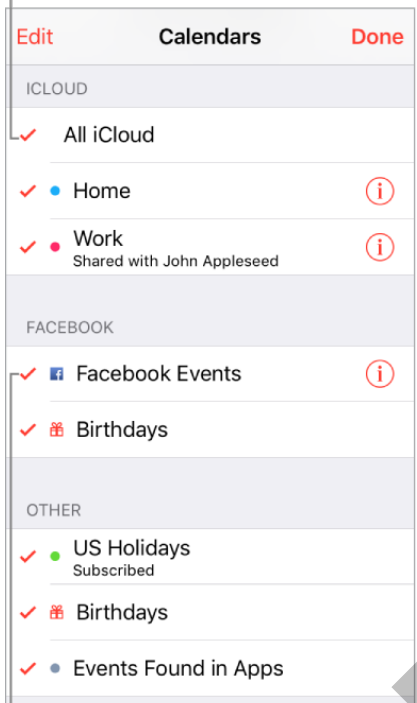

Schedule an event without blocking your schedule. Tap the event, tap Availability, then tap “free.” Or if it’s an event you created, tap “Show As,” then tap “free.” The event stays on your calendar, but the timeframe doesn’t appear as busy to others who send you invitations.

Quickly send an email to attendees. Tap the event, tap Invitees, then tap .

Suggest a different meeting time. You can suggest a different time for a meeting invitation you've received. Tap the meeting, then tap Propose New Time. Depending on the capabilities of your calendar server, the organizer will receive either a counter-proposal or an email with your suggestion.

Use multiple calendars

Select which calendars to view.

Turn on Facebook Events in Settings > Facebook.

See multiple calendars at once. Tap Calendars, then select the calendars you want to view.

Turn on iCloud, Google, Exchange, or Yahoo! calendars. Go to Settings > Calendar, tap Accounts, then turn a calendar on or off.

Subscribe to a calendar. Go to Settings > Calendar > Account > Add Account > Other, then tap Add Subscribed Calendar. Enter the server and filename of the .ics file to subscribe to. You can also subscribe to an iCalendar (.ics) calendar published on the web, by tapping a link to the calendar.

Add a CalDAV account. Go to Settings > Calendar > Account > Add Account > Other, then tap Add CalDAV account.

Add an OS X Server account. Go to Settings > Calendar > Account > Add Account > Other, then tap Add OS X Server Account.

View the Birthdays calendar. Tap Calendars, then tap Birthdays to include birthdays from Contacts with your events. If you set up a Facebook account in Settings, you can also include your Facebook friends' birthdays.

View the Holidays calendar. Tap Calendars, then tap Holidays to include national holidays with your events.

View events sent to you in Mail or other apps. Tap Calendars, then tap Events Found in Apps.

Change how Calendar notifies you. Go to Settings > Notifications > Calendar. You can change notification styles for invitations, events found in apps, upcoming events, and more.

Move an event to another calendar. Tap the event, tap Edit, tap Calendars, then select a calendar to move it to.

Share iCloud calendars

With Family Sharing, a calendar shared with all the members of your family is created automatically. See [Family Sharing](#). You can also share an iCloud calendar with other iCloud users so they can view, add and change events. You can also share a read-only version that anyone can view.

Create an iCloud calendar. Tap Calendars, tap Edit, then tap Add Calendar in the iCloud section.

Share an iCloud calendar. Tap Calendars, tap Edit, then tap the iCloud calendar you want to share. Tap Add Person, then enter a name, or tap ⊕ to browse your Contacts. Those you invite receive an email invitation to join the calendar.

Change a person's access to a shared calendar. Tap Calendars, tap Edit, tap the shared calendar, then tap the person. You can turn off their ability to edit the calendar, resend the invitation to join the calendar, or stop sharing the calendar with that person.

Turn off notifications for shared calendars. When someone modifies a shared calendar, you're notified of the change. To turn off notifications for shared calendars, go to Settings > Notifications > Calendar > Shared Calendar Changes.

Share a read-only calendar with anyone. Tap Calendars, tap Edit, then tap the iCloud calendar you want to share. Turn on Public Calendar, then tap Share Link to copy or send the URL for your calendar. Anyone can use the URL to subscribe to the calendar using a compatible app, such as Calendar for macOS.

Photos

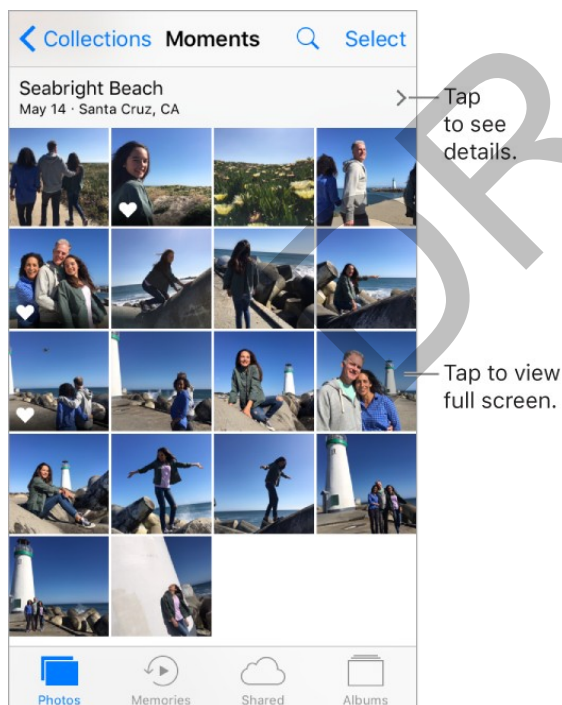

Photos at a glance

With the Photos app you can view, organize, share, and edit photos and videos:

- Taken with Camera on iPhone
- Stored in iCloud (see [iCloud Photo Library](#))
- Shared from others (see [iCloud Photo Sharing](#))
- Synced from your computer (see [Sync with iTunes](#))
- Saved from an email, text message, webpage, or screenshot
- Imported from your camera

You can also have Photos create quick movies from the photos and videos in your library (see [Memories](#)).

Memories isn't available on iPhone 5.

The Photos app includes Photos, Memories, Shared, and Albums.

- Tap Photos to see all your still photos, Live Photos, and videos, organized by Years, Collections, and Moments. To quickly browse the photos in a collection or year, touch and hold a thumbnail, then drag.

- Tap Memories to view photos and videos based on related dates, places, people, and more. See [Memories](#).
- Tap Shared to see photos and videos you shared with others or that others shared with you. See [iCloud Photo Sharing](#).
- Tap Albums to see how photos and videos are organized by albums. See [Organize photos and videos](#).

View photos and videos

Browse your photos and videos. Tap Photos, then tap a photo. While viewing a photo, swipe the thumbnails to browse through photos. Tap a thumbnail to view a photo. Drag the photo down to continue browsing Moments or Albums.

Note: By default, Photos displays a representative subset of your photos when you view by year or by collection in the Photos tab. To see all your photos and videos, go to Settings > Photos & Camera, then turn off Summarize Photos.

Swipe to browse through your photos.

Tap to show editing tools.

3D Touch. Press the thumbnail in a collection or album to peek at a photo or video. Swipe up to see a list of quick actions, or press a little deeper to pop open the photo or video to full screen. See [3D Touch](#).

Play a Live Photo. If you take a Live Photo on iPhone 6s, iPhone 6s Plus, iPhone SE, and later, or if you receive a Live Photo via iMessage, iCloud Photo Sharing, or AirDrop, you can bring it to life on your iPhone (iOS 9 or later required). Press (touch and hold on

devices without 3D Touch) the Live Photos in full screen. See [3D Touch](#).

If someone shares a Live Photo with you via email, you receive it as a 12 MP still image. (A Live Photo, which can be taken on some models of iPhone and iPad, captures the moments just before and after a picture is taken.)

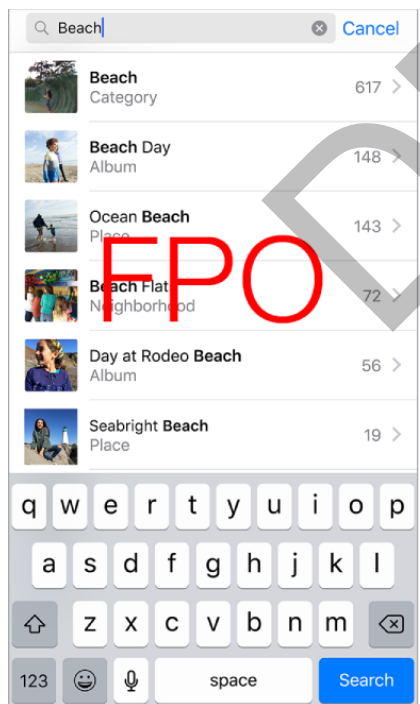

Note: On devices that support 3D Touch, you can also use a Live Photo as the wallpaper on the Lock screen. See [Change the wallpaper](#).

Make a still photo from a Live Photo. View the Live Photo, tap , tap , then tap Duplicate as Still Photo.

View photo and video details. Tap a photo or video, then tap Details, or swipe up. Details shows:

- Related memories. See [Memories](#).
- People identified by Photos. See [People](#).
- If available, the location where the photo or video was taken and a link to photos and videos taken nearby. See [Places](#).

Search photos. From Photos, Memories, or Albums, tap  to search by date (month and year), place (city and state), category (beach or sunset, for example), or person (Addie or Jules, for example).

Ask Siri. Say something like:

- “Show me photos from July”

- “Show me photos of California”
- “Show me photos from my Vacation album”
- “Show me photos of the beach”
- “Show me photos of Alex”

Zoom in or out. Double-tap or pinch a photo. Drag to see other parts of the photo.

Play a video. Tap ►. To toggle between full screen and fit-to-screen, double-tap the screen.

Play a slideshow. While viewing a photo or video, tap ⏮, then tap Slideshow. To stop the slideshow, tap the screen, then tap Options if you want to specify a slideshow theme, music, and more.

To stream a slideshow or video to a TV, see [AirPlay](#).

Organize photos and videos

The Albums tab includes albums you create yourself and albums that are created for you, depending on how you use Photos. For example, photos you take with the FaceTime camera are automatically added to the Selfies album. Other albums that Photos creates include People, Places, Videos, Panoramas, Slo-mo, Bursts, and Screenshots.

If you use iCloud Photo Library, all your photos in iCloud are in the All Photos album (see [iCloud Photo Library](#)). Otherwise, you see the Camera Roll album, which includes photos and videos you took with iPhone and from other sources.

If you use iCloud Photo Library, albums are stored in iCloud and are up to date and accessible on any iOS 8.1 or later device, Mac with OS X v10.10.3 or later, and on [iCloud.com](#) using the same Apple ID. See [iCloud Photo Library](#).

Create a new album. Tap Albums, tap +, enter a name, then tap Save. Select photos and videos, then tap Done.

Add items to an existing album. While viewing thumbnails, tap Select, select items, tap Add To, then select the album.

Manage albums. While viewing your album list, tap Edit.

- *Rename an album:* Tap the album name, then enter a new name.
- *Rearrange albums:* Touch to enlarge the album’s thumbnail, then drag it to another location.

- *Delete an album:* Tap .

Note: You can't delete albums that Photos creates for you, such as People, Places, and Selfies.

Mark your favorites. While viewing a photo or video, tap  to add it to the Favorites album. A photo or video can be part of another album as well as Favorites.

Hide photos or videos you want to keep but not show. While viewing thumbnails, tap Select, then select the photos or videos you want to hide. Tap , then tap Hide. The photos or videos are moved to the Hidden album.

Photos and videos are hidden from Moments, Collections, Years, and Memories, but are still visible in Albums.

Delete a photo or video from Photos. Tap Photos, tap the photo or video, tap , then tap Delete Photo or Delete Video. Deleted photos and videos are kept in the Recently Deleted album on iPhone, with a badge showing the remaining days until the item is permanently removed from iPhone. To delete the photo or video permanently before the days expire, tap the item, tap Delete, then tap Delete Photo or Delete Video. If you use iCloud Photo Library, deleted photos and videos are permanently removed from all your devices using iCloud Photo Library with the same Apple ID.

Recover a deleted photo or video. In the Recently Deleted album, tap the photo or video, tap Recover, then tap Recover Photo or Recover Video to move the item to the Camera Roll or, if you use iCloud Photo Library, to the All Photos album.

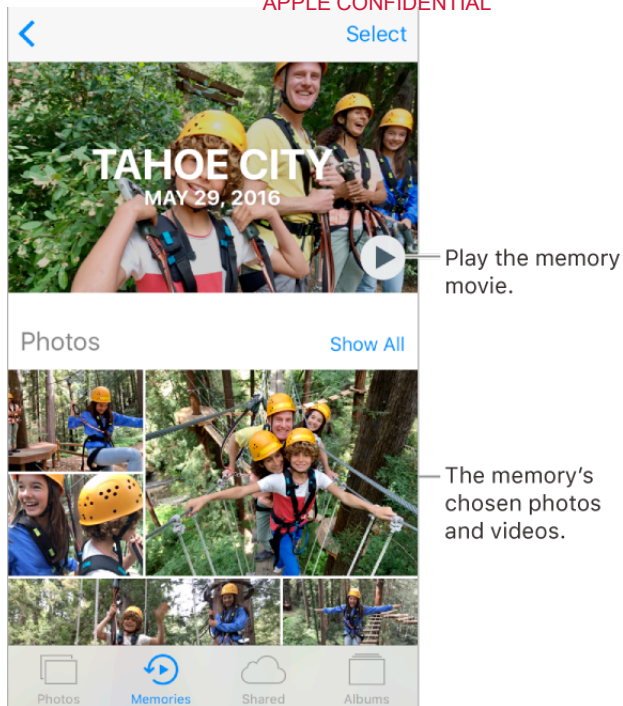

To recover multiple photos and videos, tap the Recently Deleted album, tap Select, tap the photos and videos you want to recover, then tap Recover.

Remove a photo or video from an album. Tap the photo or video, then tap . You can choose to remove it from the album or delete it from your iCloud Photo Library on all your devices.

Memories

Photos scans your library to create collections of photos and videos called “memories.” Memories also include memory movies—automatically created movies set to music that you can keep and share. Memories can focus on:

- Locations, such as a favorite vacation spot or your neighborhood
- Special events, such as birthdays and holidays
- Scenes, such as the beach or forest
- Pictures of family members and friends

Play the memory movie.

The memory's chosen photos and videos.

Play a memory movie. Tap Memories, tap a memory, then tap ▶. To pause, tap the memory movie, then tap ||.

Scrub through a memory movie. Tap a memory movie while it's playing to show the controls, then swipe left or right through the scrubber.

3D Touch. To open recent memories from the Home screen, press Photos, then tap a memory. See [3D Touch](#).

Photos automatically creates memory movies from your photos and movies, but you can make a memory movie from albums you create.

Note: Memories aren't created from albums that contain fewer than 10 items.

View an album's memory. Tap an album you created, then tap >. To add it to Memories, swipe up, then tap Add to Memories.

Save a memory to the Favorite Memories album. Tap Memories, tap a memory, swipe up, then tap Add to Favorite Memories.

Create memories from holiday events. Go to Settings > Photos & Camera, then turn on Show Holiday Events.
