Your deal may be no big deal.

Package Content

ARCHOS 97b Platinum

QSG booklet

Warranty,
legal & safety booklet

USB cable

Charger

Getting Started

Charging

1. Connect the supplied power cable to the ARCHOS and to a wall outlet. The ARCHOS device will start charging.
2. Press the Power button to turn on the device.

- You can use your ARCHOS whilst it charges.
- Let your device charge completely the first time you use it.
- Use only the supplied charger.

When your device is completely discharged, you need to charge it for at least 10 minutes before the charging battery icon can be displayed.

TIPS:

To receive more complete service, please register your product.
From a computer, go to www.archos.com/register.

Description of the device

- ① ON/OFF button
- ② Volume buttons
- ③ Webcam
- ④ Micro-USB port
- ⑤ Headphone jack
- ⑥ Micro-SD card slot
- ⑦ Mini-HDMI video output*
- ⑧ Power connector
- ⑨ Microphone
- ⑩ Charging indicator
- ⑪ Reset button
- ⑫ Loudspeakers
- ⑬ Camera

* With optional Micro-HDMI to HDMI cable.

Through the Wizard

The first time you start up your ARCHOS, the installation wizard will help you set up your device:

- Language
- Date & time
- WiFi connection
- Location service options
- 3rd party apps

TIPS:

We recommend that you set up your device in the WiFi zone of the network that you will regularly be using.

Connectivity to a WiFi Network

CAUTION: Make sure that you are in a WiFi zone.

① Touch and hold the time & battery icons to reveal the status bar. A blue line is displayed.

② Pull the blue line down to display the status dashboard.

③ Touch "WiFi off" in the status dashboard. The WiFi page will be displayed.

④ Slide the WiFi switch to "ON" position.

⑤ The ARCHOS will scan for WiFi networks in range. Touch the name of network you want to connect to.

The screenshot shows a dark-themed dialog box for connecting to a WiFi network. At the top, the network name 'ARCHOS-Office' is displayed in light blue. Below this, the signal strength is 'Good' and the security type is 'WEP'. A password field contains ten dots, with a 'Show password' checkbox below it. At the bottom, there are 'Cancel' and 'Connect' buttons.

Private networks are shown with a lock icon and will require you to enter your password.

TIPS:

- When entering a WiFi password, we recommend that you select "Show password" so you can see the characters you are typing. To get the correct WiFi password (or settings) for the network, contact the WiFi network provider. If your WiFi is on and you are in range of a network that you previously connected to, your ARCHOS will automatically attempt to connect to it.
- To keep your WiFi connection ON when the device is on sleep, select the Menu icon in the "WiFi" page. Then, select Advanced > Keep WiFi on during sleep > Always.

The Android™ Interface

-
- ① **Android™ apps shortcuts**
> Touch to start an application.
 - ② **Permanent Android™ apps shortcuts**
> Touch to start an application
 - ③ **Back button**
 - ④ **Home button**
 - ⑤ **Recent apps buttons**
 - ⑥ **All Apps button**
> Touch this icon to show all the applications and widgets installed on your ARCHOS. All your downloaded applications are here.
 - ⑦ **Google™ Search**
> Touch "Google" for text search or touch the microphone icon for voice search.
 - ⑧ **The status bar**
> Displays notifications and quick settings

The Android™ Interface

3:18 The Quick settings

- 1 Current user⁽¹⁾
- 2 To adjust the screen brightness.
- 3 To access all your settings.
- 4 To turn on/off your WiFi connection.
- 5 To activate/deactivate automatic screen orientation as you turn your ARCHOS.
- 6 Percentage of battery remaining
- 7 To activate/deactivate all wireless connections, especially when flying.

⁽¹⁾New multi-user support for tablets lets different users have their own separate, customizable spaces on a single device. Add users in Settings > Device.

The Recent Apps

Opens a list of thumbnail images of apps you've worked with recently:

Touch: to open an app.

Hold down: to display options

Swipe up or down: to close an app.

Getting familiar with Android™

The extended home screen:

Navigate between different home screen panels by swiping left and right.

Moving a home screen item:

Touch and hold your finger onto it until the positioning gridlines appear, then slide it to the desired location, and release your finger.

Removing a home screen item:

Touch and hold it, slide your finger towards the top of the screen and drop it over the Remove icon.

Uninstalling an item:

From the All apps screens, touch and hold it, slide your finger towards the top of the screen and drop it over Uninstall bin.

Creating application folders:

Drop one app icon over another on a home screen and the two icons will be combined.

Widgets:

Touch the All Apps icon on your home screen. Touch Widgets at the top of the screen. From the main Widgets screen, you can move around widgets just as you do for app icons.

Changing your wallpaper:

Hold your finger on a home screen at an empty location, then choose from the list.

Locking the touchscreen:

In Settings, scroll down and touch security. Touch Screen lock. Touch the type of lock you would like to use. After you set a lock, a lock screen is displayed whenever your screen wakes up, requesting the pattern, PIN or other specified key.

Troubleshooting

If your device is frozen:

Press the ON/OFF button for 10 seconds or use the Hardware reset. To use the Hardware reset, press the "pinhole reset" button by using a sharp object such as a toothpick.

If your device doesn't turn on:

1. Charge your device for at least 10 minutes.
2. Press the ON/OFF button for 10 seconds or use the Hardware reset. To use the Hardware reset, press the "pinhole reset" button by using a sharp object such as a toothpick.

If you want to extent the life of your battery:

Decrease the screen brightness and turn off the wireless connections if not in use.

If your device functioning is too slow:

Close all apps which are not currently used. Use the System Monitor app.

If your WiFi reception is too low:

Make sure you are not far from the WiFi hotspot.

Update the firmware of the device: <http://www.archos.com/support>.

Reset and redefine your connection parameters.

Contact your WiFi connection provider.

If you want to restore your product (forgotten password? erase all your settings?) :

While holding Volume+, press the ON/OFF button to turn on the device.

The Android system recovery is displayed.

Use the Volume buttons to scroll and the ON/OFF button to validate.

Select "Wipe data/factory reset" and validate.

Select "Yes -- delete all user data" and validate.

Select "Reboot system now" and validate.

National restrictions

This device is intended for home and office use in all EU countries (and other countries following the EU directive 1999/5/EC) without any limitation except for the countries mentioned below:

Country	Restriction	Reason/remark
Bulgaria	None	General authorization required for outdoor use and public service
France	Outdoor use limited to 10 mW e.i.r.p. within the band 2454-2483.5 MHz	Military Radiolocation use. Refarming of the 2.4 GHz band has been ongoing in recent years to allow current relaxed regulation. Full implementation planned 2012
Italy	None	If used outside of own premises, general authorization is required.
Luxembourg	None	General authorization required for network and service supply (not for spectrum)
Norway	Implemented	This subsection does not apply for the geographical area within a radius of 20 km from the centre of Ny-Alesund
Russian Federation	None	Only for indoor applications

Note: Frequency 2454-2483.5MHz are restricted to indoor use in France.
