**Warning message for FCC:**  
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

**Warning message for IC:**  
This device complies with Industry Canada's Bureau-approved RSS. Operation is subject to the following two conditions:  
(1) This device may not cause interference.  
(2) This device must accept any interference that the user receives from a particular radio station.

**IC RF exposure statement:**  
This transmitter must not be located or operated in conjunction with any other antenna or transmitter. This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body. For additional information on this equipment's RF exposure, please refer to the user manual.
