Français

Bien que ce produit ait été conçu pour assurer une utilisation en toute sécurité, nous ne sommes pas responsables en cas de dommage ou de blessures causés par une utilisation respectueuse tous les avertissements et mises en garde lorsque vous utilisez le produit.

■ Consignes de sécurité

Mises en garde concernant le produit

• N'utilisez pas le produit à proximité d'un équipement médical. Les ondes radio peuvent affecter les stimulateurs cardiaques et les appareils électroniques médicaux.
• Utilisez pas le produit dans un établissement hospitalier.
• Si vous utilisez le produit dans un avion, conformez-vous aux instructions de la compagnie aérienne.

• N'utilisez pas le produit à proximité d'appareils à commande automatique, comme des portes automatiques ou des alarmes incendie. Les ondes radio peuvent affecter les appareils électroniques et provoquer des accidents suite à un dysfonctionnement.
• Ne démontez pas, ne modifiez pas et n'évasez pas de rigazer le produit pour éviter tout risque d'électruction, de dysfonctionnement ou d'incendie.

• Ne soumettez pas le produit à un choc violent pour éviter tout risque d'électruction, de dysfonctionnement ou d'incendie.
• Ne manipulez pas le produit avec les mains mouillées pour éviter tout risque d'électruction ou de blessures.
• Déconnectez le produit s'il commence à présenter des dysfonctionnements, à émettre de la fumée, une odeur, de la chaleur, des bruits indésirables ou à présenter d'autres signes de dommage. Le cas échéant, prenez contact avec votre revendeur local Audio-Technica.
• Ne mouillez pas le produit pour éviter tout risque d'électruction ou de dysfonctionnement.

• N'introduisez pas de corps étrangers comme des matériaux combustibles, du métal ou un liquide dans le produit.
• Ne recouvrez pas le produit avec un chiffon car cela entraînerait un incendie ou la fuite de batterie suite à une surcharge.
• Respectez les étiquettes en vigueur concernant l'utilisation de téléphones mobiles et casques si vous utilisez le casque en conduisant.
• N'utilisez pas le produit dans une zone où l'interdiction a été imposée de se tenir debout près d'un appareil à haute puissance, tels que les tours de téléphonie mobile, une gare ferroviaire et des chantiers).
• Évitez la charge, veuillez éviter de faire le câble de recharge USB fourni.
• Ne rechargez pas avec des appareils ayant une fonction de charge rapide avec une tension de 5 V ou plus). Le produit requiert alors de ne pas fonctionner correctement.
• Pour éviter d'endommager votre oreille, n'augmentez pas trop le volume. L'écoute prolongée de sons forts provoque une perte auditive temporaire ou permanente.
• Cassez d'utiliser le produit en cas d'iritation cutanée découlant d'un contact répété avec celui-ci.
• Évitez la charge, veuillez éviter de toucher d'autres parties du corps entre la coupe et le bras ou à l'intérieur des articulations.

Mises en garde relative à la batterie rechargeable
Le produit est doté d'une batterie rechargeable (batterie Lithium-Polymère (LiPo)).
• La liqvide de batterie est une substance inflammable et peut s'enflammer spontanément à l'eau claire, l'eau du robinet par exemple, et consommer immédiatement un médicin.
• En cas de fuite de liqvide de batterie, ne la touchez pas les mains nues. Si la liqvide est restée à l'intérieur du produit, cela peut provoquer un dysfonctionnement. En cas de fuite de liqvide de batterie, prenez contact avec votre revendeur local Audio-Technica.

– Si la liqvide pénètre dans votre bouche, rincez-vous abondamment à l'eau avec l'eau claire, l'eau du robinet par exemple, et consultez immédiatement un médecin.
– Si la liqvide entre en contact avec votre peau, rincez-vous abondamment à l'eau claire, l'eau du robinet par exemple, et consultez immédiatement un médecin.
– Si la liqvide entre en contact avec vos yeux, rincez-vous abondamment à l'eau claire, l'eau du robinet par exemple, et consultez immédiatement un médecin.
– En cas de fuite de liqvide de batterie, contactez votre revendeur local Audio-Technica pour savoir comment éliminer correctement la batterie.

RF Exposure Statement
This product does not lie certified or operated in conjunction with any other antenna or transmitter used in other systems. This device complies with FCC radio frequency (RF) Exposure Guidelines. This equipment has very low levels of RF energy that is deemed to comply without testing of specific absorption rate (SAR).
For customers in Canada
IC Statement
CAN ICES-3(B)/NMB-3(B)
This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference, including interference that may cause undesired operation of the device.
For customers in Europe
This product complies with the European Union's Radio Equipment Directive (RED) (2014/53/EU) and complies with the specific absorption rate (SAR) limits set forth for an uncontrolled environment.
■ Notes on use
• Be sure to read the connected device's user manual before use.
• Audio-Technica will not be liable in any way for any loss of data in the unlikely event that such losses should occur while using the product.
• Do not use the product in or on other public places, keep the volume low so as not to disturb other people.
• Minimize the volume on your device before connecting the product.
• When using the product in a dry environment, you may feel a tingling sensation in your ears. This is caused by static electricity accumulated on your body, not by product malfunction.
• Do not subject the product to strong impact.
• Do not store the product in direct sunlight, near heating devices, in hot or humid, or dusty places. Additionally, do not allow the product to get wet.
• When the product is used for a long time, the product may become discolored due to ultraviolet light (especially direct sunlight) and wear.
• Make sure to hold the plug when connecting and disconnecting the USB charging cable. The USB charging cable may become severed or an accident may occur if you pull on the cable itself.
• When you are not using the USB charging cable, disconnect it from the product. If the product is placed in a bag while the USB charging cable is still connected, the USB charging cable may become caught, severed, or broken.
• This product can be used to talk on the phone only when using a mobile telephone network. Support for Bluetooth® is not available when using the mobile telephone network.
• If you use the product near an electronic device or transmitter such as a mobile phone, unwanted noise may be heard. In this case, move the product away from the electronic device or transmitter.
• If you use the product near a TV or radio antenna, noise may be seen or heard from the television or radio signal. In this case, move the product away from the TV or radio antenna.
• To protect the built-in rechargeable battery, charge it at least once every two months. If too much time passes between charges, the life of the rechargeable battery may be reduced, or the rechargeable battery may no longer be able to be charged.
• The volume of the product differs depending on if the noise-cancelling function is on or off.

■ About the active noise-cancelling function
The product is designed to use its built-in microphone to pick up noise from the surrounding environment (noise from vehicles, noise from air conditioners, etc.) and then the product is designed to cancel out that noise in the opposite phase, resulting in a reduction in the sounds in your environment.
• The product's noise-cancelling function mainly reduces noises of 300 Hz or lower.
• Because of this, it has almost no effect on noises above that frequency (pregnant, speaking voices, etc.).
• Not all sounds are cancelled.
• Depending on the type of noise (or in quiet locations), you may not notice the noise-cancelling effect.
• There is a "summing" sound when you turn on the noise-cancelling function. This is the sound of the noise-cancelling function operating. It is not a malfunction.
• The noise-cancelling effect may vary, or take (howling) may occur depending on how you wear the product. In these cases, blow off the product and put it on again.

■ About the active noise-cancelling function
The product is designed to use its built-in microphone to pick up noise from the surrounding environment (noise from vehicles, noise from air conditioners, etc.) and then the product is designed to cancel out that noise in the opposite phase, resulting in a reduction in the sounds in your environment.

• Ne soumettez pas le produit à un impact fort.
• Ne laissez pas le produit exposé à l'ensablement direct, près d'appareils à gaz ou près d'un feu ou dans un endroit chaud, humide ou poussiéreux. Ne laissez pas non plus le casque exposé aux liquides et aux autres produits.
• Si vous utilisez le produit, ne portez pas de lunettes de contact et ne portez pas de lunettes ultravioletes (particulièrement sans un ensablement direct) et de l'usage.
• Veillez à tenir le câble par la prise lorsque vous connectez ou déconnectez le câble de recharge USB. Le câble de recharge USB peut se couper ou un accident peut se produire si vous tuez sur le câble lui-même.
• Si vous n'utilisez pas le câble de recharge USB, déconnectez le produit.
• Si vous utilisez pas le câble de recharge USB, déconnectez le produit.
• Si vous placez le produit dans un sac avec le câble de chargement USB est encore connecté, le câble de chargement USB peut se casser, être coupé ou cassé.

• Si vous n'utilisez pas le câble de recharge USB, déconnectez le produit.
• Si vous placez le produit dans un sac avec le câble de chargement USB est encore connecté, le câble de chargement USB peut se casser, être coupé ou cassé.
• Ce produit peut être utilisé pour parler au téléphone uniquement si vous utilisez un réseau de téléphone mobile. Le prix et en charge d'applications de téléphone uniquement un réseau de données mobiles n'est pas garanti.
• Si vous utilisez le produit près d'un appareil électronique ou si vous utilisez un réseau de téléphone mobile, il se peut que vous entendez du bruit indésirable. Dans ce cas, éloignez le produit de l'appareil électronique ou de l'émetteur.
• Si vous utilisez le produit près d'un appareil électronique ou si vous utilisez un réseau de téléphone mobile, il se peut que vous entendez du bruit indésirable. Dans ce cas, éloignez le produit de l'appareil électronique ou de l'émetteur.
• Si vous utilisez le produit près d'une antenne de télévision ou radio, du bruit peut être vu ou entendu dans le signal de la télévision ou de la radio. Dans ce cas, éloignez le produit de l'antenne de télévision ou radio.
• Pour protéger la batterie rechargeable intégrée, chargez-la au moins une fois tous les 6 mois. Si l'écoule trop de temps entre les recharges, la durée de vie de la batterie rechargeable peut être réduite, ou la batterie rechargeable risque de ne plus avoir été rechargée.

• Le volume du produit diffère selon si la fonction de suppression du bruit est activée ou désactivée.
• Récitez les étiquettes de l'emballage en néou ou stellen Sie sich an einem anderen Ort auf.
– Erhöhen Sie den Abstand zwischen dem Gerät und dem Empfänger.
– Schließen Sie das Gerät und den Empfänger an getrennte Stromnetze an.
– Wenden Sie sich an den Händler oder einen erfahrenen Radio- und Fernsehtechniker für weitere Empfehlungen.

■ À propos de la fonction active de suppression du bruit
Le produit est conçu pour utiliser son microphone intégré pour capter le bruit du milieu environnant (bruit des véhicules, bruit des climatiseurs, etc.) et supprimer ce bruit en produisant des ondes en phase opposée. Il est conçu pour réduire le bruit de 300 Hz ou moins. De ce fait, il n'y a presque aucun effet sur les bruits au-dessus de cette fréquence (sonneries, voix, etc.).
• En fonction de ce type de bruit (ou dans des déplacements canalisés), vous ne constaterez peut-être pas l'effet de suppression de bruit.
• Il se peut que vous entendiez un sonnement ou un bourdonnement lorsque vous activez la fonction de suppression du bruit. C'est le son de la fonction de suppression du bruit fonctionnant; ce n'est pas un dysfonctionnement.
• L'effet de suppression de bruit peut varier ou un sifflement (effet Larsen) peut se produire en fonction de la façon dont vous portez le produit. Dans ces cas, éloignez le produit et mettez-le de côté temporairement.

• Utilisez le produit dans un endroit où il n'y a pas de champ magnétique fort, tel qu'un camion, du bruit peut se faire entendre en fonction de l'état des rails ou de la route.
• Ne soumettez pas le produit à un choc violent pour éviter tout risque d'électruction, de dysfonctionnement ou d'incendie.
• Ne manipulez pas le produit avec les mains mouillées pour éviter tout risque d'électruction ou de blessures.
• Déconnectez le produit s'il commence à présenter des dysfonctionnements, à émettre de la fumée, une odeur, de la chaleur, des bruits indésirables ou à présenter d'autres signes de dommage. Le cas échéant, prenez contact avec votre revendeur local Audio-Technica.

• N'introduisez pas de corps étrangers comme des matériaux combustibles, du métal ou un liquide dans le produit.
• Ne recouvrez pas le produit avec un chiffon car cela entraînerait un incendie ou la fuite de batterie suite à une surcharge.
• Respectez les étiquettes en vigueur concernant l'utilisation de téléphones mobiles et casques si vous utilisez le casque en conduisant.

• Do not store the product in direct sunlight, near heating devices, in hot or humid, or dusty places. Additionally, do not allow the product to get wet.
• When the product is used for a long time, the product may become discolored due to ultraviolet light (especially direct sunlight) and wear.
• Make sure to hold the plug when connecting and disconnecting the USB charging cable. The USB charging cable may become severed or an accident may occur if you pull on the cable itself.
• When you are not using the USB charging cable, disconnect it from the product. If the product is placed in a bag while the USB charging cable is still connected, the USB charging cable may become caught, severed, or broken.
• This product can be used to talk on the phone only when using a mobile telephone network. Support for Bluetooth® is not available when using the mobile telephone network.
• If you use the product near an electronic device or transmitter such as a mobile phone, unwanted noise may be heard. In this case, move the product away from the electronic device or transmitter.
• If you use the product near a TV or radio antenna, noise may be seen or heard from the television or radio signal. In this case, move the product away from the TV or radio antenna.
• To protect the built-in rechargeable battery, charge it at least once every two months. If too much time passes between charges, the life of the rechargeable battery may be reduced, or the rechargeable battery may no longer be able to be charged.
• The volume of the product differs depending on if the noise-cancelling function is on or off.

■ About the active noise-cancelling function
The product is designed to use its built-in microphone to pick up noise from the surrounding environment (noise from vehicles, noise from air conditioners, etc.) and then the product is designed to cancel out that noise in the opposite phase, resulting in a reduction in the sounds in your environment.
• The product's noise-cancelling function mainly reduces noises of 300 Hz or lower.
• Because of this, it has almost no effect on noises above that frequency (pregnant, speaking voices, etc.).
• Not all sounds are cancelled.
• Depending on the type of noise (or in quiet locations), you may not notice the noise-cancelling effect.
• There is a "summing" sound when you turn on the noise-cancelling function. This is the sound of the noise-cancelling function operating. It is not a malfunction.
• The noise-cancelling effect may vary, or take (howling) may occur depending on how you wear the product. In these cases, blow off the product and put it on again.
