Hi, Thank you for purchasing the AUKEY® Magentic Case Headset. Please read the user manual carefully and keep it in a safe place for future reference. If you have any questions, please contact our support team with your product model number and Amazon order number.

Getting Started
Press the Right Fit Headset button. Come with 3 interchangeable tips (S/M/L, Medium, Large). Finding the best fit for your ears will improve comfort, sound quality, and prevent instability.
Charging
Please fully charge your Magentic Case Headset before using them for the first time. The LED indicator lights up and will last about 15 seconds. If you're in a hurry, you can connect the included Micro-USB cable to a USB power source and then to the Micro-USB port on the headset.

Power On/Off
Press the Power/Multifunction button for 3 seconds, or until the LED indicator light flashes red every 5 seconds. If you successfully paired device, to connect after pairing function, please press the Power/Multifunction button for 3 seconds. The headset will enter pairing mode. To power off, press and hold the multifunction button for 10 seconds until the LED indicator flashes red 5 times and turns off.

Simultaneously Pairing with Two Devices
1. Press the multifunction button for 3 seconds until the headset with Device 1.
2. Press the multifunction button for 3 seconds until the headset with Device 2.
3. Press and hold the multifunction button for 10 seconds until the LED indicator turns blue.

Streaming Audio
Once paired, you can wirelessly stream audio from your pairing function device to your headset. Press and hold the multifunction button for 3 seconds until the LED indicator turns blue. You can now make & receive calls while using the two paired devices.

FAQ / Trouble Shooting
The headset is on, but not connecting to my device.
Please make sure the headset is fully charged. You will need to try pairing from a different device.
I have established a connection with my smartphone, but I'm not hearing any audio.
Please make sure the volume level on your smartphone and the headset. Some smartphones require you to setup the headset as an audio output device before audio can be transmitted. If you are using a music player or other device, please make sure it supports the AAC audio format.

Can I use the headset while my car is charging?
No.
What is the wireless range of this headset?
Maximum range is 300 feet. Actual range will depend on signal and environmental factors.
My headset is not working.
By charging them for 30 min if you plug them in to charge and the red LED indicator lights up, you are going to pair them. The headset will do not power on, please contact our support team if the address below.

Merci d'avoir acheté AUKEY® EP-B21 Oreillette sans fil. Veuillez lire attentivement le mode d'emploi et le garder dans un endroit sûr pour la future référence. Si vous avez des questions, veuillez nous contacter en contactant support@aukey.com avec votre numéro de commande et votre numéro de commande Amazon.

Avant d'utiliser
Appuyez sur le bouton Multifonction/Ouvverture. Il est livré avec 3 embouts interchangeables (S/M/L, Medium, Large). Trouver le meilleur ajustement pour vos oreilles améliorera le confort, la qualité du son et évitera l'instabilité.

Allumer / Éteindre le Casque
Appuyez sur le bouton multifonction pendant 3 secondes, ou jusqu'à ce que l'indicateur LED clignote rouge toutes les 5 secondes. Si vous avez réussi à vous connecter à un appareil, pour connecter après la fonction de mise en pairage, veuillez appuyer sur le bouton multifonction pendant 10 secondes jusqu'à ce que l'indicateur LED clignote rouge 5 fois et s'éteigne.

Remarques
1. Veuillez lire attentivement le mode d'emploi avant d'utiliser le casque.
2. Le casque est livré avec des embouts interchangeables (S/M/L, Medium, Large). Trouver le meilleur ajustement pour vos oreilles améliorera le confort, la qualité du son et évitera l'instabilité.

Diffusion de Musique
Une fois connecté, vous pouvez streamer de la musique sans fil de votre appareil de diffusion vers votre casque. Appuyez sur le bouton multifonction pendant 3 secondes jusqu'à ce que l'indicateur LED clignote bleu. Vous pouvez maintenant faire et recevoir des appels tout en utilisant les deux appareils connectés.

FAQ / Dépannage
Le casque est allumé, mais il ne se connecte pas à mon appareil?
Veuillez vous assurer que le casque est complètement chargé. Essayez de vous connecter à un autre appareil.
J'ai établi une connexion avec mon smartphone, mais je n'entends rien?
Veuillez vérifier le niveau de volume sur votre smartphone et sur le casque. Certains smartphones nécessitent de configurer le casque en tant qu'appareil de sortie audio avant que l'audio puisse être transmis.
