

Smart bracelet
MRASW-WP112

1. Device Requirements

- Android 4.4 and above iOS 8.4 and above
- Bluetooth 4.0

*Some functions are not compatible to rare type of phone.

2. Before Use

Please fully charged the smart bracelet for the first time use because it is in low power and can't be powered on (Please refer to the "6. Charging guide"). Just pull off the band and connect the charger clip, then plug the USB connector to power bank, PC or wall charger to start charging. It takes about 2 hours for a full charge. While charging, the bracelet screen will show the flow of the battery bar, and stop after charging finished.

3. Pairing

The smart band need to connect with smart phone for normal use. Please make sure your smart phone meet the device requirements, and then download the mobile APP by scanning the QR code.

Download:
For Android users: Please go to Android application store, or "Application of treasure" or "Google play", search for "Wearfit2.0", click to download and install, or by scanning the QR code as below.

For iOS users: Please go to App store and search for "Wearfit 2.0", then click to download and install, or by scanning the QR code as below.

Android & iOS APP Download

Setting tips:

Android users: Settings-Accessibility-Wearfit2.0-Allows all functions/Allows background operation.

Settings - Applications - Wearfit 2.0 - allows all functions.

iOS users: Settings - Wearfit 2.0 - Allows all features.

APP language depends on your phone language

Binding:

After download the APP, then open the Bluetooth on your phone and the Wearfit 2.0 APP, click the "binding band", select "Band 4" in the Bluetooth list, click binding, Bluetooth pairing. Then back to the APP to set your personal information.

Operation formula:

short click to switch, long press to enter.
short click to start, long press to exit.

5. FAQ

1. Can not search the smart bracelet or can not be connected after binding?

Make sure your phone Bluetooth is open and near the smart bracelet, restart the bracelet APP and turn off the phone Bluetooth for about 30 seconds and then restart it, then try to search and connect. Please make sure your mobile phone system meet the above device requirements (Note: Bluetooth connecting device should keep in a small number or none, and some Android smart phones may need to open the GPS positioning to search the smart bracelet.)

2. Time is not accurate on the bracelet?

When the smart bracelet is power off and you recharge it, which will appear time error, you just connect your smart phone with the smart bracelet and the bracelet will automatically calibrate the time.

6. Charging guide

1. Prepare your bracelet.

2. Pull down the bracelet from the touching button side.

3. Pull out the USB charging interface.

4. Charge the bracelet with power bank, phone adapter or PC USB port.

5. Insert the USB charging interface.

6. Pull up the bracelet.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
o Reorient or relocate the receiving antenna.
o Increase the separation between the equipment and receiver.
o Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
o Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
