#22426 Avaya EHS5 User Guide
Works with the following Avaya Phones:
Avaya 9600 series – 9610iP, 9620iP, 9630iP, 9640iP, 9650iP

Interface:

- *Hook signaling:* On hook and Off hook signaling can be handled in parallel with the Audio signal through the headset port of the Avaya phone.

- *Incoming call signaling:* **The phone doesn't send a ring indication signal through the headset port**.

Cabling:

- The following cables are connected to the interface box:
    - To phone: Cable with 4 way modular plug to Headset port
    - To headset: Cable with 8 way modular plug to AUX port
    - To headset: Cable with 4 way modular plug to Phone port

- In this solution, all headset cables (except power) run through the interface box.
