To Whom It May Concern:

PROFESSIONAL INSTALLATION

Attached you will find an application in which we are asking for a waiver of the requirement of 15.203. Our MDR5800 is only sold through authorized dealers who have been trained to install our equipment. A trained professional with RF Exposure knowledge will install it.

We do not sell this equipment retail; it is only sold through authorized dealers.

This equipment requires trained installers because every network is unique and need some software configurations that need to be adjusted at installation, including adhering to FCC RF exposure.

The trained technician will insure that the equipment is installed properly and check the installation.

Yours faithfully
For Tellumat (Pty) Limited

Dr Douw van der Merwe
Technical Director
Broadband Wireless
