

### 3. Specification

#### **FCC RF EXPOSURE INFORMATION**

*WARNING! Read this information before using your phone*

In August 1996 the Federal Communications Commission (FCC) of the United States with its action in Report and Order FCC 96-326 adopted an updated safety standard for human exposure to radio frequency (RF) electromagnetic energy emitted by FCC regulated transmitters.

Those guidelines are consistent with the safety standard previously set by both U.S. and international standards bodies. The design of this phone complies with the FCC guidelines and these international standards.

**CAYTION** : Use only the supplied or an approved antenna. Unauthorized antennas, modifications, or attachments could impair call quality, damage the phone, or result in violation of FCC regulations. Do not use the phone with a damaged antenna. If a damaged antenna comes into contact with the skin, a minor burn may result. Please contact your local dealer for replacement antenna.

#### **Body-worn Operation**

The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. BIP-5000 Device (FCC ID: SS4BIP5XX0) has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification for use at the ear is 0.573 W/kg and when properly worn on the body is 0.956 W/kg.
