<u>Note</u>

This manual contains important safety measures and information to use the product correctly. In order to avoid using improperly, please read the manual carefully before using it.

● Never use the device in extremely cold, hot, dusty and moist environment.

● Please avoid the device from falling down, being hit strongly and suffering severe vibrations. Otherwise, it would lead to damage or abnormal display of the Device Screen. User shall be held

responsible for the damage in such circumstances.

- Battery life will vary with the conditions and environment in which Device is in use.

- Please charge the battery in time if any following conditions:

    A. The system warns that the power is low.

    B. There is no response when operating the keys.

- When you are formatting or uploading or downloading the documents do not disconnect the device suddenly. If you do like that probably it leads to device failure. Aura 1 is not responsible for any document losses incurred due to damage or repair the machine or other reasons. If you have any questions, please connect to the dealer. Do not disassemble the machine independently. Otherwise, you will lose the warranty that our company is committed to. The user will be responsible for the entire problem caused by disassembling the machine without permission.

- Because the difference of calculating the capacity, the player system firmware and FLASH memory FAT partition table should occupy certain memory space. There might be some

discrepancies between the memory capacity marked on the logo and the memory capacity connected to PC, which depend on the firmware version and FLASH category used by the Device.

- The product performance and functionality may be different with different version of software. We'll not give further notice. The company reserves the right to improve the product.

3. Basic Operations:

Camera	13 MP Rear main camera and 5MP Front-facing camera, Digital Front

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning

1) This product conforms with standard EN50332. Use careful with the earphone maybe possible excessive sound pressure from earphones and headphones can cause hearing loss.

2) The product shall only be connected to a USB interface of version USB2.0

Please use common USB Cable or original charger, Otherwise, It may result to danger. When you use a charger for charging, adapter shall be installed near the equipment and shall be easily accessible.

Manufacturer of Power Adapter: KUANTECH CO LTD

Model: KSA29B0500200D5

Parameters of Power adapter: INPUT: AC 100`240V 50/60Hz 0.5A

OUTPUT: 5V/2A

3) Extreme Operating Temperature : -20~+45℃

4) For 5G WIFI application, The device is designed to operate only in slave mode and can not operate in master mode. The device is defined as a client device for 5G WIFI application. The device is designed to use indoor only (for 5G WIFI application).

CAUTION: RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.

Specific Absorption Rate (SAR) information:

This phone meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

FCC RF Exposure Information and Statement The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: LTE Phone (FCC ID: SS4SF550) has also been tested against this SAR limit. This device was tested for typical body-worn operations with the back of the phone kept 10mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 10mm separation distance between the user's body and the back of the

phone. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

Body-worn Operation

This device was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of 10mm must be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.

Declaration Of Conformity

Hereby, **BLUEBIRD INC.** declares that this LTE Phone is in compliance with the essential requirements and other relevant provisions of directive 1995/5/EC.
