Frequently asked questions

I cannot pair the headset with my handset.	You can delete the headset pairing on your handset. Try following [pairing] on page 6.
How far away from my handset will the headset work?	The operating range is typically up to 30feet (10meters). The actual distance may vary depending on the situation.
Will the headset work with laptop, PDA, and PC?	The headset will work with devices that are compliant with bluetooth function and support the headset, hands-free, A2DP and AVRCP profiles.
Will the headset work with my cordless phone at home?	The headset is not designed for use with cordless phones.
Will anything cause interference with my conversation when I'm using the headset?	Appliance such as cordless phone and wireless networking equipment may cause interference with your conversation. To reduce any interference, keep the headset away from other devices that use or produce radio waves.
Can other bluetooth headset users hear my conversation?	When you pair the headset to your handset, you are creating a private link between only these two bluetooth technology in the headset is not easily monitored by third parties, because bluetooth wireless signals are significantly lower in radio frequency power than those produced by a typical mobile handset.
How do I take care of the headset?	To clean the headset, use a clean, soft cloth that is slightly damp.
Will the headset interfere with my car's electronics, radio, or computer?	The headset produces significantly less power than a typical mobile handset. It also only emits signals that are in compliance with standard consumer-grade electronics equipment.
Can I change battery in the headset?	Warranty and parts replacement of this product is 6 months. If you want to replace the battery, visit the authorized A/S center. Battery life will vary due to usage patterns and environmental conditions.

Safety precautions

- Please note the followings in using your headset.
 - Do not drop or cause severe impact to your headset.

Supported Bluetooth Profiles	Headset / Handsfree / A2DP / AVRCP
Frequency range	2402 ~ 2480 MHz
Output power	0.25 ~ 2.5 mW
Operating Range	Up to 33 feet (10meters)
Dimensions	55.6mm(L) * 17.8mm(w) * 11mm(H)
Weight	9.8g
Operating Temperature	-10°C ~ 60°C
Battery type	3.7V, Li-Polymer
Talk time	Up to 7 hours
Music play time	Up to 5 hours
Stand by time	Up to 120 hours
Charging time	< 3 hours

* Time of battery may differ from the above, depending on your using conditions and circumstances.

Declaration of confirmation

FCC NOTICE TO USERS

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation (of the device).

IMPORTANT NOTE

According to the KDB447498 (3)(b)(c), The output power is lower than 25 mW for any simultaneous transmitting antenna for which stand-alone SAR evaluation is not required. This equipment complies with FCC radiation exposure. Any change to the antenna or the device could result in the device exceeding the RF exposure requirements and void user's authority to operate the device

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's (or your) authority to operate the equipment.
