

Thank you for purchasing the Bak Board Wi-Fi©, an affordable, innovative tablet PC conceived by Bak USA in Buffalo, NY. Your new Bak device delivers a carefully calibrated combination of high performance components and truly unique affordability. It is powered by Android™ Operating System Kit Kat with a powerful CPU to give you fast and easy access to all that the Google Play Store has to offer. With an upgraded battery life capacity meant for all-day usage, the Bak Board is also the perfect travel companion, classroom utility or everyday entertainment center. So whether you're playing games consuming HD media or reading from a textbook or a novel your Bak Board will be the ideal tool for you and your friends to enjoy.

We hope that you love it as much as we loved making it for you.

Bak USA is a multinational social enterprise that seeks to further universal education, employment, and connectivity worldwide through the assembly and sale of low-cost PC tablets and phones. Founded by the Bak family, this innovative start-up is continuing its roll-out of niche tablet PC factories in Buffalo, New York, by employing dynamic members of the city's local community to assemble their affordable, high-quality products in the USA.

425 Michigan Avenue, Buffalo, NY
