1 ABOUT BOOMAX

BOOMAX is a Bluetooth V4.0 compliant, low energy Bluetooth medium size speaker with incredibly big and clear CD music quality sound (i.e. apt-X) and bass. It is compatible with most smart phones, tablets, notebooks, PCs, and most devices with built-in Bluetooth.

BOOMAX comes with its stereo output power of 3 Watts x 2, its classic shape matches well with the carefully chosen anodized aluminum-alloy colors, it also comes with a detachable handle suitable for outdoor use. With built-in microphone, it can be used as a portable Bluetooth speakerphone.

The built-in battery can support up to 12 hours talk time and 12 hours playing music time (i.e. depending on volume and music type). Its compact size and only measures 110(W) x 56(L) x 92(H)mm. With its voice guidance, BOOMAX tells you what you need to know about the pairing.

15 CARE INSTRUCTIONS BOOMAX

Taking care of your BOOMAX

- Always store the BOOMAX with the power off and safely protected.
- Avoid storage at extreme temperatures (above 45°C or below -10°C). This can shorten battery life and may affect operation.
- Do not expose the BOOMAX to rain or other liquids.

16 Environmental Protection BOOMAX

After the implementation of the European Directive 2002/96/EU in the national legal system, the following applies: Electrical and electronic devices must not be disposed of with domestic waste. Consumers are obliged by law to return electrical and electronic devices at the end of their service life to the public collection points that are set up for this purpose or designated points of sale. However, such details are defined by the national law of the respective country. This symbol on the product, the instruction manual or the packaging indicates that the product is subject to these regulations. By recycling, reusing the materials, or other forms of utilizing old devices, you are making an important contribution in protecting our environment.

17 FCC STATEMENT BOOMAX

This device complies with Part 15 of the FCC Rules. Operation is subject to the following conditions :
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

17 FCC STATEMENT BOOMAX

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
