-  This excitation point, within an equivalent fringe, is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product.
-  The lightning bolt with circled symbol within an equivalent fringe is intended to alert the user to the presence of "unfused" (dangerous voltage) within the product's enclosure that may be of sufficient magnitude to constitute a risk of electrical shock.

Important Safety Information

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with a dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9. Do not defeat the safety purpose of the polarized or ground plug: A polarized plug has two blades with one wider than the other. The wide blade is provided for your safety. When the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched particularly at plug, convenience receptacles, and the point where they exit from the apparatus.
11. Only use attachments/accessories specified by the manufacturer.
12. Use only with a cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
- 
13. Unplug this apparatus during lightning storms or when unused for long periods of time.
14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
15. To Reduce The Risk Of Fire Or Electric Shock, Do Not Expose This Apparatus To Rain Or Moisture.
16. Apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, shall not be placed on the apparatus.
17. No naked flame sources, such as lighted candles, should be placed on the apparatus.
18. CAUTION: Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.
19. Batteries (battery pack or batteries installed) shall not be exposed to excessive heat such as sunshine, fire or the like.
20. The mains plug of the power supply cord (or alignment coupler) shall be remain readily operable.
- 
13. Déconnectez ce appareil durant les tempêtes électriques ou quand ficar sans uso durante longos períodos.
14. Confie a manutenção a técnicos qualificados. A manutenção é necessária quando o aparelho for danificado de qualquer maneira, como quando o cabo de energia ou plugue for danificado, quando líquido for derramado sobre ele ou objetos caírem dentro do aparelho, quando ele for exposto à chuva ou umidade, não operar normalmente ou for derrubado.
15. Para reduzir o risco de fogo ou choque elétrico, não exponha este aparelho à chuva ou umidade.
16. O aparelho não deve ser exposto a gotejamento ou respingo de líquidos e objetos cheios de líquido não deverão ser colocados sobre o aparelho.
17. Fontes de chama aberta, como velas acesas, não deverão ser colocadas sobre o aparelho.
18. CUIDADO: Perigo de explosão se a pilha for colocada incorretamente. Substitua somente por pilhas do mesmo tipo ou equivalentes.
19. As pilhas (pacote de pilhas ou pilhas instaladas) não devem ser expostas à calor excessivo como do sol, fogo ou semelhança.
20. O plugue da rede elétrica do cabo de alimentação (ou acoplador do dispositivo) deverá permanecer prontamente operável.

Informações de segurança importantes

1. Leia estas instruções.
2. Guarde estas instruções.
3. Atenda todos os avisos.
4. Siga todas as instruções.
5. Não use este aparelho perto de água.
6. Limpe somente com pano seco.
7. Não bloqueie as aberturas de ventilação. Instale de acordo com as instruções do fabricante.
8. Não instale perto de fontes de calor como radiadores, registros de calor, fogões e outros aparelhos (incluindo amplificadores) que produzam calor.
9. Não anule o propósito de segurança do plugue polarizado ou de aterramento: Um plugue polarizado tem duas lâminas, uma mais larga que a outra. A lâmina larga é fornecida para a sua segurança. Quando o plugue fornecido não encaixar na tomada, consulte um electricista para substituir a tomada obsoleta.
10. Proteja o cabo de energia para que não seja pisado ou esmagado, principalmente no plugue, nos receptáculos para uso geral e no ponto em que sai do aparelho.
11. Use somente anexo/acessórios especificados pelo fabricante.
12. Use somente com um carrinho, suporte, tripé, estrado ou mesa especificada pelo fabricante ou vendida com o aparelho. Quando usar um carrinho, tome cuidado ao movimentar a combinação carrinho/aparelho para evitar danos por tombamento.

English

- Protect the power cord from being walked on or pinched, particularly at the plugs and the point where it exits from the apparatus.
- Only use attachments/accessories specified by the manufacturer.
- Unplug this apparatus during lightning storms or when unused for long periods of time.
- Do not expose this apparatus to dripping or splashing and ensure that no objects filled with liquids, such as vases, are placed on the apparatus.
- To completely disconnect this apparatus from the AC mains, disconnect the power supply cord plug from the AC receptacle.
- Charging your mobile device through the USB port will shorten playback time if the unit is operating by batteries alone.

Warning: Batteries (battery or batteries installed) shall not be exposed to excessive heat such as sunshine, fire or the like.

Speaker Placement

Some helpful guidelines that will help you achieve the best performance from your Beatbox™.

Your Portable Beatbox™ is designed and engineered to sound great anywhere you place it. However, realizing that every space is different, there are placements that will maximize the performance of your Beatbox™. The home environment can present a challenge in choosing the best location for your Beatbox™. The trick is to place the Beatbox™ in a location that will take advantage of the acoustic properties of your room and give you the best overall balance of sound.

Distance to the side walls, back wall and corners can have the biggest impact on the sound of your Beatbox™. The closer the Beatbox™ is to a wall, floor, or ceiling the more bass reinforcement you will get. Maximum bass comes when it's placed in a corner.

The shape of Beatbox™ allows you to place it perfectly into a corner, giving you a great combo of space saving and deep bass. The surface you place your Beatbox™ on can also significantly impact the sound. Make sure you place your Beatbox™ on a solid surface to avoid unwanted distortion to the sound.

English

The height of your Beatbox™ in relation to your listening position can also affect the sound quality. Ideally, your Beatbox™ should be as close to ear level as possible and at least four feet away from your listening position for the best performance.

We encourage you to spend the time to experiment with the location of your Beatbox™. Trial and error is the best way to hear how your Beatbox™ reacts in your environment. Take your time to find the ideal location to ensure you experience the best sound quality your Beatbox™ has to offer.

FCC Statement

FCC ID:COW81000071

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

IC Statement

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio RSS-210. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Le dispositif rencontre l'exemption des limites courantes d'évaluation dans la section 2.5 de RSS 102 et la conformité à l'exposition de RSS-102 rf, utilisateurs peut obtenir l'information canadienne sur l'exposition et la conformité de rf.

Cet émetteur ne doit pas être Co-placé ou ne fonctionnant en même temps qu'aucune autre antenne ou émetteur. Cet équipement devrait être installé et actionné avec une distance minimum de 20 centimètres entre le radiateur et votre corps.

English

FCC Radiation Exposure Statement

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body.

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Caution

The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user authority to operate the equipment.

Canada Statement

This device complies with Industry Canada RSS-210. Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

The device meets the exemption from the routine evaluation limits in section 2.5 of RSS 102 and compliance with RSS-102 RF exposure, users can obtain Canadian information on RF exposure and compliance.
