

5545URF Quick Installation Guide

Congratulations on your purchase of this USB Wireless Keyboard! This unique ergonomics designed keyboard and mouse bring you to a totally free and comfortable field. The whole keyboard is divided into 4 blocks except the normal keyboard function block. Just by a touch can access to the variety of applications and functions that you use everyday immediately.

System Requirements

1. Microsoft®Windows®98SE, Windows®ME, Windows®2000 or Windows®XP operating system
2. Available USB port
3. CD-ROM drive (for CD or Video operation)
4. Standard sound card (for CD or Video operation)
5. Microsoft® Internet Explorer 5.0 or later version (for the Internet keys)
6. The system supporting ACPI or APM II (for power management buttons)
7. ATX mother board and ATX power supply (for power management buttons)

Installation and Usage

◆ Hardware Installation:

Connect the receiver to your computer by plugging in the receiver's connector into your PC .

◆ ID Button:

The ID button locates on the top of the receiver with a LED under to show the connecting condition. This wireless optical mouse contains 65,536 sets ID. The ID-recognition function helps to protect against interference from other RF products in the same environment. Remember to reset ID when other RF products affect your keyboard kit.

Software Installation

◆ USB Device Driver

The USB device driver is included in Windows operating system.

During initial installation of the USB mouse, the system will automatically detect a new hardware being added, and then bring up "Add New Hardware Wizard" dialogue box. Please follow the Wizard's USB driver installation steps. Once this installation step is completed the basic functions of the mouse will work under the operating system. The additional functions are provided after the application is installed.

◆ KeyMaestro Input Device Driver

1. Insert the CD labeled "**EMPREX**" into your CD-ROM.
2. The CD will automatically run and bring up the Setup dialogue box.
3. Follow the on-screen instruction to install the driver.
4. The driver icon  will show at the right-bottom in the Windows system tray when the driver is loaded.

Hot-Key Blocks

Besides the usual keys, this keyboard also has extra-dedicated keys which provide Internet, Sleep, Multimedia and FN Keys Block functions.

These hot keys are reprogrammable, except Volume Up / down and Mute. They can be configured as a string, a combination key, a web site, an existing file, or a function that the driver pre-defines for you. Click KeyMaestro icon in the Windows system tray to reconfigure these keys.

INTERNET KEYS	WWW BACK, WWW FORWARD, WWW STOP, WWW REFRESH, WWW, WWW SEARCH, WWW FAVORITE, EMAIL
Application Keys	Sleep
Multimedia Keys	Mute, Volume up, Volume down, Stop, Play/Pause
FN Key	<p>The FN key, which is located on the left-bottom of the keyboard, is used with the cursor-control keys. When the cursor-control keys are used with the FN key, they become screen-control keys. The key combinations are illustrated as below:</p> <div style="text-align: center;">  </div> <p>Note: The FN key is active only when it is being pressed. As soon as it is released, it becomes inactive.</p>

FCC GUIDELINES

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ♦ Reorient or relocate the receiving antenna.
- ♦ Increase the separation between the equipment and receiver.
- ♦ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- ♦ Consult the dealer or an experienced radio/TV technician for help.
- ♦ Use only shielded cables to connect I/O devices to this equipment.

FCC Warning: This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, (2) this device must accept any interference received, including interference that may cause undesired operation.

Information to user:

The users manual or instruction manual for an intentional or unintentional radiator shall caution the user that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment is intended for use in the following countries EU 15 countries:

Austria, Belgium, Denmark, Finland, France, Germany, Ireland, Italy, Luxembourg, Netherlands, Spain, Sweden, United Kingdom, Portugal, Greece. And other non-EU countries: Switzerland, Norway, and Iceland.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator & your body
