# Quick Installation Guide

## Important Information

For Windows® 7 , Windows Vista® & Windows® XP you can use the mouse immediately after plugging the dongle receiver into your PC USB port.

## Mouse Button Function

Please refer to the mouse drawing picture :

1. Left button	2. Right button	3. Scroll /middle button/battery low indicator
4. Backward	5. Forward	6. CPI button

## Hardware Installation

1. Plug the receiver into your available USB port on PC.
2. Make sure the batteries are installed correctly, please follow the polarity signs in the battery compartment.
3. Please make sure the slide switch on the back of the mouse is switched to "on" before using the mouse. When not in use, you can either slide the power switch to "off" for power saving or store the receiver inside the mouse to turn the power off.
4. **Please hold the mouse close to the receiver within 30 cm and press any key to pair ID, and then you can use the wireless mouse immediately.**

**Receiver Storage:** You could have the receiver housed inside the receiver storage slot. By releasing the battery cover at the bottom of the mouse, and insert the receiver into the receiver storage slot between the batteries to store the receiver.
